TOMATO FIG

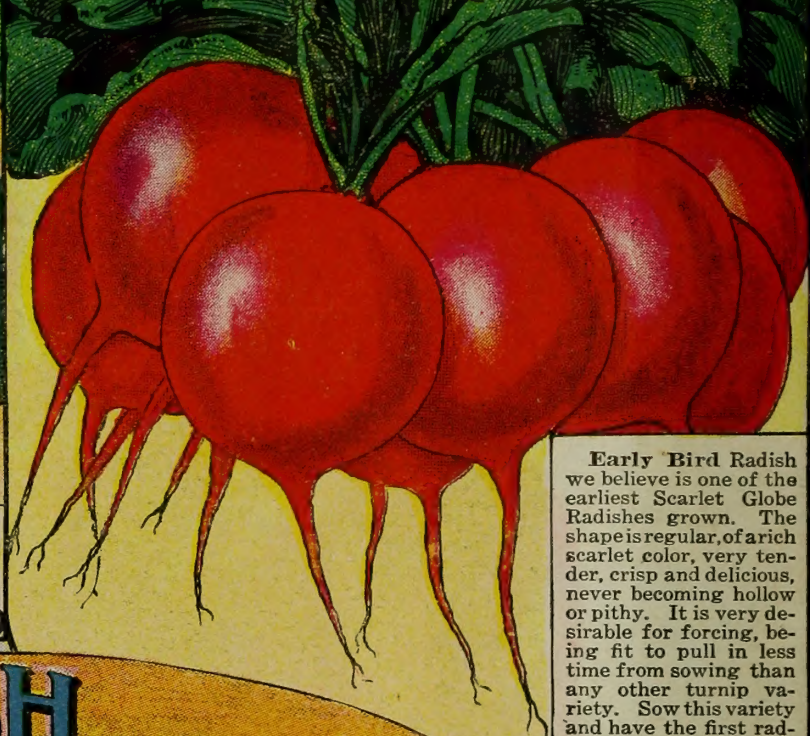

MILLS SEED CO. WASHINGTON, IOWA.

FANCY PICKLES

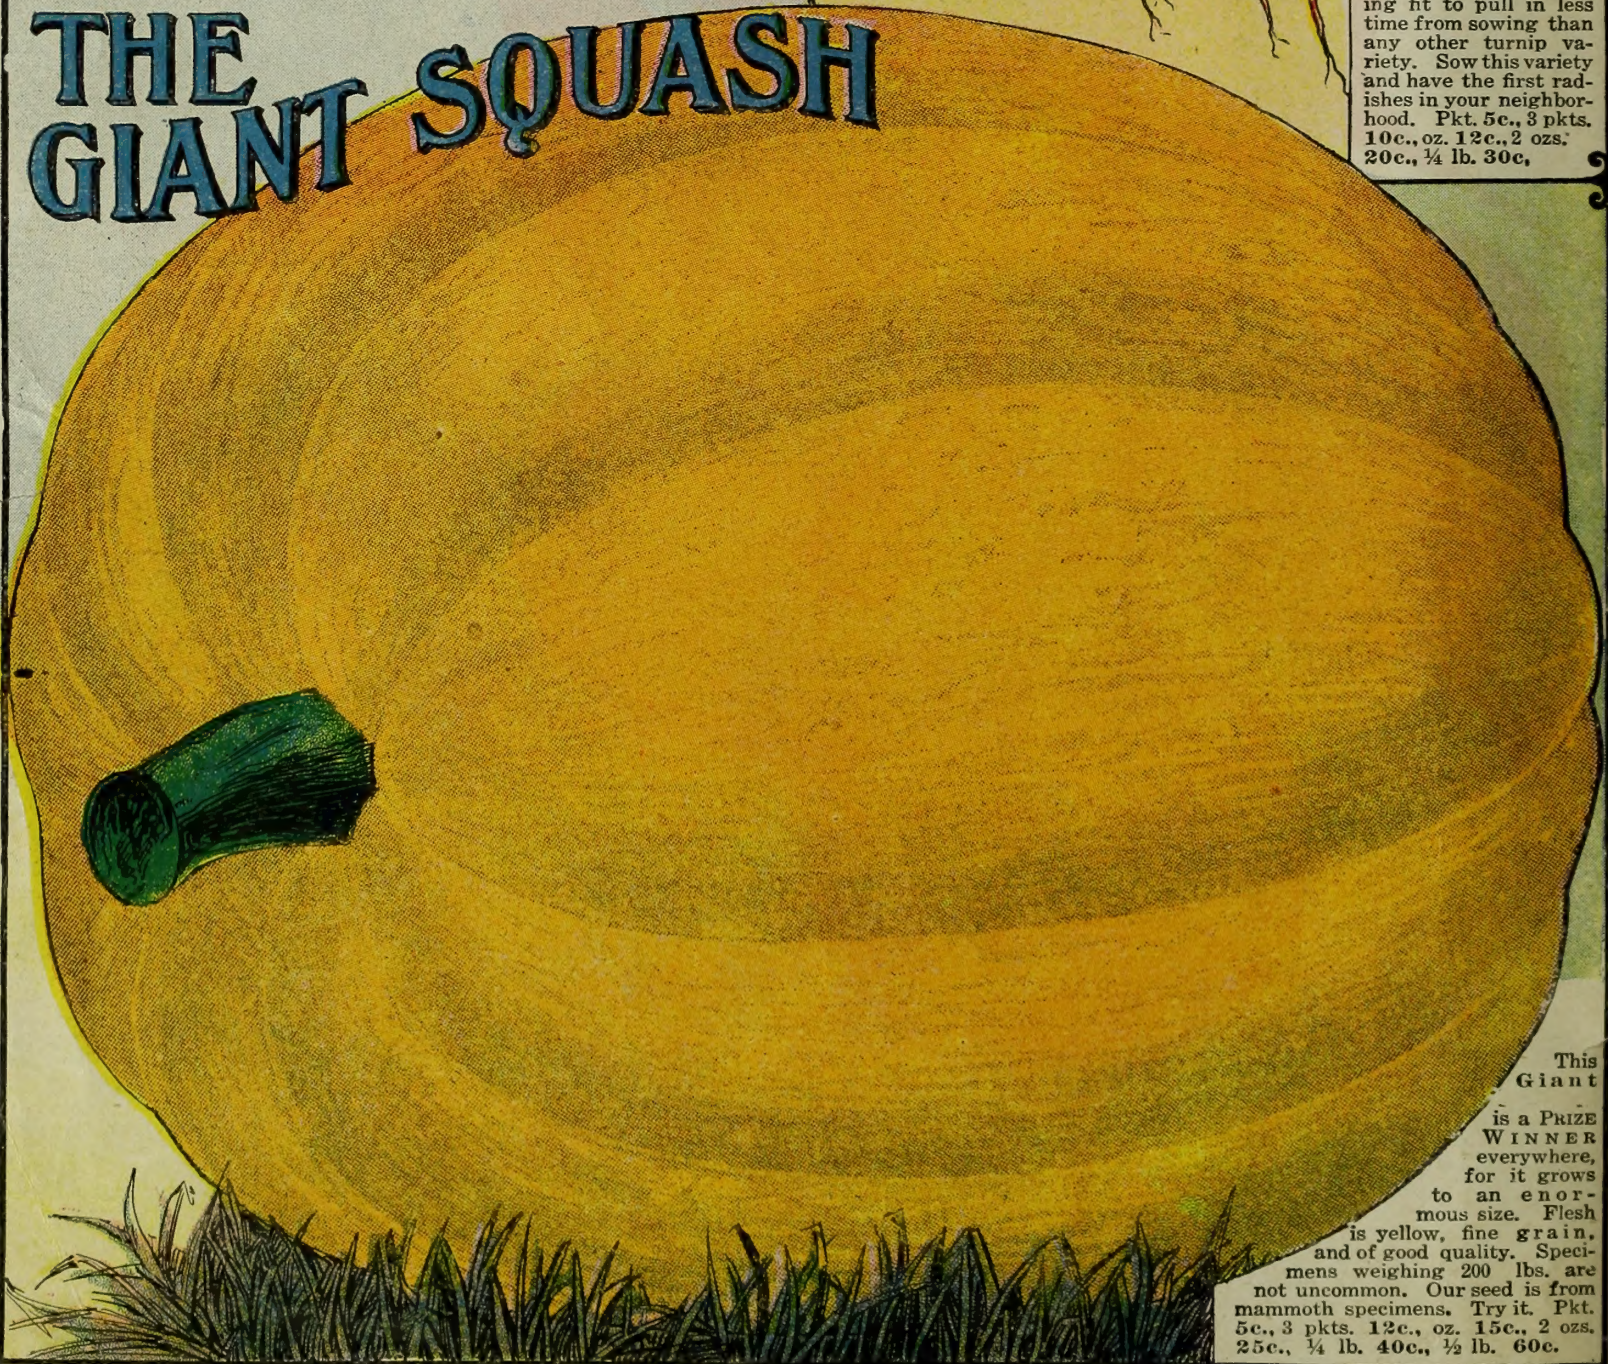

The most perfect strain of pickles ever produced in America. They are perfectly symmetrical in shape and no thick ends, and no small or pointed ends. A marvel of beauty during the bearing months. They are very quick growing, and a fine sort for slicing. Be sure and try them. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00.

THE EARLY BIRD RADISH

Early Bird Radish we believe is one of the earliest Scarlet Globe Radishes grown. The shape is regular, of a rich scarlet color, very tender, crisp and delicious, never becoming hollow or pithy. It is very desirable for forcing, being fit to pull in less time from sowing than any other turnip variety. Sow this variety and have the first radishes in your neighborhood. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 30c.

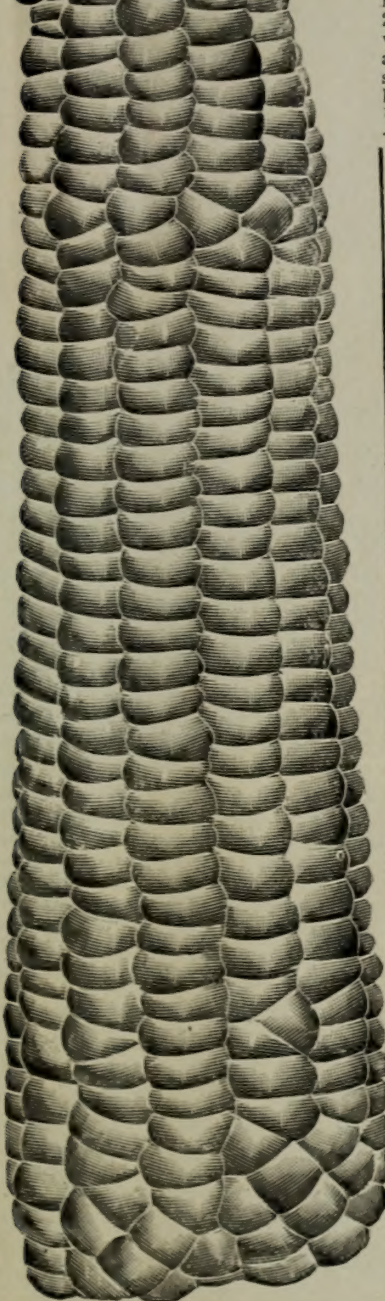

THE GIANT SQUASH

This Giant is a PRIZE WINNER everywhere, for it grows to an enormous size. Flesh is yellow, fine grain, and of good quality. Specimens weighing 200 lbs. are not uncommon. Our seed is from mammoth specimens. Try it. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., ¼ lb. 40c., ½ lb. 60c.

NOVELTIES AND SPECIALTIES 1

OREGON EVERGREEN SWEET CORN

OREGON EVERGREEN SWEET CORN

This is a great Corn for market gardeners. The advantages of it over all others are its earliness, its large size, rarely less than 8 in. long, clear of husk; grains are full to the tip; husk is very thick and folds tightly over the grains. The thick husk is also desired by the groceryman, because it can be held over 2 days before it appears old or wilted. It is very productive, averaging 3 good ears to every stalk, often bearing 5 marketable ears. Pkt. 6c., 3 pkts. 15c., 1/2 pt. 20c., pt. 30c., postpaid.

ANAHEIM CHILI PEPPER

This is a very peculiar Pepper and is worth growing. While traveling in California we found it and at once arranged for a supply of seed. The seed we have was procured from selected Peppers, and not one pod was less than 7 inches long. It is a safe Pepper to plant; it has no insect enemies; when dried it is not perishable. The price is rarely less than 10 cents per pound dried, and often double that figure. If you want a novelty grow it. Pkt. 5c., 3 pkts. 12c.

Sweet Mountain Pepper

Best Sweet Pepper that can be offered. The plant is of vigorous upright growth and very productive. The Peppers ripen early and are heavier than the average large Pepper as the flesh is very thick and of an unusually mild sweet flavor. They are large, smooth, of a very desirable shape and handsome red color. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 12c., oz. 20c.

BABY GOLDEN POP CORN

It is a small type of Rice Pop Corn with a lustrous golden color and the best popping corn for tenderness that has been produced, there being absolutely no hard center after popping and every kernel will pop. The ears are from 2 to 2 1/2 inches in length and one stalk will produce from 5 to 7 ears, filled out at butt and tip perfectly, and everything considered, it is the most profitable Pop Corn to grow. There is a great demand for this Pop Corn among Pop Corn merchants. From 4 to 6 quarts will plant an acre and a few packets will grow enough to supply a family for a year. Pkt. 5c., 3 pkts. 10c., 1/2 pt. 25c., pt. 40c., qt. 65c., postpaid.

MAMMOTH PEANUTS

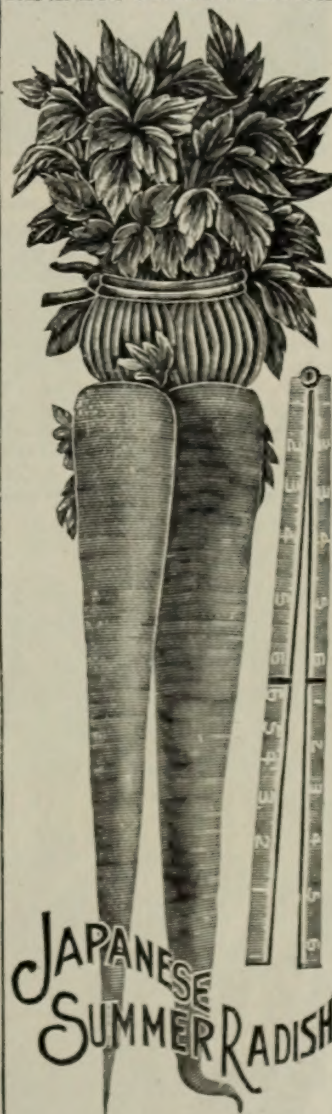

Peanuts can be grown successfully in any place that will grow corn and their culture is very simple. The Mammoth is the best yielder of nuts and the most desirable one to grow, as it is not of the spreading kind, the foliage standing upright. This variety also produces fewer imperfect pods than any other kind. One acre will produce from one to two tons of vines and they are valuable feed for horses, cattle and sheep, while the benefit to land in growing Peanuts is nearly equal to a clover crop. Planted in April they will ripen in September, even as far north as Canada. Large pkt. 5c., 3 pkts. 12c., 1/2 lb. 20c., lb. 30c., 3 lb. 60c., postpaid. By ex. or frgt., not prepaid, 10 lbs. or over, 15c. per lb.

MEXICAN BOUQUET PEPPER

Grows from 1 1/2 to 2 feet high; is very prolific, producing a large number of clusters of Peppers in the form of a bouquet, as shown by the engraving, there being from 12 to 36 cone shaped fruits to each bouquet. It makes a beautiful plant. Pkt. 5c., 3 pkts. 12c.

JAPANESE SUMMER RADISH

This Radish was introduced by the Japanese several years ago. Its beautiful white color and mammoth size attracts great attention. It is very tender and the flavor is excellent and mild. It grows about 18 inches in length and 3 inches in diameter. Pkt. 5c., 3 pkts. 12c., oz. 20c.

JAPANESE CLIMBING CUCUMBER

Young plants grow very bushy but as soon as they become established begin to climb and may be grown on trellises, fences or poles making it quite a curiosity. The vines cling so tightly that they are not prostrated by heavy storms of wind or rain. They grow very fast beginning to produce fruit early and continue through the season; fruit grows to good size producing but few seed. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

NEW
PEPPER
ANAHEIM
CHILI

2 TOMATO FIGS

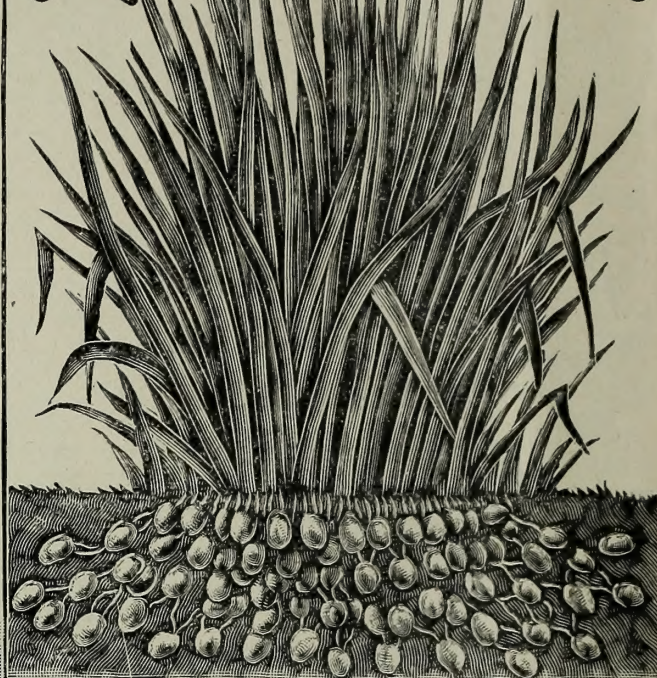

(See Front Cover)

This is a beautiful variety and much used for making figs. The plant grows in the form of a bush literally covered with fruit of a rich golden yellow, the flesh being thick meated and of good flavor.

When dried in sugar like figs, make excellent pies or tarts for winter use. Pkt. 5c., 3 pkts. 12c.

GROUND ALMONDS

Grow an Equal to Tropical Nuts in Your Own Garden From Seed

GROUND ALMONDS are very choice nuts of fine flavor, resembling the cocoanut or Almond, and those who have tested

Prefer it to the genuine Almond. The meat is snow white covered with a thin shell or skin of brown color which is easily removed. It is very easy to grow and a single nut

will yield from 200 to 300 nuts in a hill. The illustration gives a good idea of a hill growing which shows that the nuts are produced close to the surface and the foliage is of a handsome green color resembling wide blades of grass. It is a very prolific grower and will do well in any kind of soil. The nuts should be planted in the spring about the same time corn or potatoes are planted, and by fall the nut will be matured, ready to harvest. Pkt. 5

nuts, 10c., 3 pkts. 25c., 6 pkts., 300 nuts 45c., postpaid.

GIANT CRIMSON RHUBARB—Stalks grow to a medium size, of good length, about one inch in diameter, of beautiful crimson color, the quality being simply superb fully equal to the finest berries for sauce or pies. The skin is so thin and tender it is not necessary to remove it and when cooked a beautiful crimson sauce is the result. Rhubarb is the first vegetable we have from the ground in spring and it is the easiest plant of all the perennials to grow. A half dozen plants will supply a large family during the season, and plants once established will last for years. Seed—Pkt. 5c., 3 pkts. 12c. Roots—10c. each, 6 for 50c., 15 for \$1.00, postpaid.

NEW TREE EGG PLANT

Tree Egg Plant

The Tree Egg Plant grows tall and stocky, branching freely, holding its fruit up well from the ground. The fruit is a beautiful dark purple color, fine size, extra early, bearing for a long season and keeps well. The quality is the best. Every one interested in Egg Plants will surely want to grow this splendid novelty this year. Pkt. 5c., 3 pkts. 12c.

Dwarf Giant Tomato

The Dwarf Giant Tomato is a magnificent variety. Grows about two feet high, very strong, and produces enormous sized Tomatoes; larger than any other dwarf tomato and a whole crop will average very large throughout the season.

The fruits grow in large clusters, and weigh from one to two pounds each; color is a rich crimson, skin is thin, easily peeled, but very strong; flesh is firm and solid, no core delicious flavor, almost seedless. Pkt. 5c., 3 pkts. 12c.

MAMMOTH FRUITED GROUND CHERRY

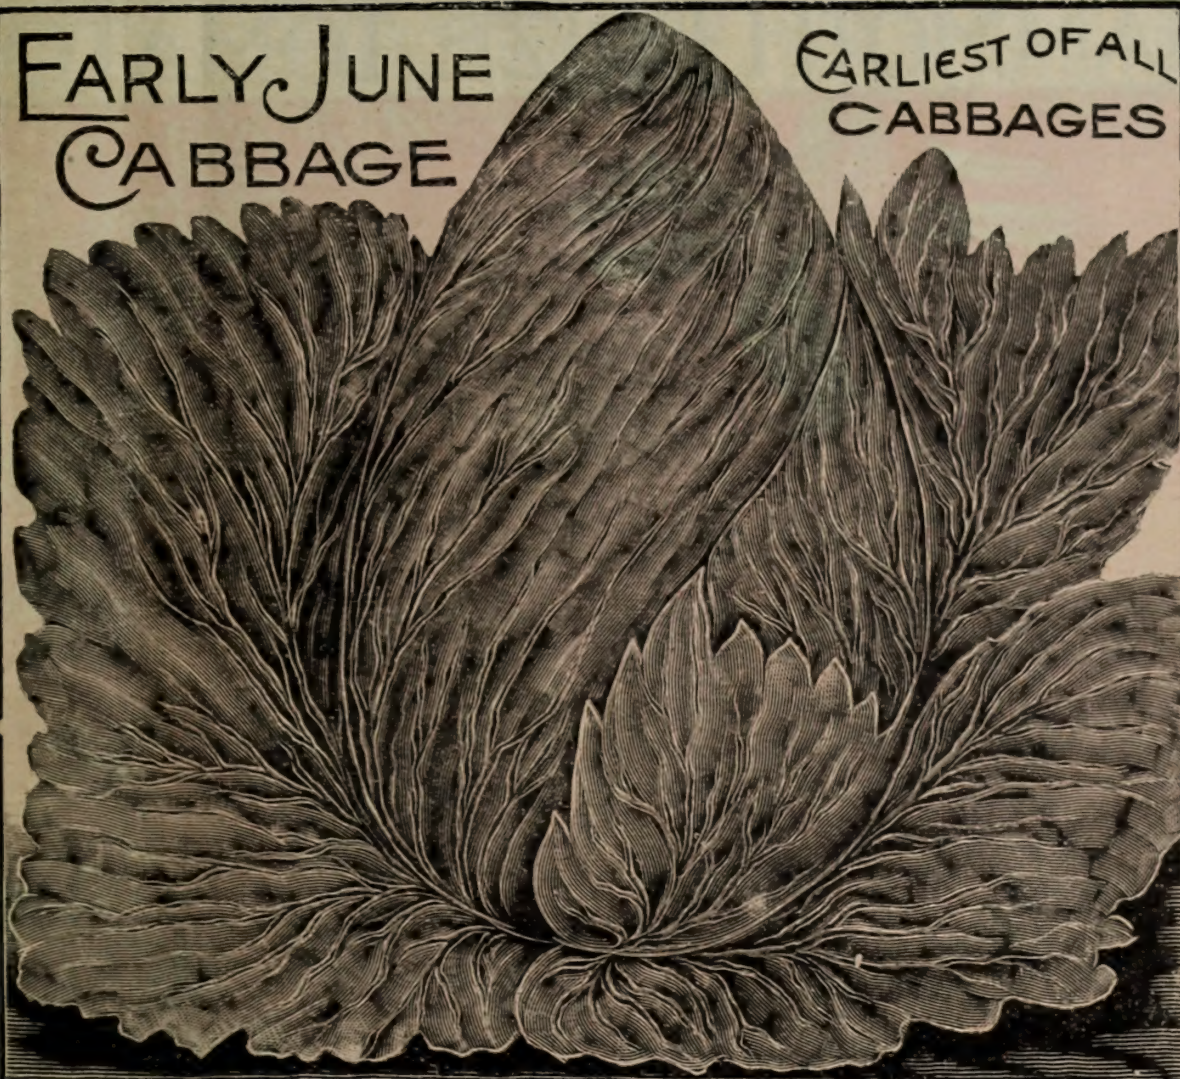

This is by far the most prolific of all Ground Cherries. Besides the fruit is about double the size of any other variety, some of the fruit measuring from 1½ to 2 inches in diameter, of a dark purple, with green flesh. Flavor sweet and delicious; plants grow about 2½ feet high; about same in width; heavy bearers of fruit in ordinary garden soil. Fruit, when picked with the husks on, is a splendid keeper if kept in a cool place. Pkt. 5c., 3 pkts. 12c.

DWARF GIANT TOMATO

EARLY JUNE CABBAGE

EARLIEST OF ALL
CABBAGES

Early June Cabbage

To those whose living depends upon producing the best Cabbage and doing it first, they can rely upon the Mills Early June as being the hardiest and hardest heading variety of any early Cabbages. Quality of seed in Cabbage is more important for good results than in any other vegetable.

The seed should be ordered early so as to be sown in a box in the house, or hot bed in February or March to get good sized hardened plants by the time the ground is in good condition.

Early June is the earliest Cabbage we have ever known, even earlier than our Famous Flat Head that we introduced some years ago. The heads are of fair size, very solid and if you wish to beat others to market with Early Cabbage, you can make no mistake to select the Mills Early June for your crop. They have but very few outside loose leaves and can be planted very close together. Almost every plant is sure to form a perfect head and you will get more Cabbage weight from a given piece of ground than with any other early Cabbage.

We introduced Mills Early June about four years ago and it has been thoroughly appreciated by our customers; no Cabbage having equaled for earliness up to the present.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., 1 oz. 25c., ¼ lb. 75c., ½ lb. \$1.25., 1 lb. \$2.00, postpaid.

WORLD BEATER CABBAGE

World Beater Cabbage—While Early Cabbage is a most necessary and important crop to the trucker and gardener, later varieties are becoming more valuable each year. The World Beater is considered the King of all late Cabbages, for the reason that its small outer leaves permit them being set closer together than any other large Cabbage and will produce more to the acre than any other kind. The heads grow to enormous size, many from 3 to 3½ feet in circumference, weighing from 30 to 50 lbs., is of fine grain and a splendid keeper.

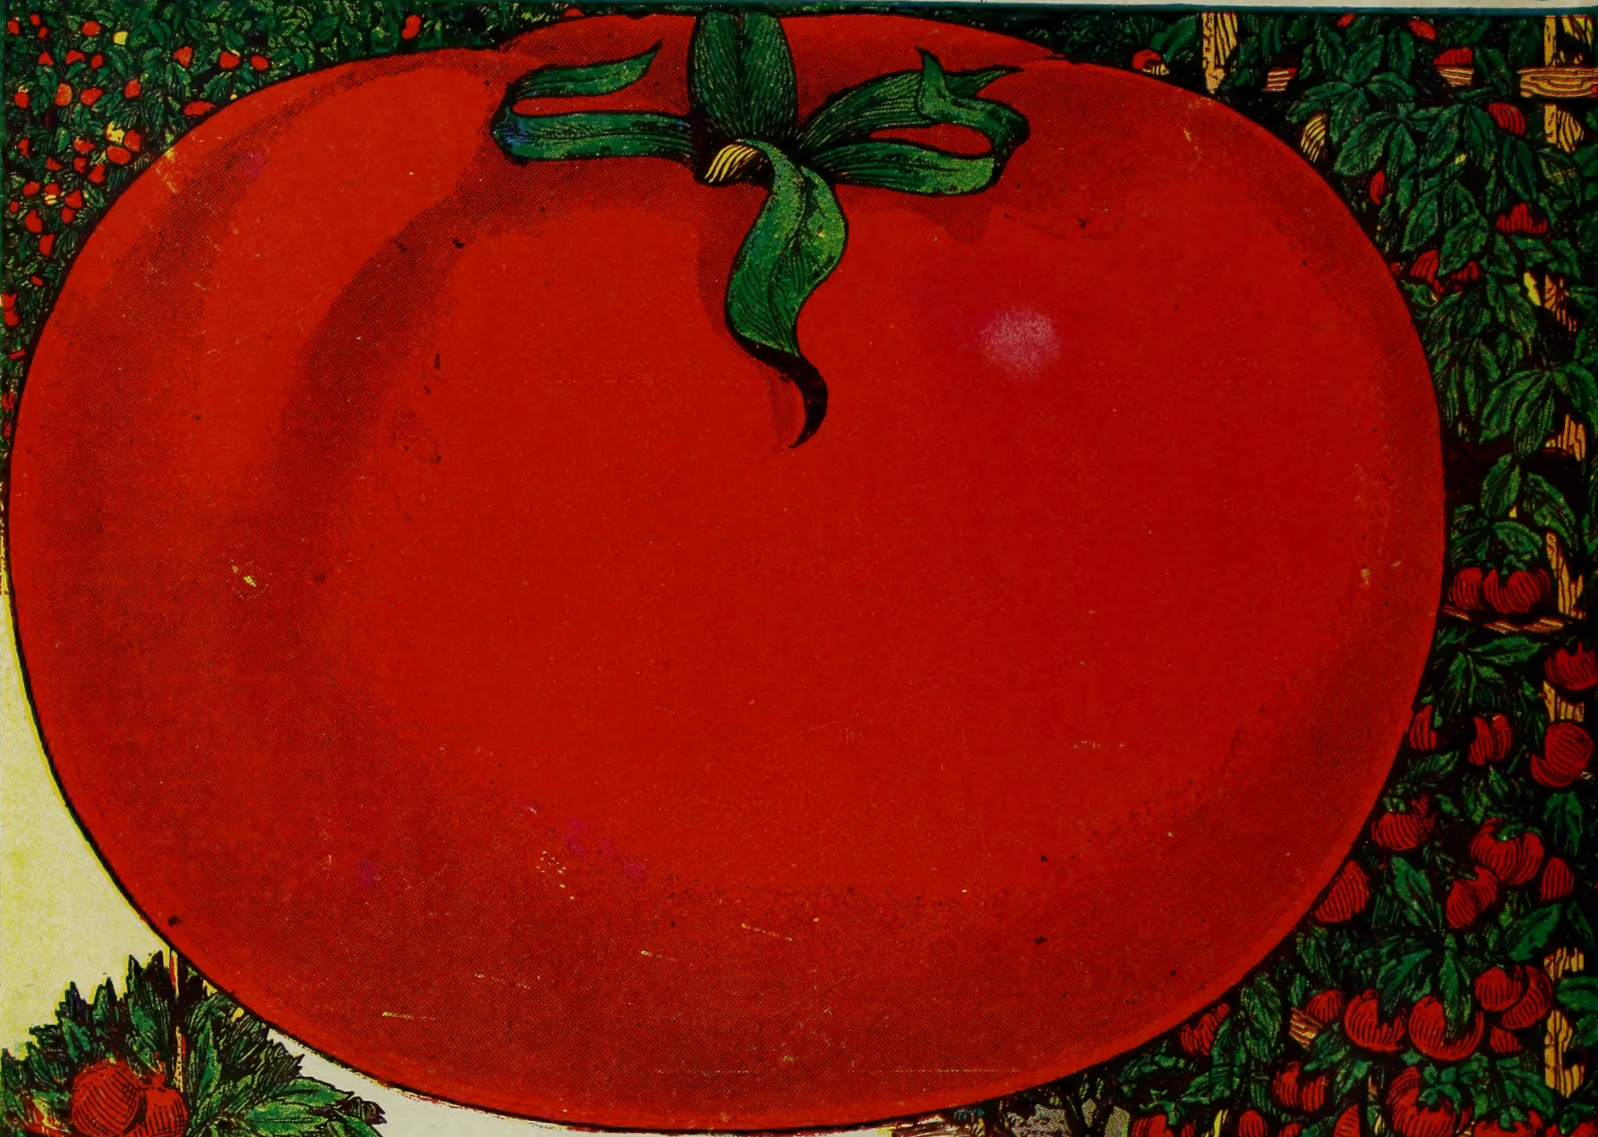

World Beater has stood all kinds of test, has met competition everywhere and is highly recommended.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., 1 oz. 25c., ¼ lb. 75c., ½ lb. \$1.25., 1 lb. \$2.00, postpaid.

The cost of setting an acre of Cabbage, growing and cultivating is no more than growing an acre of corn. Cabbage will ordinarily give 15 to 20 tons to the acre and the price is rarely below \$8.00 or \$10.00 per ton and sometimes reaches \$40.00 per ton.

One ounce of seed will produce from 2500 to 3000 plants and ½ pound of seed in beds will produce enough plants for one acre.

MILLS MAMMOTH PRIZE TOMATO

This is one of the largest Tomatoes grown. We introduced it several years ago, and it has given great satisfaction everywhere. It possesses every good quality to be found in a Tomato. Vines are strong and vigorous, and when properly trained will easily attain the height of 15 feet and carry an enormous weight of fruit. Its massive fruits are almost perfect in form, as shown by the illustration, and are so free from ridges as to seem nearly as smooth as glass, and as to size, weight and solidity, no other mammoth Tomato can approach it. We have seen specimens of this Tomato that weighed $3\frac{1}{4}$ pounds and specimens weighing 2 and 3 pounds each are a common occurrence. The skin is exceedingly firm, and a marked peculiarity of this variety is that it is almost seedless. This makes the seeds cost much more to grow than that of any other variety. If started early, the fruit will ripen from July until killed by frost. There is no garden complete without this mammoth Tomato.

CAUTION—There are the short growing bush tomatoes called Tree Tomatoes and the tall growing called Tree Tomatoes, but if you want the true Mammoth Prize, order your seed of us and you will not be disappointed. We have the genuine stock and offer it at the following prices: Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., $\frac{1}{2}$ oz. 40c., oz. 60c.

MILLS EARLY WONDER TOMATO

This is the great Tomato we introduced five years ago and we have received nothing but praise for it from every section where it has been grown. It has made a wonderful record everywhere. It is handsome in shape, as will be seen by the engraving; very smooth, thick from stem to blossom end, solid and heavy. It is free from cracks or ridges; the meat is solid with only a few seeds. It is a beautiful dark red in color, producing its fruit in large clusters, and taking into consideration all points it is the most perfect Early Tomato we have ever grown. Not only is it perfect in form and quality, but it is a perfect wonder for earliness, producing large handsome red fruit ahead of any other variety we have grown. The vines grow strong, and very hardy, making it desirable for planting. Not half enough can be said in favor of this great Early Tomato. If you want to be ahead of your neighbor grow Early Wonder.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 18c., $\frac{1}{2}$ oz. 20c., oz. 35c., 2 ozs. 60c., $\frac{1}{4}$ lb. \$1.00, lb. \$3.50, postpaid.

MILLS SEED COMPANY, WASHINGTON, IOWA

5

Washington, Iowa, Jan. 1, 1912.

TO OUR FRIENDS AND CUSTOMERS:

In presenting you with this 1912 Seed Annual we feel that we have you to thank for a substantial increase shown in our business of last season. The large number of SPECIAL REQUESTS for our 1911 Seed Annual and the orders that followed must have been brought about by good words from satisfied patrons. We note a large number of customers that sent us the 2nd, 3rd and 4th order last season, the best indication of quick and satisfactory service.

Our big supply of 1911 catalogues was exhausted before the season closed, and we have made sure of having enough of these 1912 books, and if your friends want a copy, please advise us.

The new things we offer in this book have been thoroughly tested and you take no chances whatever in ordering any new varieties we have offered. Our seed crops of standard varieties was never better and we are prepared to give you clean, pure seeds at very moderate prices.

Promising you good service, we are,

Very respectfully,

MILLS SEED COMPANY,
L. D. LANGWORTHY, Vice-Pres. and Manager.

DIRECTIONS FOR ORDERING:

How to Order—It is very easy for anyone to order Seeds, Bulbs, or Plants from us. In making out an order always write Name, Post Office, County and State the first thing you do, and then write the varieties you want, quantity of each and carry out the catalogue price after each one and enclose the total amount in any convenient form of remittance and send it to us by mail and we do the rest. Be sure to use our Order Blank if you have it. If not, any writing paper will do.

Free by Mail or Express—We send Seed, Bulbs or Plants postpaid by mail at the prices named in this catalogue, except where there are special quotations for the goods to be sent by Express, customers to pay the charges. To points where the Express companies touch we can send some orders as cheaply by express as by mail. Whenever we do this we notify the purchaser to that effect. This brings our seeds to the door of our customer, without any trouble and expense.

Express or Freight—We do not prepay Express or Freight, except in case we have quite an order purchased at postpaid prices to deliver and may prefer to send it by Express prepaid.

Prepaid Railroad Stations—Many of our farmer customers live near prepaid railroad stations where there are no agents. In such cases we cannot ship unless we prepay the charges, and whenever it is possible we ship to the nearest station to this prepaid station, as we never pay freight charges. This insures quick delivery and no danger of loss.

How to Send Money—We advise our customers to send money by either Post Office Money Order, Express Money Order, Bank Draft or Registered Letter. Small amounts will be

accepted in postage stamps when it is not convenient to send anything else. Silver or gold coin should be sewed or pasted in cloth or pasteboard to prevent breaking through the envelope, and then it should be registered. Do not send money loose in a letter. It is not safe, and if lost we are not responsible for it. We earnestly request our customers to remit by Money Order if possible. The fee on a money order is only 3c. to 5c. for small amounts and nearly all Post Offices issue them.

Terms and C. O. D. Shipments—Our terms are strictly cash with the order. We must decline to ship goods C. O. D. unless the purchaser remits in advance at least one-third the amount of the order and we do not accept C. O. D. orders for less than \$3.00 on any goods we sell.

Important—It sometimes happens that an order is lost in coming to us or the goods in going to the customer; therefore, if any who order do not hear from us within a reasonable length of time, they should send a duplicate order, naming date former order was sent and amount enclosed, and we will promptly investigate and fill the duplicate order at once.

Our Guarantee—We exercise the greatest care to have all our Seeds, Bulbs, Plants, Roots, etc., fresh, clean, pure and true to name and to reach the customer in good condition, and grow if properly planted. Our goods must be carefully inspected by purchaser upon receipt, and if they are not found as above we will refill the order, free of charge, providing sufficient proof is given us within a reasonable length of time. We cannot guarantee crops and will not be held responsible for them or for any liability other than as above, and if our goods are not accepted on these conditions, they must be returned at once.

ASPARAGUS—Four Best Varieties

Asparagus

PALMETTO—This is the finest and best variety grown; remarkably tender and rich when cooked; free from any tough or woody fibre. Pkt. 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 65c.

BARR'S MAMMOTH—Stalks very large; grow quickly; light in color; nearly equal to the Palmetto, but somewhat larger. Per pkt., 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb., 65c.

CONOVER'S COLOSSAL—A well known large, rapid grower. Pkt. 5c.; oz., 10c.; ¼ lb., 15c.; ½ lb., 25c.; lb. 40c.

COLUMBIAN MAMMOTH WHITE—This is a new variety; has white shoots which stay white as long as fit for use. It can be depended upon to give a very large per cent of white plants from seed. Pkt. 5c.; oz., 10c.; ¼ lb., 25c.; ½ lb., 40c.; lb. 65c.

ASPARAGUS ROOTS

We offer a good supply of strong roots which will be carefully packed and sent by express or freight, not prepaid.

Price, 25 roots, 30c. 100 for 75c. 500 for \$3.25, 1000 for \$6.00. If wanted by mail add 50c. per 100 roots for postage.

ARTICHOKE

The Globe Artichoke is cultivated for its flower heads, which are cooked like Asparagus. We offer the Green Globe which is the standard variety. Pkt. 6c.; 3 pkts., 15c.; oz., 30c.

BRUSSELS SPROUTS

PERFECTION—We consider this the best variety grown. It is very tender good flavor and stands the frost quite well. Grows a stem 2 feet high, and on this produces sprouts two inches in diameter, resembling miniature cabbage.

Pkt. 5c.; 3 pkts., 10c., oz., 15c. ¼ lb. 40c.; ½ lb. 70c.

TWO OF THE BEST BUSH BEANS FOR THE GARDEN

The Bountiful Bush Bean

BOUNTIFUL—

A Great Stringless Green Pod Bean, very early, pods large, long, meaty, best quality, a continuous bearer. Pkt. 6c., 3 pkts., 15c., ½ pt. 14c., pt. 25c., qt. 40c. postpaid. By express or freight, 4 qts. 60c., peck, \$1.00, bu. \$3.50.

MILLS RUST

PROOF WAX—Best Wax Bean. Very early, grow upright and robust, beautiful golden color; unsurpassed in quality. Pkt. 6c., 3 pkts., 15c., ½ pt. 14c., pt. 25c., qt. 40c., postpaid. By express or freight, 4 qts. 70c., peck, \$1.25, bu. \$4.00.

Mills Rust Proof Wax Bean

Giant Stringless Green Pod

GIANT STRINGLESS GREEN POD—Is claimed to be absolutely stringless and the best stringless Bean. The pods are ready for market several days earlier than the best strain of Red Valentine or Early Six Weeks making it very valuable. The rich green pods, from 5½ to 6 inches long, are so round that the back is creased, and when full grown are of fine flavor and very tender. It is very valuable for market gardeners and canning establishments. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c., pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid, 4 qts. 80c., pk. \$1.50, bu. \$5.00.

Burpee's New Kidney Wax Bean

This is a grand new Wax Bean. Plants grow erect from 18 to 20 inches high. The foliage is entirely free from blight, even in wet weather, and the pods are free from rust. The pods are 6 to 7 inches long, the color being a rich lemon yellow. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c., pt. 30c., qt. 50c.

Prolific Black Wax

Tender, yellow, with transparent pods 3 to 5 inches long, of the best flavor, stringless. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, bu. \$3.50.

Refugee, or 1000 to 1

Grow about 15 inches in height, branching freely. Pods are nearly round, light green in color, 5 to 6 inches long, tapering to a slender point, and very prolific. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 45c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, bu. \$3.50.

FORDHOOK BUSH LIMA

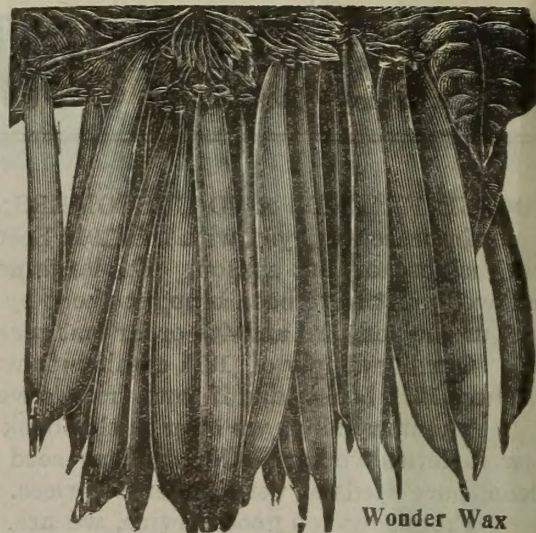

This is a Bush Lima that has been so largely advertised and which created quite a sensation. It grows erect, branching freely and bears enormous crops, and the beans are ready for use as early as those of Burpee's Bush Lima. The pods measure 4 to 5 inches in length, containing 4 to 5 beans each. It is a grand Lima Bean and we offer a choice crop of new seed. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., ½ pt. 30c., postpaid.

Burpee's Improved New Bush Lima

A Bush Lima Bean of stout and erect growth, from 18 to 20 inches high, branching freely and forming plants about 2½ feet in diameter. Very prolific, bearing large pods filled with beans of the same size and excellent flavor as the pole variety. Pkt. 6c., 3 pkts. 15c., ½ pt. 18c., pt. 25c., qt. 40c.

Wonder Wax

This is a real wonder. The plant is of sturdy growth and always laden with handsome wax pods produced in great profusion, of a bright lemon yellow color, of medium size, brittle meaty and entirely stringless. It is a strong grower, holding its long straight pods well above the ground and is entirely rust proof. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid, 4 qts. 80c., pk. \$1.50, bu. \$5.00.

Wonder Wax

IMPROVED GOLDEN WAX

Very early, pods are large, about 6 in. long, of golden wax color and of the best quality. If gathered young are very tender and brittle. Per pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 70c., pk. \$1.25, bu. \$4.00.

Coffee Berry or Bean

Coffee Bean is easily grown in

any ordinary garden soil and is very prolific. The plant grows very strong, producing a great abundance of pods containing the Coffee Beans. It makes an excellent drink, very nearly equal to good Java Coffee. It can be planted in May and cared for same as Beans and it will be found a good substitute for coffee. Do not fail to plant a few in your garden this year. Pkt. 5c., 3 pkts. 12c., 6 pkts. 18c., ½ pt. 20c., pt. 30c.

Full Measure

A new round podded bush bean producing long round green pods always solid and stringless; is a very prolific grower, producing pods at least five inches long which are always firm and tender and remain fit for use some time after maturity. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid, 4 qts. 75c., pk. \$1.25, bu. \$4.25.

Extra Early Red Valentine (Best Improved Round Pod Strain.)

It matures quickly and is of the very best quality. Early, productive, tender, and desirable for family or market use. Pods saddlebacked, 4 inches long. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, bu. \$3.50.

Early Long Yellow Six Weeks

Extra early, very productive, thick, meaty pod. Long green pods are flat, 6 to 8 inches long, and if gathered young are tender and stringless. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By ex. or frt, not prepaid, 4 qts. 60c., pk. \$1, bu. \$3.50.

King of the Garden Pole Lima

This is a well-known Bean and produces large sized pods and beans which are of the best quality. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. \$1.00, pk. \$1.80.

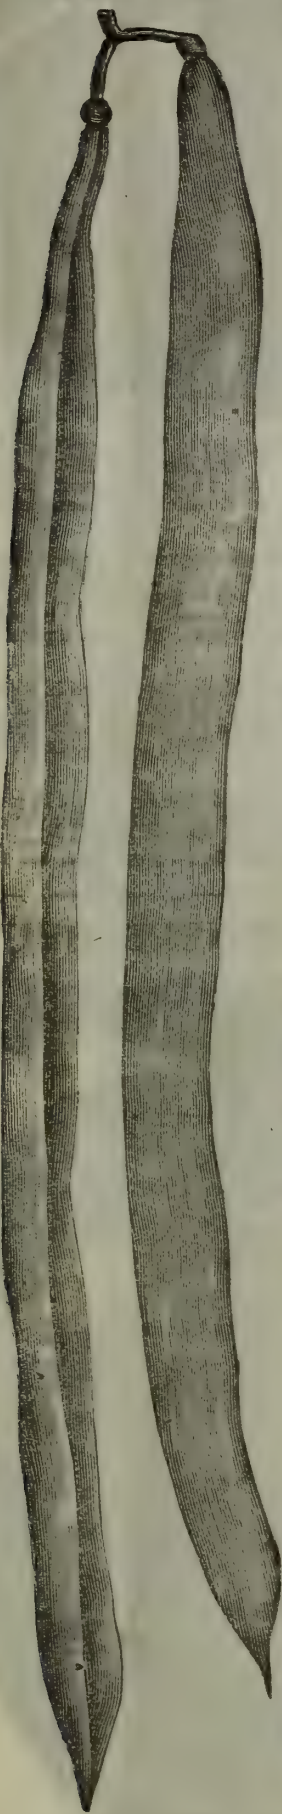

Lazy Wife's—One of the best of the late green podded pole beans. Pods are produced in clusters, 5 to 7 inches long, broad, thick, fleshy and stringless with buttery flavor. The dried beans are pure white and very fine for winter use. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 30c.

SPECIAL BEAN OFFER—We will mail one packet each of 1 Green Pod, 1 Wax Pod, 1 Pole Lima and 1 Bush Lima, customer's choice from our list, 4 packets in all, 15c., postpaid.

Coffee
Berry
or Bean

**Kentucky
Wonder Wax
Pole Bean**

**Early Leviathan
Pole Lima
Bean.**

This is more prolific than the Green Podded Kentucky Wonder. It begins to bear when scarcely higher than the average bush variety and keeps on producing until killed by frost. It is a very strong grower, one vine filling a pole with a mass of vines densely loaded with luscious wax beans. They are solid, meaty, entirely stringless and when cooked deliciously rich and buttery. You will find this a real good Wax Pole Bean, Pkt. 6c.; 3pkts., 15c.; 6pkts., 25c.; ½ pt. 30c.

This is a grand Pole Lima Bean, very early and a continuous bearer, which makes it possible to pick beans throughout the whole summer and until frost in the fall. The pods are very large, produced in clusters and contain four to five large sized, flat beans which are of excellent quality. We consider this Lima the one to be depended upon for producing a good crop in any section of the country. We want all customers who grow Lima Beans to try this one. Pkt. 6c., 3pkts., 15c., ½ pint, 20c., pint, 35c., qt. 60c., postpaid.

GARDEN BEETS 7

Mills Extra Early Blood Turnip
(See Front Cover)

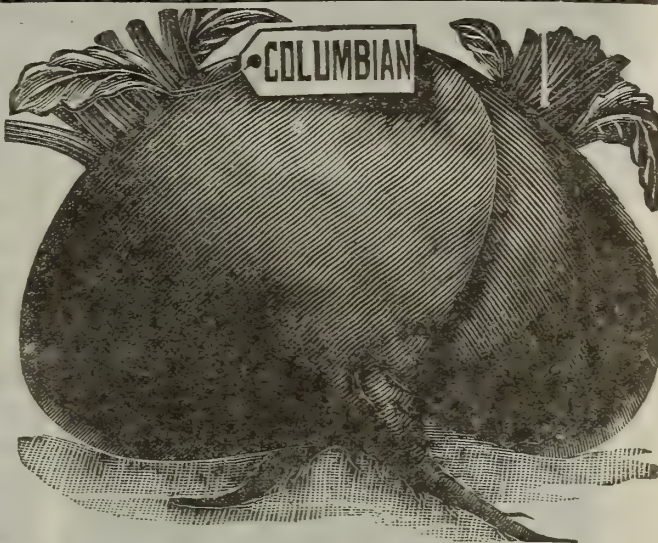

So valuable do we consider this extra selected strain of table beet, that we have given it the front cover of this catalogue to make sure of bringing it to the notice of every person who receives a copy of this catalogue. More than 75,000 gardens contained this beet last year and it has been prized by all that have grown it. It is a great success every where and we expect to supply thousands and thousands of our customers with seed of this excellent strain for planting next season. It is a very early variety and will make a crop within a few weeks from sowing the seed. The color is a rich dark red, is of splendid shape, and makes a good appearance. It has a small top, is very fine grained, and its habit of growth produces very smooth beets of uniform size. For early planting or forcing for spring or summer crops, it is the best of all, and is a splendid keeper for winter use. It is highly prized by market gardeners as it will find a ready sale in any market. Whether you grow for market, or just for your own table, it will be to your interest to give this beet a trial.

Pkt. 5c., 3 pkts. 10c., oz. 12., ¼ lb. 30c., ½ lb. 50c., 1b. 80c.

COLUMBIAN

This beet grows very smooth, has clean roots 3 to 4 inches in diameter, which are ready for use almost as quickly as some of the earlier sorts, and it is of much better quality than many of them. The flesh is deep blood red, tender, and of rich flavor, and it retains its fine quality until the roots have reached full growth. It is claimed by some that this is as early as

the Egyptian. It is one of the best to grow for winter. Even if sown late as July, it will produce roots of good size before frost. Pkt. 5c., 3 pkts. 9c., oz. 10c., ¼ lb. 20c., ½ lb. 35c., 1b. 60c.

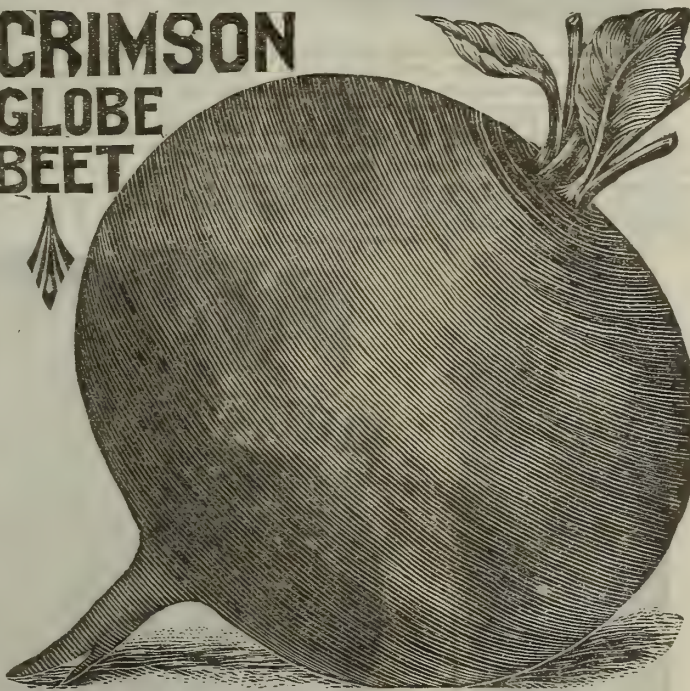

CRIMSON GLOBE BEET

Here is a variety that is giving great satisfaction everywhere. It is excellent for the table, exceedingly tender, beautiful form with rich, red flesh. The root grows to medium size, generally about three inches in diameter, is very handsome in shape, as will be seen by the illustration carefully engraved from specimens grown in our trial grounds the past season. The surface is remarkably smooth and has a very small tap root. The tops and leaves are small, which

occupy but very little room in growing. It is free from stringy or woody substance that is frequent among other varieties of beets. On account of its handsome color it was named Crimson Globe, and makes a beautiful and attractive appearance when a lot of them placed on the market they will readily sell anywhere.

45c. VEGETABLE SEED OFFER

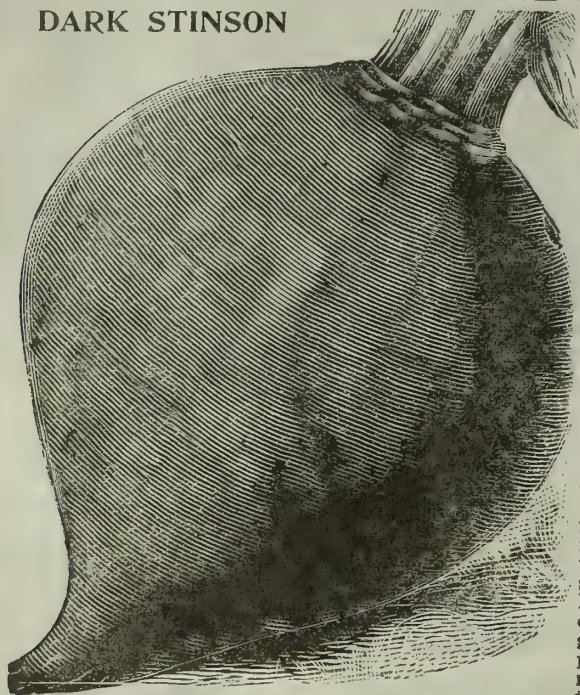

Here is one of the best offers we have ever made; a collection containing 30 Full Sized Packets for only 45c., postpaid. It is made up of the following:

1 pkt. Asparagus, 2 pkts. Beet, 2 pkts. Cabbage, 1 pkt. Carrot, 2 pkts. Celery, 2 pkts. Cucumber, 2 pkts. Lettuce, 2 pkts. Radish, 2 pkts. Tomato, 2 pkts. Turnips, 1 pkt. each Spinach, Sweet Corn, Pop Corn, Salsify, Parsnip, Musk Melon, Water Melon, Onion, Peas, Pepper, Pumpkin, Squash.

30 Full Size Packets. Only 45c., All Good Kinds

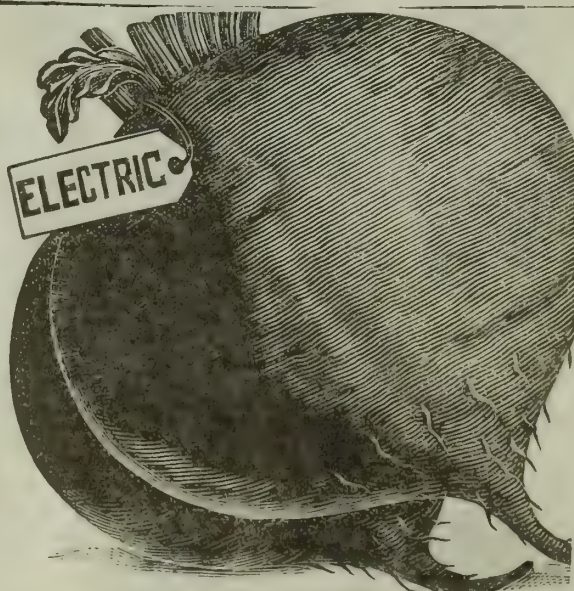

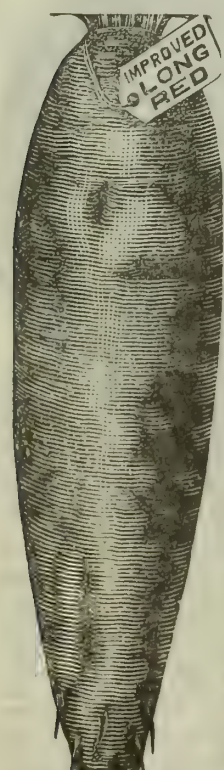

DARK STINSON

and of a dark blood red color and the flesh is of the very best. They can be grown close together; about 4 inches apart in the row. Anyone who wants a good beet can make no mistake in sowing this one. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

Improved Long Red This is the best long red beet on the market, being unequaled for the table or for live stock. It is very popular everywhere. Tops are large, necks small; roots, stems and vines red, leaves green. Roots are large, tapering at both ends, growing nearly even with the surface. Flesh and skin dark red, tender, sweet, and remains so when kept until spring. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 30c., lb. 50c.

ELECTRIC BEET

This is almost round in shape. The flesh is rich red, very tender, and remarkably early. The tap root is small. The leaves and tops are small and grow very close to the crown. It is one of the earliest varieties coming in close to Egyptian. The flesh is free from fibre, and of rich sweet flavor. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

Egyptian—This is the old well known Blood Turnip Beet and claimed to be the earliest of all. The illustration gives the shape of this popular root. The flesh is a dark red color and in many sections our customers prefer this to any other variety. Those who want to grow Egyptian Blood Beets can make no mistake in using our strain of seed, which has been carefully selected. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

Eclipse—We believe this is one of the best known beets and has given great satisfaction to all who have grown it. The Eclipse is quite early and is superior to many other table beets. We have taken particular pains in selecting this strain for many years and can furnish seed that will produce beets with a very small top; smooth, fine grain, tender and of a handsome bright red color. If you want to raise Eclipse Beets try our strain this year. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

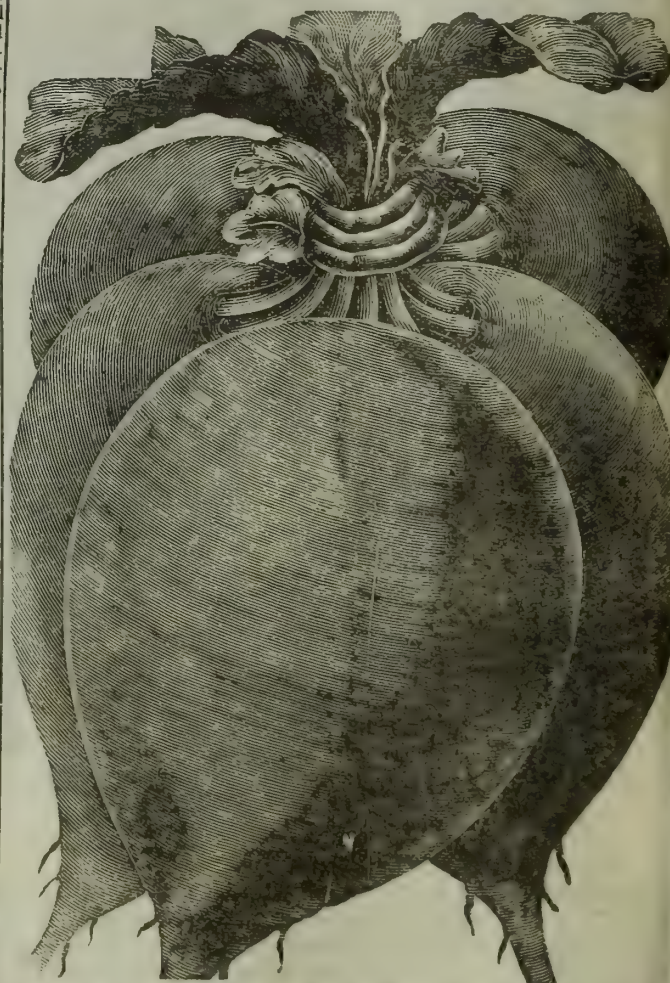

Edmand's Extra Early—Here is a splendid variety. Has a short top, round in form as will be seen by the illustration, very smooth, early and of good marketable size for gardeners. The skin and flesh is a deep blood red, very sweet and an all-around good garden beet. It is largely planted in private gardens. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

Lentz—This is an excellent strain of Blood Turnip Beet, fully as early as the Egyptian, large size of good quality and produces a fine crop in from six to seven weeks from sowing the seed. The illustration gives a good idea of the shape and appearance and the flesh and skin are a dark blood red. This splendid beet will please anyone for table use. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

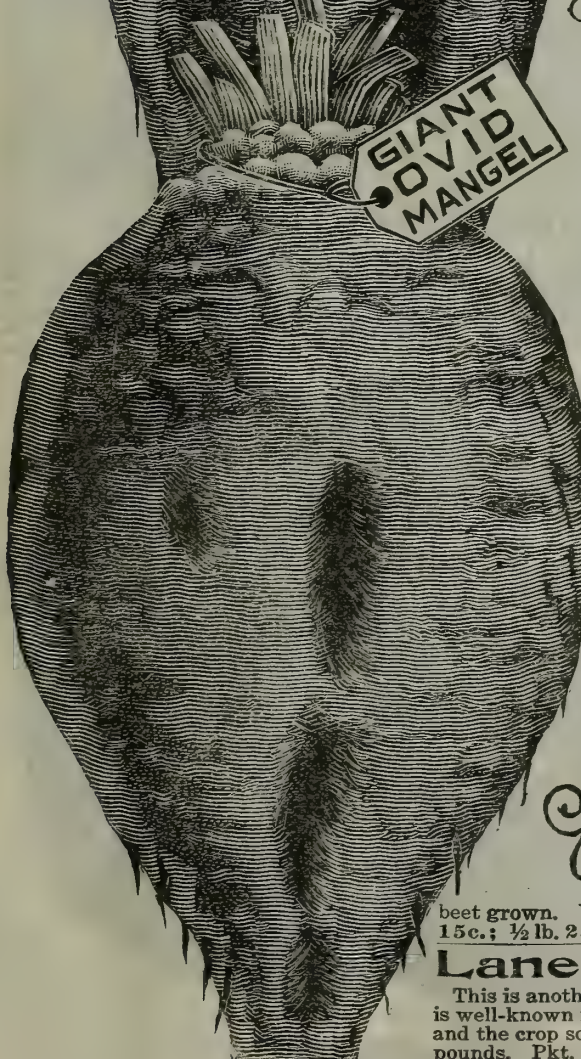

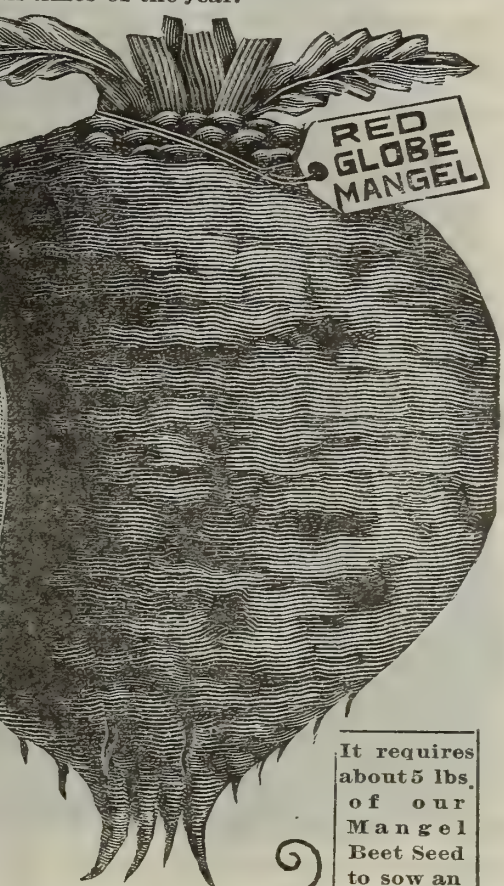

DARK STINSON

This has been one of our favorite varieties for several years and it is highly recommended by all who have grown it. It is of good shape, as will be seen by the illustration, and about the size for open garden culture. It is also good for forcing on account of producing very little foliage; much less than many other varieties. The roots are very smooth-

MARKET GARDENERS BEET

This is an excellent beet which we can recommend. Grows very rapidly, and continues to grow for a long time making a heavy root for autumn or winter use. The quality is good at all stages of growth. It is an excellent keeper all winter; a very dark red in color throughout, and the very best for table use. The shape is symmetrical as shown; has few roots, small top, and is very handsome in appearance. Is a good beet for everybody. Try it this year. Pkt. 5c., 3 pkts. 9c., oz. 10c., $\frac{1}{4}$ lb. 20c., $\frac{1}{2}$ lb. 35c., lb. 60c.

It requires about 5 lbs. of our Mangel Beet Seed to sow an acre

Mills' Mammoth Prize Long Red Mangel

This is the most popular long red mangel; sometimes called "Giant" or "Jumbo." It is the largest variety we know of. Grows about $\frac{3}{4}$ out of the ground and we have frequently grown them to weigh 30 pounds each. It has produced over 60 tons to the acre. It is not coarse grained, even when attaining enormous weight. It is one of the very best for cattle and sheep feeding during winter and those desiring a good red mangel will certainly want this one, as it always produces roots of good size and quality. The illustration, carefully engraved from specimens, will give a good idea of the size and shape and our customers who want a good stock feeding red mangel should order this one. Pkt. 5c., 3 pkts. 8c., oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 35c., postpaid. By express, not prepaid, 5lbs. or over, at 20c. lb.

Golden Tankard Yellow Mangel

Our customers say that this is the most desirable yellow variety that they have ever grown for it contains more sugar and less water than any other variety of this color. It is also claimed that it is one of the leading varieties in England as it is highly prized by dairy farmers. It certainly is a fine mangel and on account of its peculiar shape can be left very close in rows, which make a very heavy crop. It matures quite early, in fact, earlier than other sorts. Is hardy, and under good cultivation will yield from 50 to 60 tons per acre. The illustration, carefully made from specimens, gives a good idea of the shape and appearance of it and all those who wish a first-class yellow mangel should order this one. Pkt. 5c., 3 pkts. 8c., oz. 10c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 35c., postpaid.

Giant Ovid Mangel

This is a handsome mangel, growing nearly two-thirds above the ground and always producing large crops. Easily pulled on account of the way it grows. It does well on limestone soil. The skin is yellow and neck is small; while the leaves are medium in size, but few are produced. Owing to the demand for this Giant variety we have secured a good supply of the seed direct from headquarters and we are sure those who wish this giant variety can make no mistake in ordering it. Pkt. 5c.; 3 Pkts. 8c.; oz. 10c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 35c.

Red Globe Mangel

This is the very best Globe Mangel and is used for planting in shallow soil. Is easy to dig on account of its having a short oblong shaped root. It is immensely productive and one of the best for stock feeding. It keeps as well as any when stored for winter use and our customers can make no mistake in planting this if they want to grow a good mangel. Pkt. 5c.; 3 Pkts. 8c.; oz. 10c.; $\frac{1}{4}$ lb. 15c.; lb. 35c.

Improved Wanzleben Sugar Beet

This is the best sugar beet to grow for the manufacture of sugar. It is also used to grow for stock. It is acknowledged by all to be by far the best sugar beet grown. We offer genuine imported seed as follows: Pkt. 5c., 3 pkts. 7c.; oz. 8c.; $\frac{1}{4}$ lb. 15c.; $\frac{1}{2}$ lb. 25c.; lb. 35c., 5 lbs. \$1.40 postpaid.

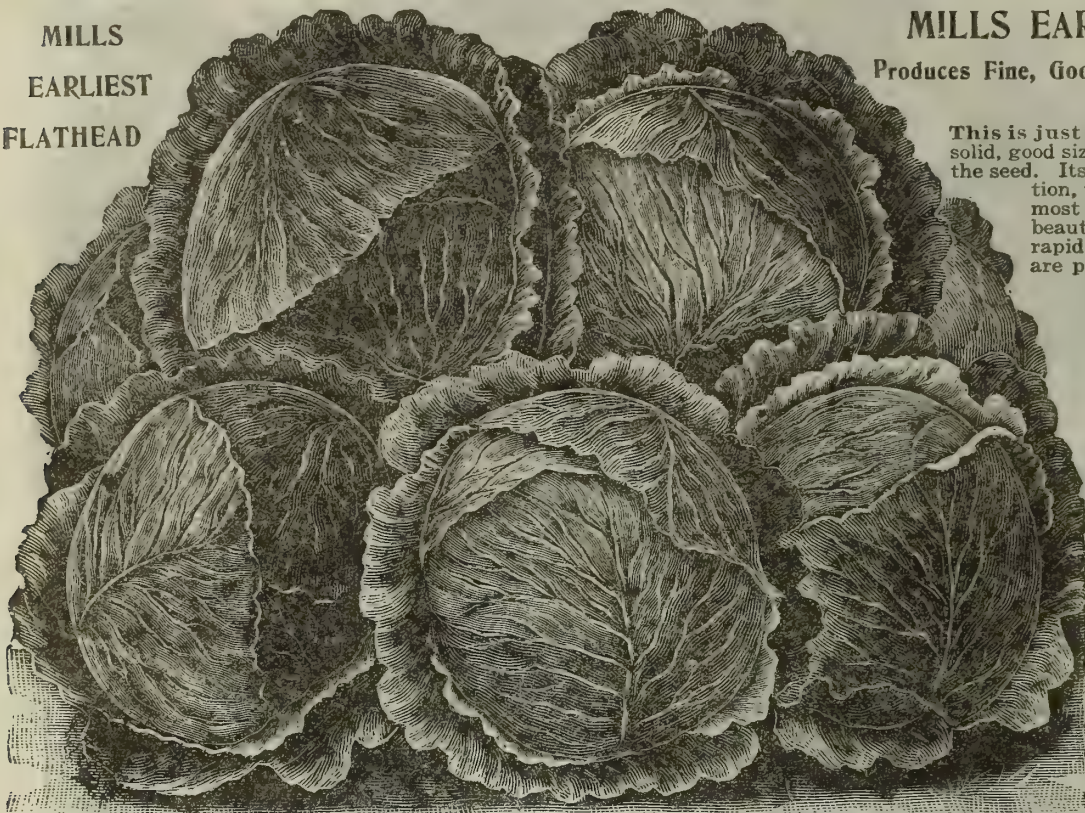

Lane's Improved Imperial Sugar

This is another popular and productive sugar beet; has been in cultivation for some time and is well-known in many sections as a favorite for stock feeding. It is rich and sugary in quality and the crop sometimes reaches 30 tons per acre, and single specimens grow to weigh nearly 35 pounds. Pkt. 5c., 3 Pkts. 7c., oz. 8c., $\frac{1}{4}$ lb. 15c., $\frac{1}{2}$ lb. 25c., lb. 35c., 5 lbs. \$1.40, postpaid.

We will ship by express or freight, not prepaid, 5 lbs. or more of any of the above six varieties at 20 cents per pound.

WANZLEBEN SUGAR

MILLS EARLIEST FLATHEAD

MILLS EARLIEST FLATHEAD CABBAGE

Produces Fine, Good Sized, Solid Heads, Fit for Market 70 to 80 Days from Sowing of the Seed.

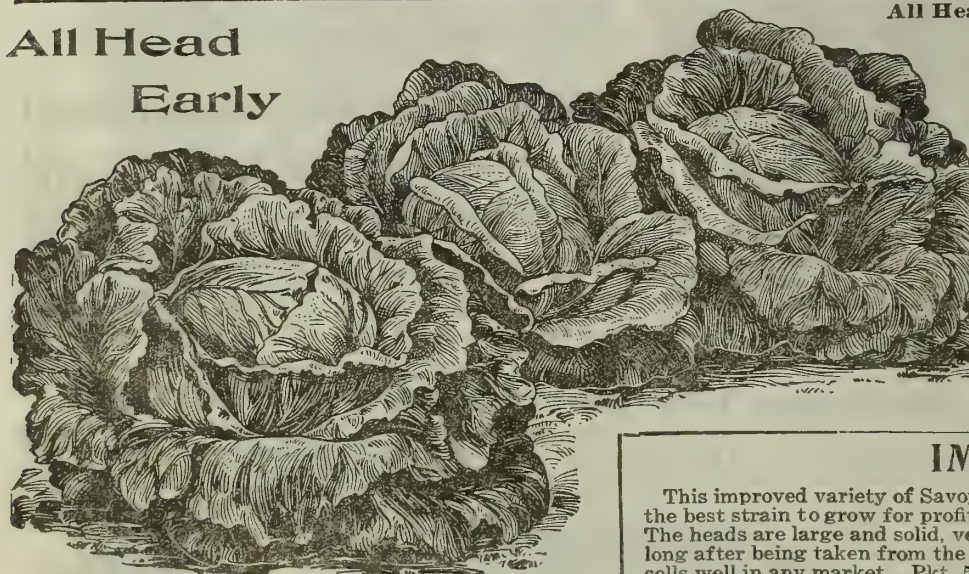

This is just the Cabbage for your garden—producing fine, solid, good sized heads and fit to use in 70 to 80 days from sowing the seed. Its shape and habit of growth is shown by the illustration, the deep flat heads being remarkably solid and the most uniform in shape and size of any variety. It is a beautiful cabbage in appearance and on account of its rapid growth far excels all others for tenderness. We are particularly anxious to have every one of our customers who raise cabbage grow Earliest Flathead this year. It will surely please everyone. Price—Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., 1/2 oz. 25c., oz. 40c., 2 ozs. 60c., 1/4 lb. \$1.00.

EARLY SPRING

This is a first-class, extra early, round, flat head Cabbage, differing in shape from our "Early June." The heads are always uniform, remarkably solid, with but few leaves and is giving great satisfaction everywhere. The stem is short, which makes it very valuable for truckers as well as private gardeners. The "Early Spring" quite often attains a weight of five pounds, and is very solid and firm. Those who want an extra early Cabbage of this description can make no mistake in ordering "Early Spring." Pkt. 5c.; 3 pkts. 10c.; oz. 20c.; 1/4 lb. 70c.; 1/2 lb. \$1.25; lb. \$2.25.

All Head Early

All Head Early is truthfully the finest large summer Cabbage in the world and while this may seem a strong statement, we can prove it every

time. The deep flat heads are remarkably solid and the most uniform in shape and size of any variety. As tenderness is the result of rapid growth, it surpasses all others in this respect. It is the most thoroughbred of all American Cabbages, and the heads grow so compact that fully 1,000 more heads can be obtained to the acre than any other. Pkt. 5c., 3 pkts. 10c., oz. 15c., 1/4 lb. 50c., 1/2 lb. 90c., lb. \$1.75.

IMPROVED SAVOY

This improved variety of Savoy Cabbage is the result of many years of careful selection and is the best strain to grow for profit and quality. The Savoy Cabbage is becoming very popular. The heads are large and solid, very uniform in size and retain their attractive dark green color long after being taken from the field. Its curly leaves give it an attractive appearance and it sells well in any market. Pkt. 5c., 3 pkts. 12c., oz. 25c., 1/4 lb. 75c., 1/2 lb. \$1.25, lb. \$2.00.

Early Jersey Wakefield

We feel perfectly safe in saying that we consider we have the finest and truest stock of Jersey Wakefield in America. It forms an unusually large head almost as early as any of our other sorts. You should never buy cheap seed of this variety. Pkt. 5c., 3 pkts. 12c., oz. 25c., 1/4 lb. 75c., 1/2 lb. \$1.40; lb. \$2.50.

Early Winningstadt

This is an extra good early Cabbage, forming large cone shaped heads of excellent quality and is very certain to head as it will grow solid heads in seasons when other sorts fail to produce anything. Pkt. 5c., 3 pkts. 10c.; oz. 15c.; 1/4 lb. 35c.; 1/2 lb. 65c.; lb. \$1.25.

Mills Short Stem Drumhead

This splendid variety of winter Cabbage has given such universal satisfaction that we offer it as something of rare value and great merit. But few varieties can excel this famous sort in productiveness, beautiful appearance, excellent cooking and keeping qualities and the immense size of the heads. Heads are extra hard and solid; are round and flattened on top. They grow very uniform in shape, with strong, short stems, and present a very handsome appearance, as is shown by the engraving. From 100 heads set out, 95 large solid heads may be expected. This is an excellent variety for customers in the south, where many varieties fail to head. Anyone can rely on the new Short Stem Drumhead. Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., 1/4 lb. 40c., 1/2 lb. 75c., lb. \$1.40.

Short Stem
Drumhead

Chinese Cabbage

This is a delicious Cabbage grown extensively by Chinese and is regarded somewhat sacred by them. The illustration gives a good idea of the beautiful appearance but does not show the delicate blanching. The flavor is a blending of cabbage and turnip. We believe it will be a very interesting addition to the family garden. Try it. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

Chinese Cabbage

Mills Giant Late Flat Dutch

Mills Giant Late Flat Dutch

For sureness in heading and regularity in growth Mills Giant Flat Dutch certainly heads the list of late cabbage. No words of praise are too high for its merits. It forms every time large, solid heads, uniform in size and color, handsome in appearance. It has a very short stem and at the same time it is a compact grower. If there is any better cabbage in America than this we do not know of it, for every attainable sure-heading cabbage has been tried and nothing has equaled our famous Flat Dutch. Pkt. 5c., 3 pkts. 10c., oz. 15c., ¼ lb. 40c., ½ lb. 75c., lb. \$1.40.

Mills Surehead

While the Giant Late Flat Dutch is our favorite, always producing an excellent crop, the Surehead comes very close to it and produces large, solid-firm heads, even in the most unfavorable season. Few other varieties can approach it in fine quality and uniform reliability in forming solid heads of good size. It produces large, round, flattened heads and is remarkable for its certainty to head. It is all head and always sure to head, even where other varieties fail. Single heads have weighed over 60 pounds. Pkt. 5c., 3 pkts. 10c., oz. 15c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50.

Mills Surehead

THE HOUSER CABBAGE

This is a grand new late Cabbage and all who have grown it are more than pleased. It is a late variety, but the heads are about as hard as Danish Ball Head. Grows very compact as shown by the illustration. It certainly is a handsome Cabbage, on account of the heads being so round and deep, it is not liable to crack. As to quality, there is no better variety; there being no coarse ribs or stems to be found in the head. A very vigorous grower and will stand drouth to a remarkable degree, the heads grow so even and solid that they will average 10 to 12 pounds each through a whole crop. It is highly recommended for its keeping qualities and an excellent sort to grow for storing or spring markets. Pkt. 5c., 3 pkts. 12c., ½ oz. 15c., oz. 25c., 2 czs. 40c., ¼ lb. 75c.

Improved Danish Ball Head

This new Cabbage comes from Denmark and is prized so highly that the Danes grow it almost exclusively for winter Cabbage. The heads are hard, round, of good markatable size, fine grained and good keepers; are not so large as Late Flat Dutch, but are even harder and more solid. The true Danish Ball Head has become wonderfully popular for winter market, and we believe that in many sections, where Cabbage is largely grown, at least four-fifths of all winter Cabbage grown is Danish Ball Head. Our stock is extra fine imported seed, crop of 1911, can be relied upon as the very best. Pkt. 5c., 3 pkts. 10c., oz. 30c., 2 czs. 50c., ¼ lb. 90c., ½ lb. \$1.60, lb. \$3.00 postpaid.

The Houser Cabbage

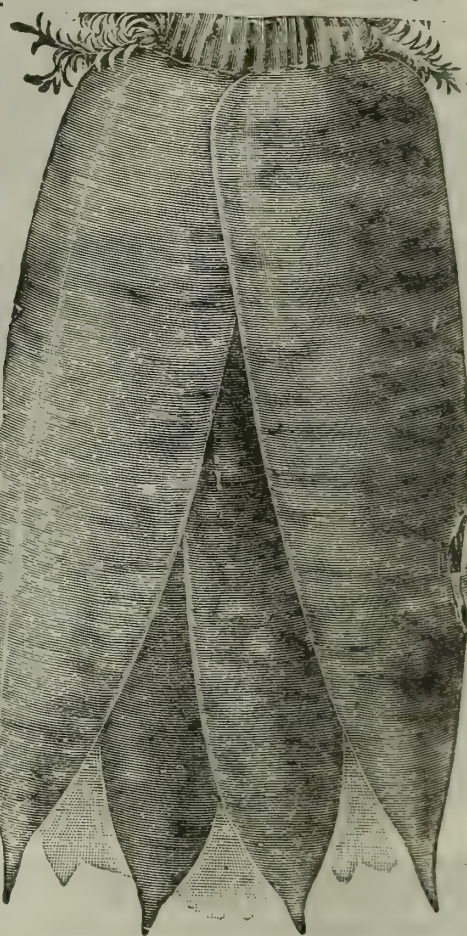

Golden Beauty Carrots

GOLDEN BEAUTY CARROT—This is a heavy cropper and suitable for both table and stock. It is a half-long stump-rooted sort; grows a smooth, uniform, handsome root, free from core, sweet and tender, never becomes stringy. It is very desirable for market gardeners or any private garden on account of the immense yielding qualities. With ordinary care it will yield about 40 tons per acre. We believe that this handsome Carrot will please everyone who grows it. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 90c.

MILLS' IMPROVED LONG ORANGE—Will produce enormous crops and well adapted for light soil. Excellent for dairymen on account of its heavy yields. Roots large size, smooth, fine grain, excellent quality for table use, color a deep orange as indicated by its name. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

ORANGE DANVERS

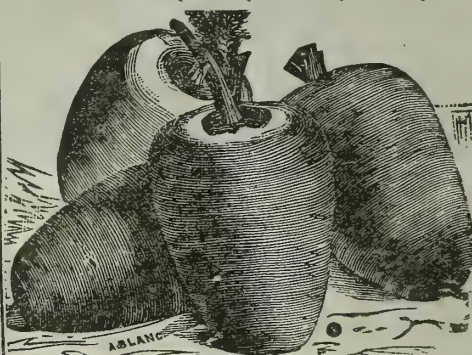

Orange Danvers

This variety is well adapted to all soils and sections and will yield greater bulk with the smallest length of roots of any carrot grown. Roots smooth, of a dark rich orange color; very productive, medium length, tapering at points. Over 40 tons per acre have been grown and 25 to 30 tons is very common. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c., 3 lbs. \$2.00, postpaid.

Improved Long Orange

MILLS' AGRICULTURAL WONDER—This Carrot produces long roots of good size and true yellow color. It is claimed it will yield 50 per cent more than any variety now cultivated. Quality is excellent for the table, keeps well and is productive enough to be grown for stock feeding. It can be pulled where other Carrots require digging, and if you want an early, handsome early selling carrot this will please you. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 75c., 3 lbs. \$2.00, postpaid.

OXHEART OR GUERANDE

As shown by the illustration this Carrot is finely shaped, being intermediate in length, fully 3 to 5 inches in diameter and specimens have been raised measuring over 7 inches in diameter. The quality is extra good and we can recommend it for home use. It can be pulled where other Carrots require digging, and if you want an early, handsome early selling carrot this will please you. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 75c., 3 lbs. \$2.00, postpaid.

LARGE WHITE BELGIAN—This is the old well known Belgian Carrot used for stock feeding. The roots grow to a large size. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 20c., ½ lb. 25c., lb. 40c., 5 lbs. \$1.85, postpaid.

MILLS' GIANT SHORT WHITE—Very productive variety, well suited to shallow soil. The roots are short, smooth, very heavy at the shoulder, tapering regularly to the point. Flesh rich white, solid, crisp and of excellent flavor. Very large yielder. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 20c., ½ lb. 30c., lb. 55c., 3 lbs. \$1.50, postpaid.

CAULIFLOWER

No seed is more important. Don't buy cheap seed. We offer the finest strain. Quality first, prices afterwards, are the two most important considerations in buying Cauliflower Seed. We wish to call particular attention to Our Early Favorite.

Mills' Early Favorite

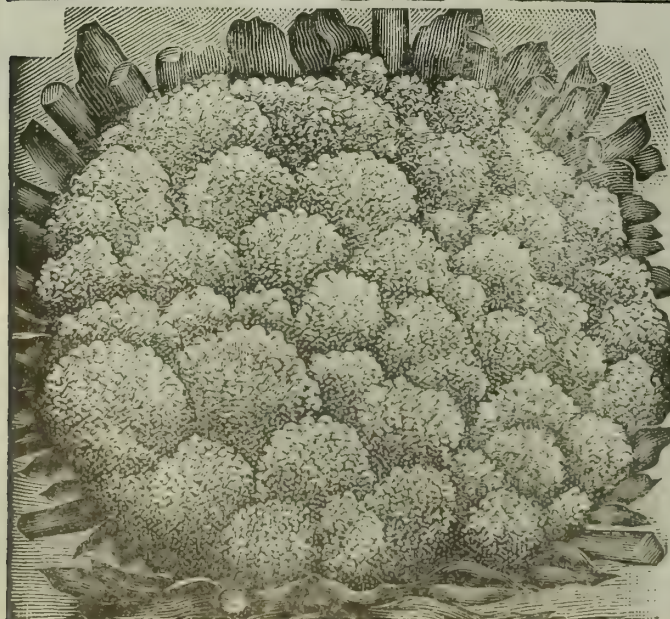

Best Variety in Cultivation

This surpasses all others and will stand the heat and drought of any climate the best of all, and is the earliest and surest of any variety to head. For forcing it is particularly well adapted; as a sort for the family and market garden it is unquestionably the largest as well as the best. Market gardeners once having sown it will sow no other. Per pkt. 10c., 3 pkts. 25c., ½ oz. \$1.25, oz. \$2.00, 2 ozs. \$3.75, ¼ lb. \$7.00.

EARLY SNOWBALL—This is a well-known variety and considered one of the best in cultivation, and a great favorite throughout the country. It is very early, close growing compact habit, and is well adapted for forcing under glass during the winter and spring. Our stock is perfectly reliable. Per pkt. 10c., 3 pkts. 25c., 6 pkts. 40c., ½ oz. \$1.25, oz. \$2.00, 2 ozs. \$3.75.

EXTRA SELECTED DWARF EARLY ERFURT—This is another remarkable variety for heading. It is a dwarf, with solid heads of superior quality. If planted in March the crop will be ready in June. Market gardeners and private planters will do well to plant this excellent variety. Pkt. 5c., 3 pkts. 12c., ½ oz. 75c., oz. \$1.25, 2 ozs. \$2.25.

EXTRA EARLY PARIS FORCING—A favorite variety and very reliable for heading and is good for forcing. It is equally as good for outdoor culture. Per pkt. 5c., 3 pkts. 10c., ½ oz. 35c., oz. 60c., 2 ozs. \$1.00.

Mills' Early Favorite Cauliflower

CELERY

Golden Self-Blanching

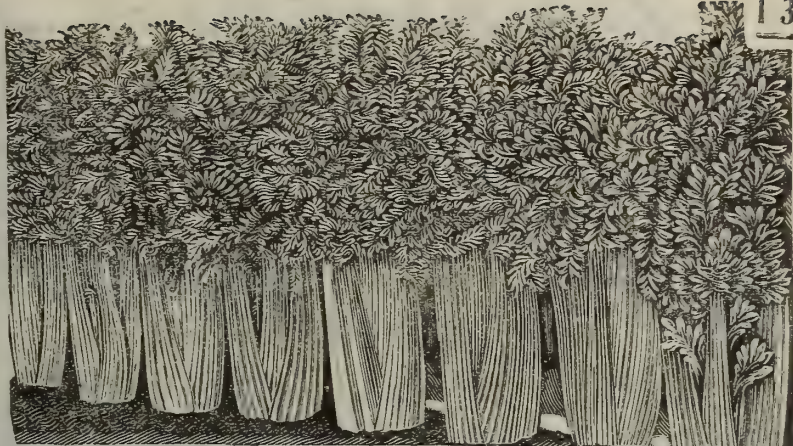

New Rose

This Celery has a splendid flavor and it is also very ornamental for the table. It is solid, rich in flavor and keeps remarkably better than the yellow and the white sorts. Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c., 1/2 lb. 80c., lb. \$1.50.

GOLDEN SELF-BLANCHING

(Gilt Edge Strain)—This variety cannot be too highly recommended. It is the best Celery in cultivation and is also the most popular. It is wonderfully productive. The root is perfectly solid, crisp and of delicious flavor. The heart is large, solid, and a rich golden yellow. It has been the leading variety and we offer a fine strain at the following prices: Pkt. 5c., 3 pkts. 12c., 1/2 oz. 20c., oz. 35c., 2 ozs. 60c., 1/4 lb. \$1.00, lb. \$3.50.

WHITE PLUME

This is a well-known variety and is popular wherever grown. It is the earliest and most easily blanched. The plants grow rapidly and on account of its easy culture every amateur gardener should grow this variety. Seeds sown in April, transplanted in July, will be ready for use in October without banking up. Give it a trial and you will be pleased with the result. Our seed of this grand Celery is a very choice selected strain and will produce fine stalks. Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c., 1/2 lb. 80c., lb. \$1.50.

LARGE RIBBED RED

Large Ribbed Red

One of the best varieties grown. It has all the good qualities of the Giant Pascal, while the ribs are much thicker and stiffer. It is exceedingly healthy and of most excellent quality, tender and well flavored and is a good variety to keep through the winter. It is very popular on account of its handsome appearance, in connection with its fine keeping quality, and our customers will certainly be pleased with it. Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c., 1/2 lb. 80c., lb. \$1.50.

PINK PLUME

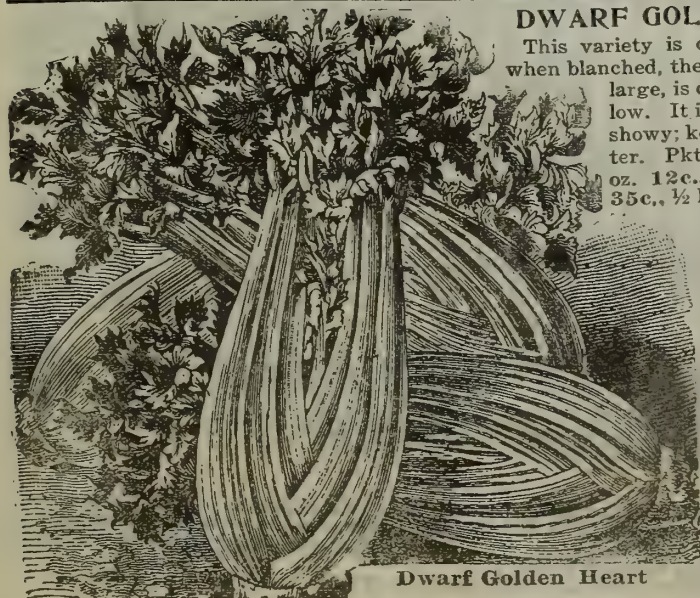

This is a splendid new variety recently introduced and is an advance in Celeries, as an intermediate between the White and Red Celeries, combining the good qualities of both. Pink Plume is just about the same as the old White Plume; rich flavor, long keeping qualities, for which the Red Celeries are noted. It is a strong heavy grower with no tendency to rust, and extra early. The stems are solid and crisp and it is a very handsome Celery. Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c., 1/2 lb. 80c., lb. \$1.50.

Giant Pascal

DWARF GOLDEN HEART

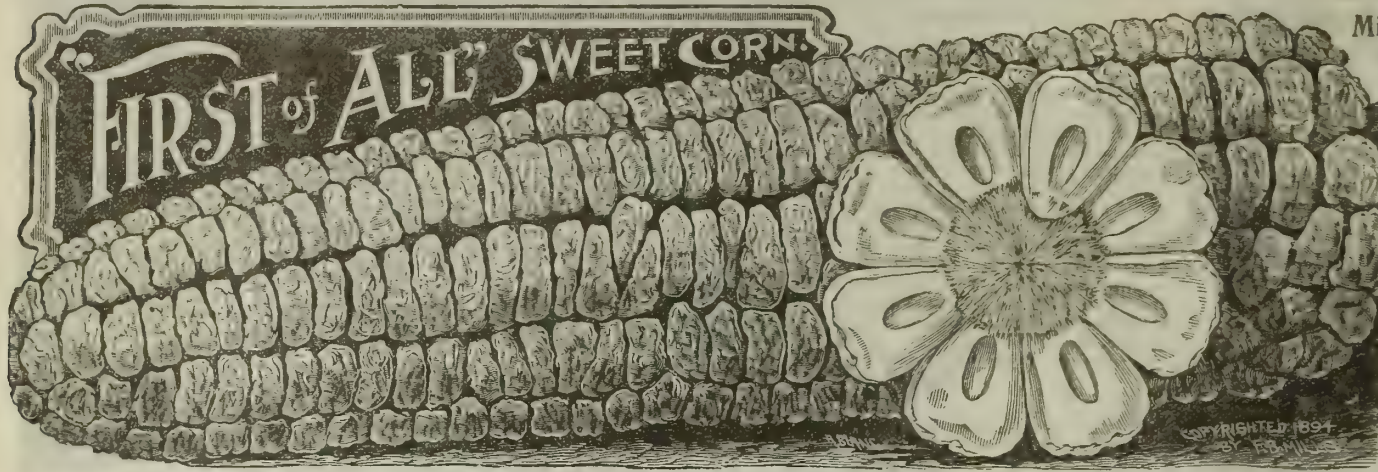

This variety is of dwarf habit and when blanched, the heart which is very large, is of a pure golden yellow. It is very striking and showy; keeps well during winter. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., 1/4 lb. 35c., 1/2 lb. 65c., lb. \$1.25.

Dwarf Golden Heart

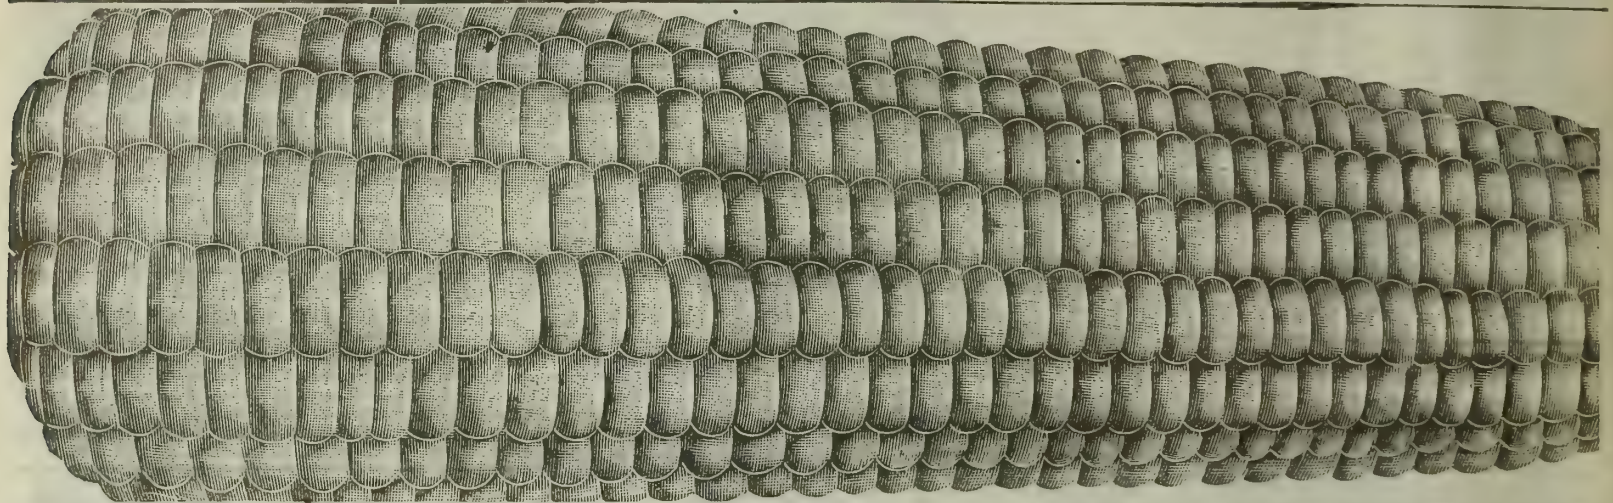

GIANT PASCAL

With the exception of our Gilt Edge Strain Self-Blanching, this is, without doubt, the most remarkable variety ever introduced. The stalks are large and stringless, crisp and brittle; heart a rich bright yellow even after blanching. An excellent variety for shipping; does not rust or rot; grows more satisfactorily in the South than any other kind. It is a fine keeper; an extra good shipper, retaining its color and appearance as long as any other variety in existence. Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., 1/4 lb. 45c., 1/2 lb. 80c., lb. \$1.50, postpaid.

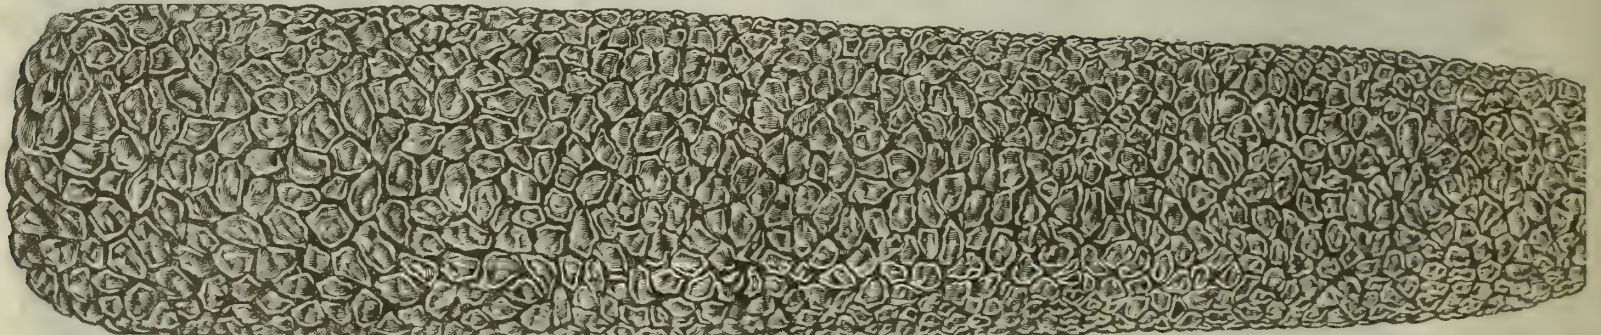

Mills "First Of All"

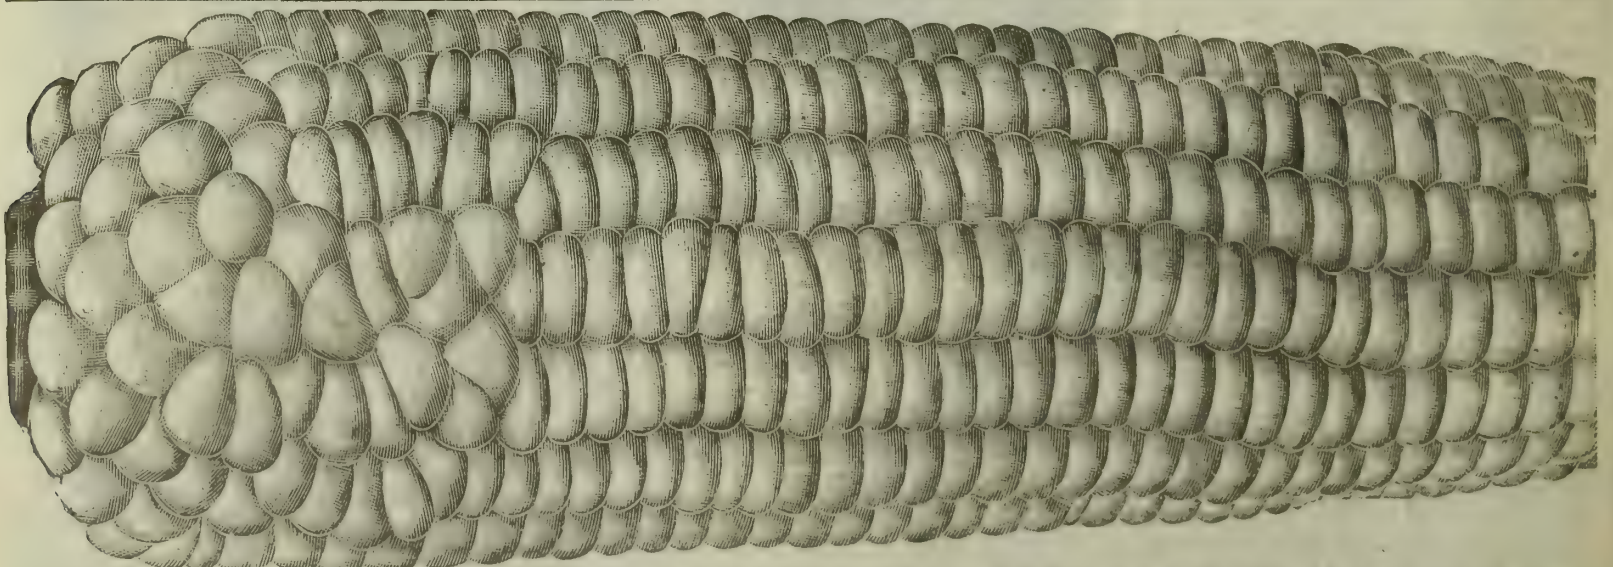

The earliest Sweet Corn we have been able to offer; earlier than the Cory, which has been the earliest. Being earlier not only makes it valuable for family use, but extremely valuable for market where the earliest corn brings the highest price. It is more dwarf in growth than the Cory, and superior in quality, tenderness and sweetness. Pkt. 5c., 3 pkts. 12c., ½ pt. 15c., pt. 22c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 75c., pk. \$1.25.

MILLS' EARLIEST LARGE—Mills Earliest Large will become a leader among the medium early sweet corns. It is the earliest large variety grown. It grows large handsome ears filled with plump, deep white kernels that retain their milky tenderness for a very long period. Quality and flavor surpassingly fine and sweet. Valuable for either home use or market. Very productive. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, bu. \$3.75.

ZIG-ZAG EVERGREEN—This is a new Sweet Corn and 8 or 10 days ahead of Stowell's Evergreen. It has very large kernels resembling that variety and grows on the cob zig-zag fashion. It usually produces two perfect ears on each stalk, of such handsome appearance as to readily command a high price wherever offered. It is an excellent variety for family gardens and market gardeners and canners. It can be planted any time during the season and be depended upon for a good yield. Pkt. 6c., 3 pkts. 15c., ½ pt. 12c., pt. 22c., qt. 35c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00.

WHITE EVERGREEN—This is one of the most delicious Sweet Corns ever offered. It is a splendid yielder and unsurpassed for market gardening purposes. The ears are pure snowy white, large and well filled. It is the tenderest, sweetest and most desirable for table use. We cannot recommend the White Evergreen too highly, as we know it will give the greatest possible satisfaction to all who grow it. If you want a good Sweet Corn by all means include the White Evergreen with your order. The illustration gives a good idea of this valuable variety. Pkt. 6c., 3 pkts. 15c., ½ pt. 14c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, ½ bu. \$1.85, bu. \$3.50.

GOLDEN BANTAM

Pronounced the best extra early Golden Sweet Corn in existence being vastly superior to all others in rich sweet flavor. The stalks grow about 4 feet in height and produce from one to two good ears on each stalk, being from 5 to 6 in. in length. When the ears are ready for use the grains are a bright golden yellow, rich and sugary and sweetest of all. Golden Bantam is the hardest Sweet Corn to grow in the North and it is a good variety to plant late in the summer for fall use. We have thoroughly tested it and believe it will be an excellent addition to our list of Sweet Corn and advise all our customers to grow some this season. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 35c., postpaid. By express or freight, not prepaid, 4 qts. \$1.00, pk. \$1.75.

WHITE CORY

Good sized ears, sweet and of fine quality. Pkt. 5c., 3 pkts. 12c., ½ pt. 14c., pt. 20c., qt. 35c., postpaid. By express or freight, not prepaid, 4 qts. 60c., peck \$1.00.

EXTRA EARLY RED CORY—This is similar to White Cory with the exception of color, and we can supply it at the same price as White Cory.

STOWELL'S IMPROVED EVERGREEN

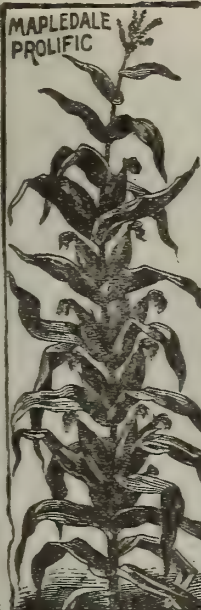

This well-known variety is more largely planted by private families, gardeners and canners. Our stock is the very best, being selected with great care. There is no stock of Stowell's Improved Evergreen that can excel our "Improved." It is the very best for main crop. Pkt. 5c., 3 pkts. 12c., ½ pt. 14c., pt. 20c., qt. 35c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, bu. \$3.25.

Golden Bantam

the very best for main crop. Pkt. 5c., 3 pkts. 12c., ½ pt. 14c., pt. 20c., qt. 35c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00, bu. \$3.25.

The Giant Sweet Corn—This is the largest Sweet Corn and those who have grown it say that it is the best. Those who want a variety producing ears of immense size, and excellent flavor, should plant "The Giant." Stalks grow strong and stand up well against storms. Ears are frequently a foot or more in length, well formed and handsome; a fine table variety. We do not believe there is a better late sort on the market. Pkt. 5c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 45c.

Black Mexican—Acknowledged by all to be the sweetest Corn. Not quite so early as some but exceedingly sweet, sugary and delicious. Pkt. 5c., 3 pkts. 12c., ½ pt. 14c., pt. 20c., qt. 35c., postpaid. By express or freight, not prepaid, 4 qts. 60c., pk. \$1.00.

**Mapledale Prolific**

This is a remarkable variety and is the greatest yielding sort ever found among Pop Corn. Stalks grow about five feet high and it is claimed that as many as 12 ears have been produced on a single stalk. Its popping qualities excellent, always pure white and of good flavor. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., ½ pt. 15c., pt. 25c.

White Rice

This is a well-known variety and the leading sort for market. Our stock is extra selected. Pkt. 5c., 3 pkts. 10c., ½ pt. 15c., pt. 25c., qt. 40c., postpaid.

White Rice

Golden Tom Thumb—One of the smallest Pop Corns grown, growing only about eight

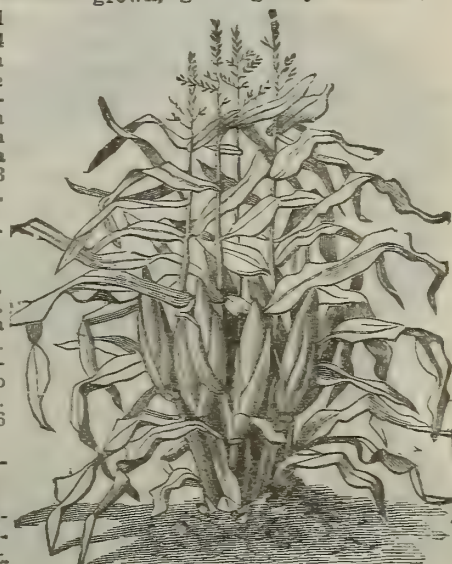

teen inches high and produces from 2 to 4 perfect little ears. Each ear is from 2 to 2½ inches long, with kernels of a bright golden yellow, which, when popped, expand to a large size. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

RED BEAUTY

It is very productive, of a beautiful red color, and in every respect a first-class Pop Corn. Very tender and delicious and is sure to give satisfaction. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c.

QUEEN'S GOLDEN

Beautiful golden color; excellent for popping; very tender. Pkt. 5c., 3 pkts. 10c., ½ pt. 15c., pt. 25c., qt. 40c.

Golden Tom Thumb

Here is the Wonder Hatching Machine at Last

PRICE, ONLY \$2.98

Greatest Hatching Machine Ever Offered

This is what has been wanted for years—an Incubator that is a Reliable Hatcher at a low price. Here it is and we find it is the greatest Hatching Machine ever offered. It is always ready for business, and is so low in price that anyone interested in poultry cannot afford to be without one.

It can be operated in any living room in the house, which is a great advantage. It makes poultry raising both pleasant and profitable for city people and meets the requirements of the poultry fancier desiring early hatched chicks for show purposes or winter layers, as it is always ready to do the work when most needed for best results. It is an excellent machine to run in connection with a large Incubator to supply the required number of fertile eggs to fill in after testing. This machine is also a most profitable one for the farmer as it will hatch as many chickens during the season as the ordinary farmer desires to raise and may be operated at the least possible expense, care and attention.

IN CONSTRUCTION this machine is equal to many of the highest-priced Incubators being offered. It is built of selected air and kiln-dried lumber, nicely finished in natural wood colors. The legs are detachable, made from selected stock and nicely proportioned, and of ample strength to hold the machine rigid under all reasonable circumstances.

HEATING—Our heating device is composed of a hot air radiator covering the entire top of the machine always distributing the heat evenly to all portions of the egg chamber. Every portion of the machine exposed to heat is securely protected by asbestos making it strictly fireproof. The lamp is made of the best materials, well constructed and perfectly safe, and will hold a sufficient amount of oil to run the machine from 12 to 14 hours with one filling, always furnishing a good bright flame.

OUR REGULATOR is one of the very best on the market, consisting of an automatic corrugated compound wafer so sensitive that it will hold the temperature to a fraction of a degree. The expanding and contracting force of this thermostat is so remarkable that there is no possible chance of its failing to operate. Its action is perfect, requiring very little attention after being set to the proper point of heating. There is no complicated or delicate machinery to get out of order, no parts to become set, and it is a great improvement over all the old style thermostatic regulators.

VENTILATION—No Incubator can properly do its work satisfactorily unless supplied with a practical system of ventilation. The Wonder Hatching Machine is supplied with a most perfect ventilating system, all fumes from the lamp being carried directly into the heater and escaping through the ventilators on top of the machine. The egg chamber is thus protected from gas and impure air from the lamp. Our thermometer is the best to be obtained and fully guaranteed.

This is certainly one of the most complete small hatching devices ever offered to the poultry raising public, perfectly self-regulating and self-ventilating, and can be relied upon to give complete satisfaction. Why pay \$5.00, \$10.00, or more, for an incubator when you can get this Wonder Hatching Machine, (the great 30 egg Incubator) furnished all complete and ready for use, with full instructions for operating, for only

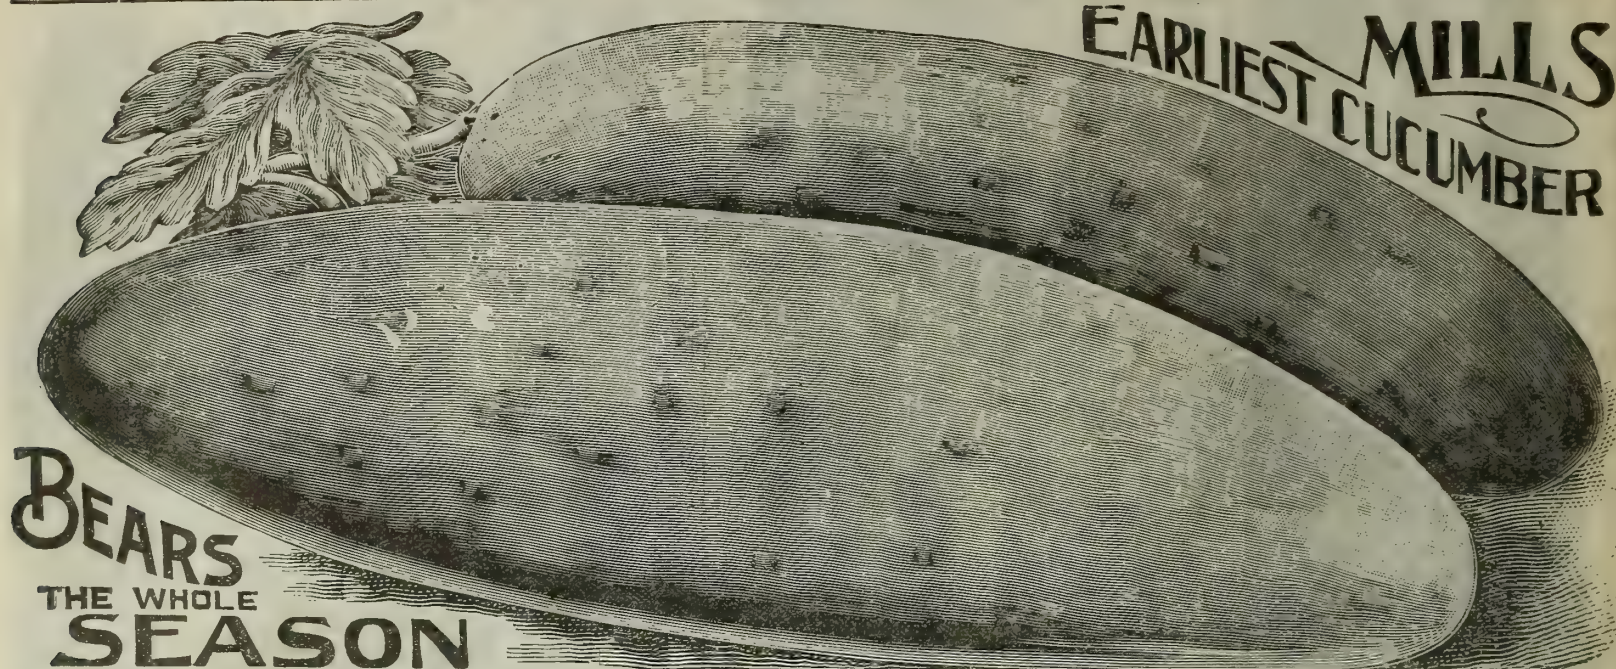

\$2.98

THE WONDER HATCHING MACHINE IS CAREFULLY PACKED AND SHIPPED AT ONCE ON RECEIPT OF ORDER

30 Egg Capacity

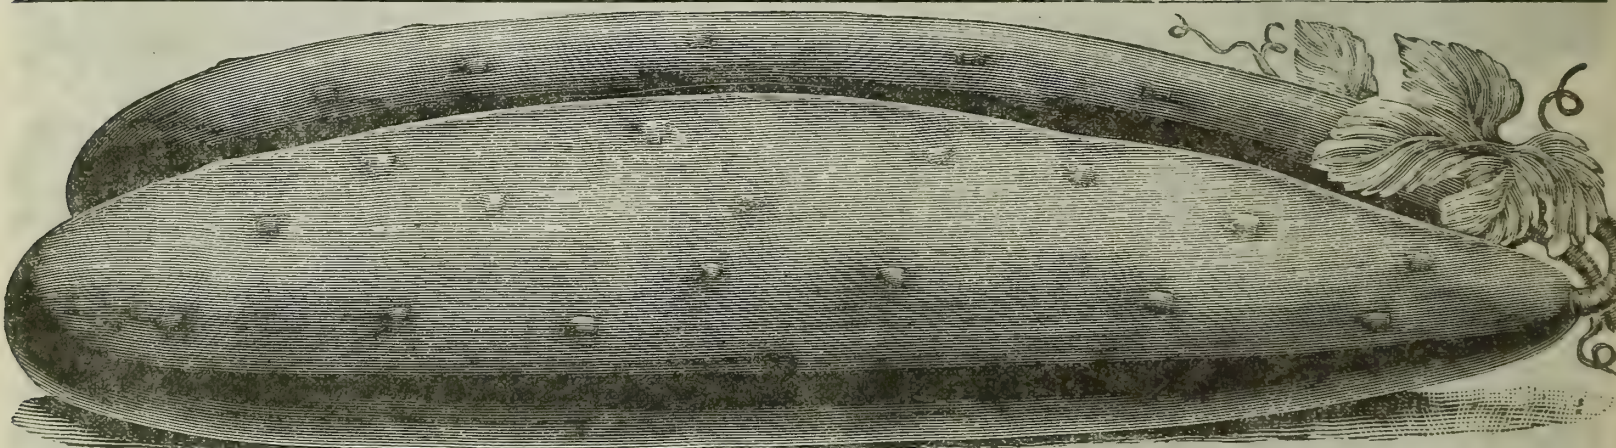

Only \$2.98

BEST EARLY VARIETY IN THE WORLD

This is an excellent early Cucumber and cannot be praised too highly. It is one of the earliest varieties, of good size, and unequaled as a table sort, and in productiveness it is remarkable, being very prolific. Fruit grows from 5 to 8 inches in length and from 2 to 3 inches in diameter, and the illustration is as exact as can be made from specimens. They are always handsome, being uniform, straight, and of a rich, dark green color. The flesh is tender, crisp, and of excellent flavor. While this Cucumber is especially adapted for early planting for the table, it is equally as good for pickling. There is no Cucumber that can surpass **Mills Earliest**.

Per pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c., postpaid.

Mills Improved Long Green

This is a well-known variety. The fruits grow from 12 to 16 inches long and it is well known by everyone that this variety cannot be surpassed for pickling, and when ripe it is the best for sweet pickles. The vines grow strong and the fruit is always produced in great abundance, making it one of the most productive varieties in cultivation.

Per pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c., postpaid.

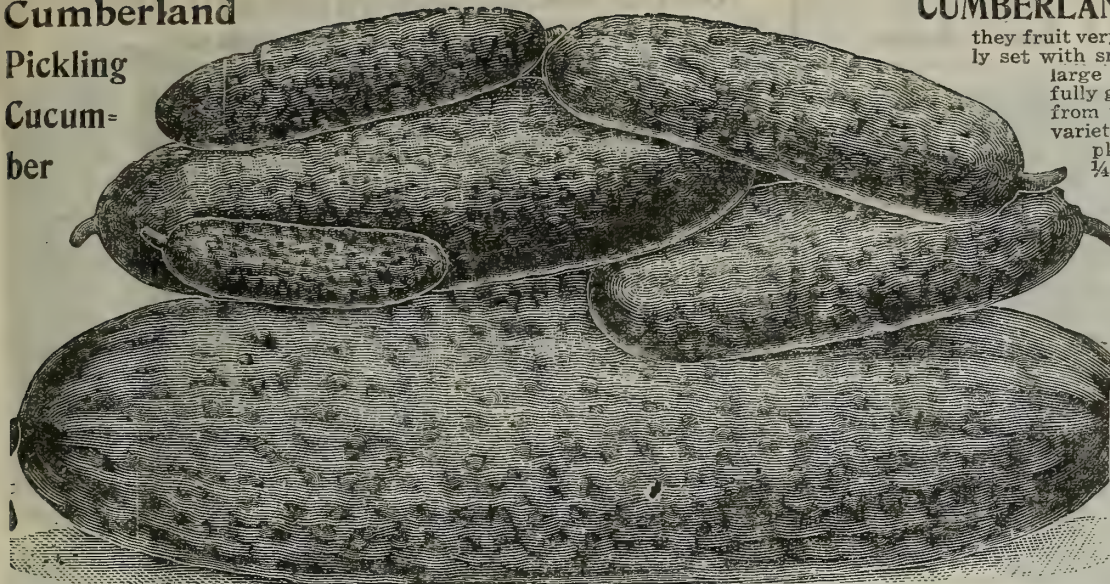

Davis' Perfect Cucumber

This is the great Cucumber that has been so largely advertised. It is claimed you can raise these Cucumbers in open ground and they will sell in any market at the same price as the high priced hot house forcing cucumbers. It is predicted that it is bound to become the most popular, both for forcing under glass and for growing outside of any cucumber ever offered. On account of its nice shape, handsome color, splendid eating qualities, and being almost seedless one-third of its length from the stem end, and seeds very small, together with its enormous productiveness, it takes the lead of anything we have ever known. It does not change its dark rich color when grown out doors but resembles a hot-house cucumber so closely dealers cannot tell the difference. Mr. Davis has originated several valuable varieties of vegetables, and we are satisfied that this new cucumber, which he calls his "Perfect," is bound to become popular wherever grown. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 75c.

New Famous Cucumber

This is an extra long white spine Cucumber of the finest flavor of them all. It is beautiful in appearance being a long green. The vines produce an enormous crop and have large, thick, heavy leaves. The fruit grows 10 to 16 inches long. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., lb. 80c.

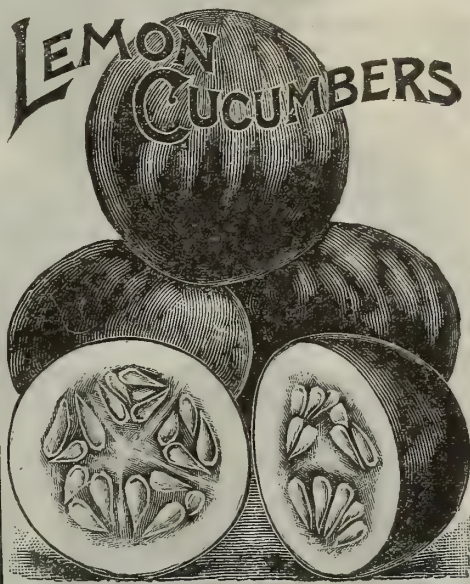

Cumberland Pickling Cucum- ber

CUMBERLAND PICKLING--The vines are of strong growth and they fruit very freely. The young cucumbers are thickly set with small spines and are very attractive for either large or small pickles. The fruits average, when fully grown, from nine to ten inches in length and from two or three inches in diameter. It is a good variety for slicing as well as pickling. Pkt. 5c.; 3 pkts. 12c.; 6 pkts. 20c.; oz. 10c.; 2 ozs. 15c.; ¼ lb. 25c.; ½ lb. 45c.; lb. 75c.

LEMON CUCUMBER

Is nearly round, the skin is smooth with yellow markings. The fruit grows from 2½ to 3 inches in diameter, flesh is tender and has a flavor surpassing all other cucumbers. It is excellent for pickling, either green or ripe. For table use it should be used just as the fruits are turning yellow. It is a real novelty, and we are sure, after once tested, it will be planted every season, for the quality and productiveness are sure to please everyone. Per pkt. 5c.; 3 pkts. 12c

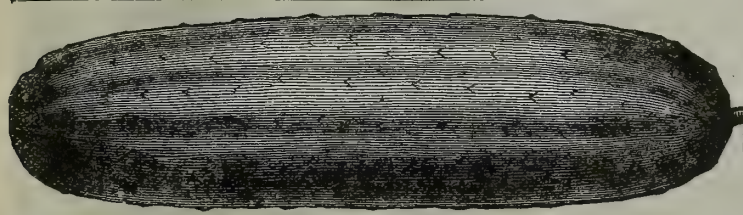

GREEN PROLIFIC or BOSTON PICKLING--Excellent variety for pickling. Bears an abundance of fruit. Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 45c., lb. 80c.

THORBURN'S NEW EVERBEARING--Early variety; fruits continuously until killed by frost. The cucumbers are perfect in form and have a fine green color. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 45c., lb. 80.

NICHOLS MEDIUM GREEN--Skin is light green very smooth, and of fine quality. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

ITALIAN CUCUMBER--It is an excellent cucumber for the table. The favorite among Italians. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

EARLY RUSSIAN--Earliest in cultivation and grows only about 3 inches long. Fine for pickling. Pkt. 5c., 3 pkts. 9c., oz. 10c., ¼ lb. 25c., ½ lb. 45c.

EVERGREEN CUCUMBER

The Evergreen Cucumber is admitted to be an excellent pickling sort, possessing all required qualifications as a perfect pickling cucumber. Those who have grown it, say, that it bears three cucumbers where ordinary kinds would bear one.

It is a very strong grower, extra early, and the fruits are excellent for slicing if allowed to grow to sufficient size. When ripe the color is yellow, but through the other stages of its growth it is a handsome evergreen. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

KLONDIKE

One of Our Best

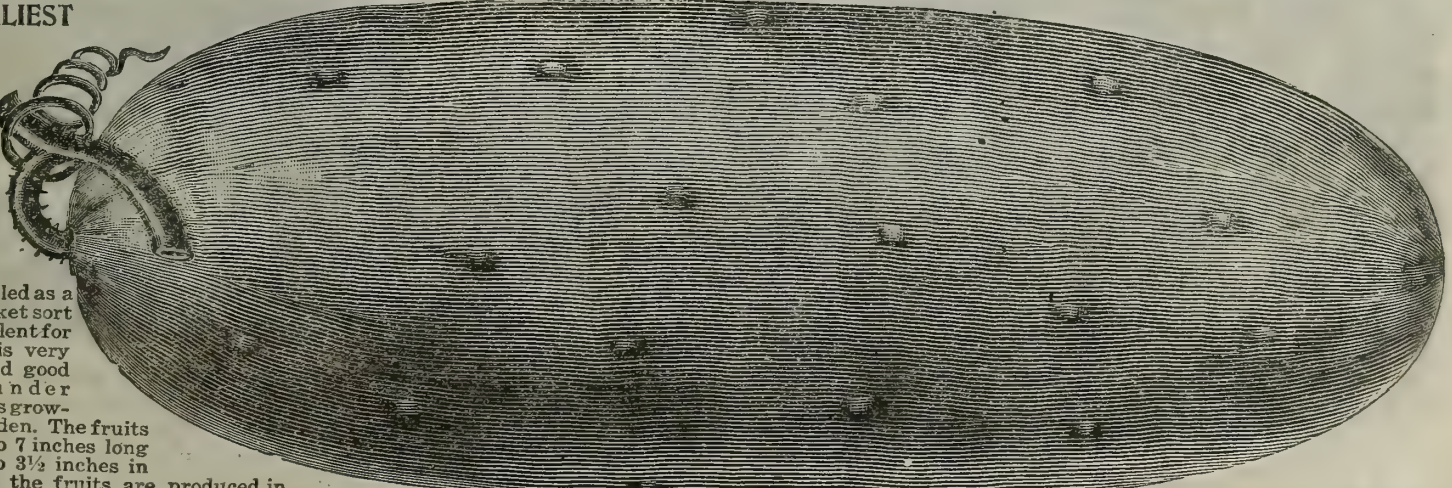

This is a very handsome variety of an attractive dark green color of the White Spine type. When it attains suitable size for market it averages from 6 to 7 inches in length, and is of such attractive appearance, it is greatly appreciated by market gardeners and shippers. It is very early, excellent quality, firm and good for pickling when small. After you grow this Cucumber you will say you never had a better one. We cannot recommend this splendid Cucumber too highly. Try it in your garden this year. Pkt. 5c., 3 pkts. 12c. 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

KLONDIKE CUCUMBER

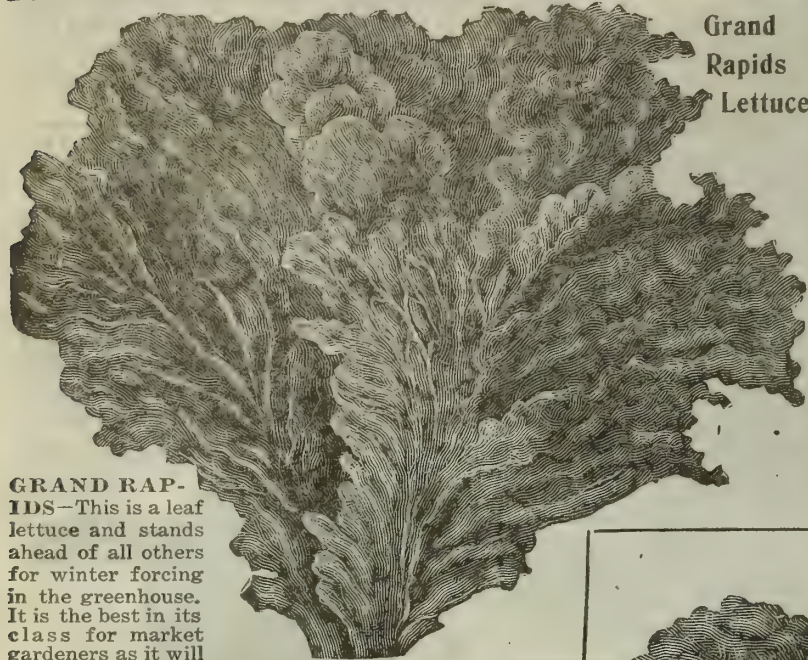

MILLS EARLIEST WHITE SPINE

This Cucumber cannot be praised too highly. The best and most widely grown of any White Spine Cucumber. Unequalled as a table and market sort and also excellent for pickling. It is very productive and good for forcing under glass as well as growing in the garden. The fruits grow from 5 to 7 inches long and from 2 to 3½ inches in diameter and the fruits are produced in great abundance while the color is light green.

Pkt. 5c., 3 pkts. 9c., 6 pkts. 18c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c., postpaid.

18 LETTUCE

Grand
Rapids
Lettuce

GRAND RAPIDS—This is a leaf lettuce and stands ahead of all others for winter forcing in the greenhouse. It is the best in its class for market gardeners as it will keep longer from wilting than any other variety. Its habit admits of very close planting in greenhouses or open ground and we believe it is the best lettuce for outdoor planting. Our stock runs unusually even and true to type. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

New
Iceburg

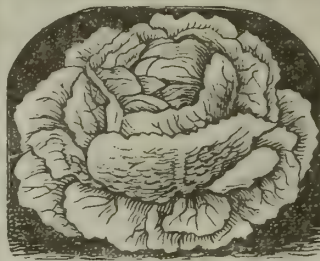

A quick growing variety of excellent flavor. The leaves are curly, bright green color. A delicious lettuce for salad. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 16c., ¼ pound 25c., ½ pound 40c., lb. 70c. postpaid.

Early Prize Head Lettuce

This is one of the best head lettuce varieties the heads forming quite early and every leaf is fit for serving. Is a good market gardener's kind being slow to run to seed, and while a comparatively early kind, yet rather late in the season, it retains its good flavor and does not turn bitter as do many other varieties. Pkt. 5c., 3 pkts. 10c., oz. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

GOLDEN BALL

The heads are fine golden color. It is early and slow to run to seed. Pkt. 5c., 3 pkts. 9c., 6 pkts. 16c., oz. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Golden Ball Lettuce

SILVER BALL

This is one of the very best all the year round varieties. Excellent quality and good for early spring, summer or winter forcing. Pkt. 5c., 3 pkts. 9c., 6 pkts. 16c., oz. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

TOMHANNOCK LETTUCE

TOMHANNOCK—Grows very quick. Leaves grow upright and are handsomely wrinkled.

Pkt. 5c., 3 pkts. 9c., 6 pkts. 16c., oz. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

New York Lettuce

It is claimed that this is the king of all main crop head lettuce. It forms immense heads as solid as a cabbage. The quality excellent, heads being creamy-white inside and free from any bitterness. It is very slow to run to seed, and a sure header under all conditions, resisting dry hot weather. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Crisp-as-Ice Lettuce.

This is a beautiful Lettuce of the cabbage type. The solid heads are of medium size, and the leaves are so tender and brittle as to have suggested the name Crisp-as-Ice. The head has a rich yellow heart. The leaves are thick and glossy, somewhat curled, of a good and attractive green color, variegated with bronze. It cannot be overestimated or overpraised for home use in spring or summer or late in the fall. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 90c.

Crisp-as-Ice Lettuce

Improved Hanson

This is a perfect Lettuce for the table. Heads green outside and white within, sweet, crisp and tender, even to the outer leaves. This is becoming a very popular lettuce. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 45c., lb. 70c.

Mixed Lettuce Seed—From 12 to 15 sorts; only the best early and late varieties. Just the seed to sow to get a continual supply. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 60c., postpaid.

MILLS EARLIEST LETTUCE

This is the earliest Lettuce in the world. Handsome in appearance, excellent flavor, and will make more money for the market gardener than any other variety. It is a Lettuce for forcing or for general crop, or can be sown at any time, and we do not believe it can be improved. It forms little heads, very tender, remarkably crisp, of the very best quality. It resists heat, drought and wet to a remarkable degree, and is slow to run to seed. By all means grow this handsome early Lettuce. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 75c.

MAY KING LETTUCE

19

This is a new Lettuce and is highly recommended for early spring planting in open ground, being hardy and an unusually quick growing sort. Plants measure 6 to 7 inches in diameter, the outer leaves folding closely forming quite a solid head. The outer leaves are light green, slightly tinged with brown; inner leaves a rich yellow imparting a rich buttery flavor. Many heads will tip the scales at one pound each. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 75c.

Black Seeded Simpson—Leaves almost white; grows large; fine quality; excellent for early planting. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Denver Market—Solid head of a delicate light green color; leaves somewhat blistered like Savoy Cabbage; good for open ground or forcing; slow to run to seed. Pkt. 5c., 3 pkts. 9c., 6 pkts. 16c., oz. 9c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Early Curled Simpson—One of the best and earliest for outdoor culture. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

The Cos Lettuce

This variety could easily be called Celery Lettuce. The engraving, made from photo, shows its long, narrow spoon-shaped leaves, most all of which form into a rather loose, loaf-shaped head. Its shape makes a very convenient head for packing or serving, and is becoming to be highly regarded as it keeps sweet and crisp during the hot months and is very slow to run to seed. If the outer leaves are tied up this lettuce will form into a

solid head and bleach snow white. On account of its compact habit of growth the plants can be set as close as six to eight inches apart. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

Big Boston Lettuce

This is, without doubt, one of the best kinds of Cabbage Lettuce on the market; very valuable to the Southern gardener for shipping North as it is the first early sort grown and is becoming more popular each season in all parts of the country. It gives satisfaction in whatever way it may be grown, whether for forcing in the greenhouse in the winter months, in frames for early spring use or in the open ground for summer and fall use. Its large, compact, tender and crisp head makes it attractive for table use, the leaves being light green, and it always finds a ready market. Our seed of this popular lettuce is carefully grown under favorable conditions and is the best to be had.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

Egg Plants

NEW TREE—See Page 2. Everybody should grow this fine variety. Pkt. 5c., 3 pkts. 12c.

BLACK BEAUTY

One of the earliest and best of all large fruited Egg Plants; grows fully as large and is ready for use about two weeks earlier than the New York Improved Purple. The skin is a rich purple-black. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

NEW YORK IMPROVED LARGE PURPLE—Skin deep purple, free from thorns; flesh white; is quite productive. Pkt. 5c., 3 pkts. 10c., ½ oz. 20c., oz. 30c.

BLACK PEKIN—Almost round and of large size; skin jet black, glossy and smooth; flesh white, solid and fine grained; medium early. Pkt. 5c., 3 pkts. 10c., ½ oz. 15c., oz. 25c.

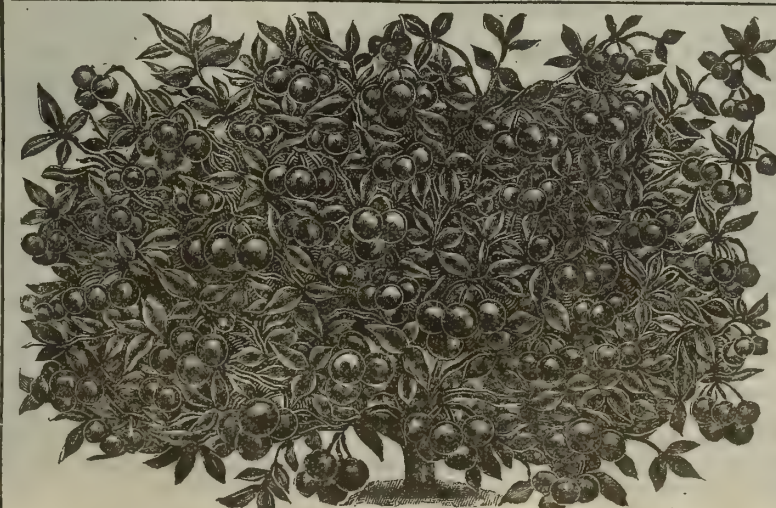

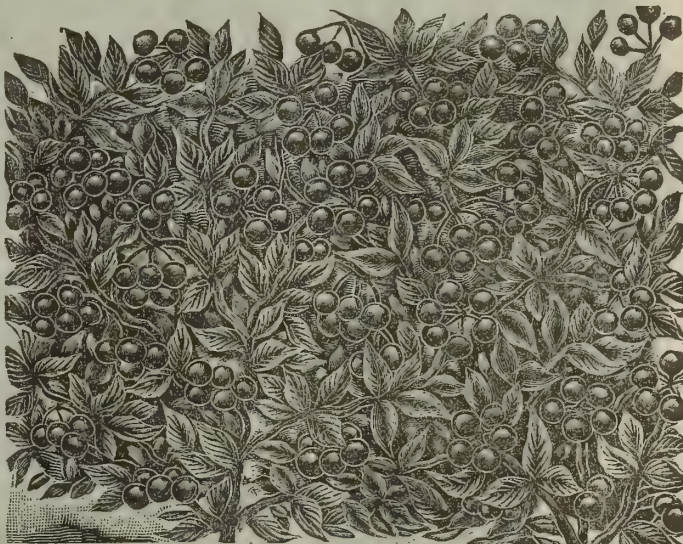

TOMATO EGG PLANT—A curiosity. Vine has appearance of an Egg Plant, but bears a bright red solid Tomato; yields as high as 50 to 60 beautiful Tomatoes to a single plant. Grow this magnificent wonder. Pkt. 5c., 3 pkts. 12c.

GARDEN HUCKLEBERRY

We have grown this fruit on our grounds and are pleased with it, and can recommend it for pies, preserves, jams, etc., when fully matured, but not good for any use in a raw state. It is easily grown from seed and bears an abundance of fruit that ripens during the fall. It is not a hardy plant and should be planted and treated the same as tomatoes, planting the seed in a box or pan in the house and putting out of doors when danger of frost is past. After the fruit, which is jet black in color, is matured, it is claimed that a frost will improve its quality and that it will cook up much finer and with much better flavor.

The plants are enormous yielders, and are a great curiosity while growing in the garden. This illustration was made from plants taken from our field of them growing.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

WONDERBERRY

The Wonderberry has been largely advertised as a remarkable new berry, a creation of Luther Burbank and adapted to pot as well as open ground culture. We have experimented with it in many ways and find it an interesting berry. It will produce fruit in from 3 to 4 months from sowing the seed, similar in size, shape and color to huckleberries, and a single bush will produce a great quantity of fruit. We have the genuine Wonderberry seed to offer as follows: Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

20 MUSK MELONS

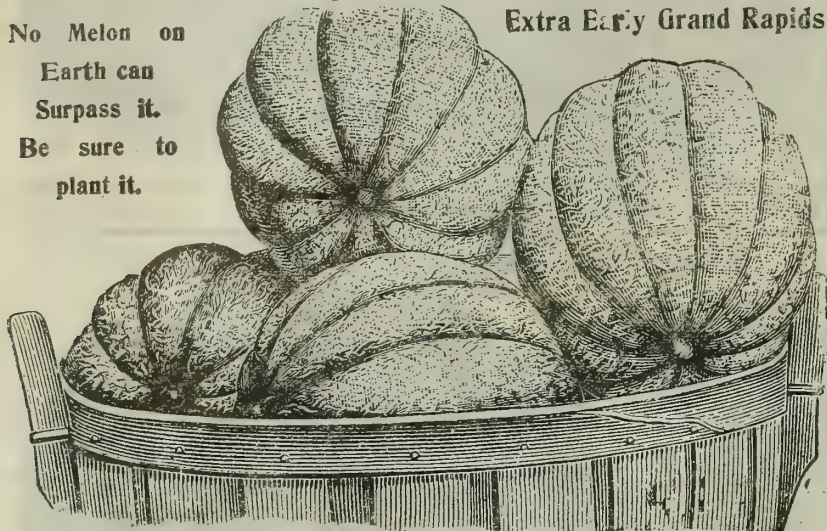

MILLS FAMOUS

Mills Famous is one of the earliest Musk Melons that we have ever raised and we know it will create a sensation wherever grown. It should be given a trial to be appreciated. The melons are uniform in size, of fine appearance, handsome shape, delicious, and will sell in any market. Larger than any other early varieties, flesh is yellow, seed cavity very small and produces very few seeds. As a table melon it cannot be surpassed. Our supply of seed is somewhat limited, but we are anxious that every customer should give it a trial this year, even if they only grow a few hills in the garden for testing.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

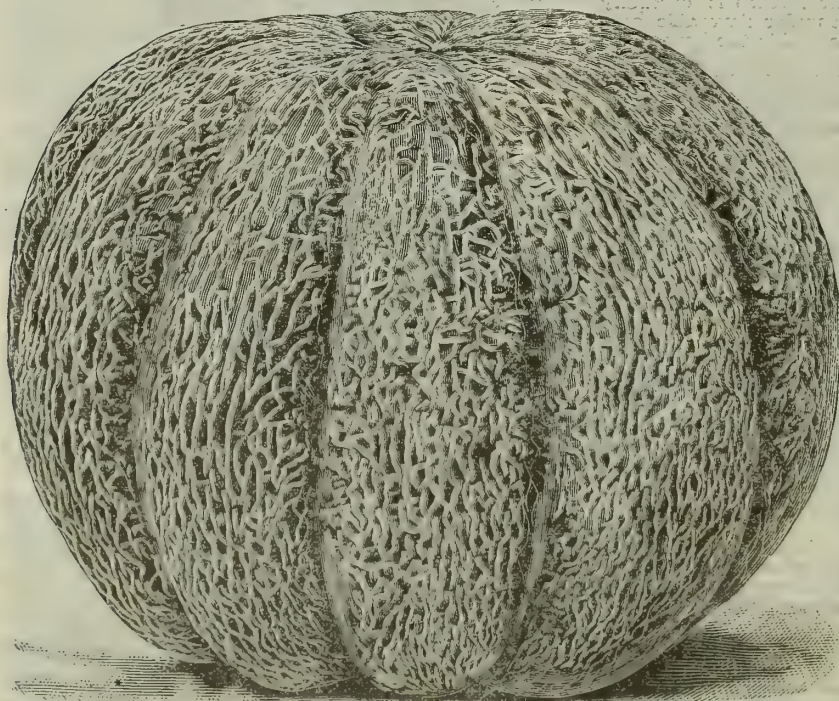

No Melon on
Earth can
Surpass it.
Be sure to
plant it.

Extra Early Grand Rapids

EXTRA EARLY GRAND RAPIDS—This is one of the very best, earliest of the large sorts, and is a profitable variety to grow. The flesh is yellow, it is in great demand in any market, being nearly two weeks ahead of other large sorts. The illustration gives a good idea of the melon. The skin is finely netted and presents a handsome appearance, and we recommend it. Pkt. 5c., 3 pkts. 9c., 6 pkts. 15c. oz. 10c. 2 ozs. 18c. ¼ lb. 30c. ½ lb. 50c. lb. 90c.

MILLS EARLIEST

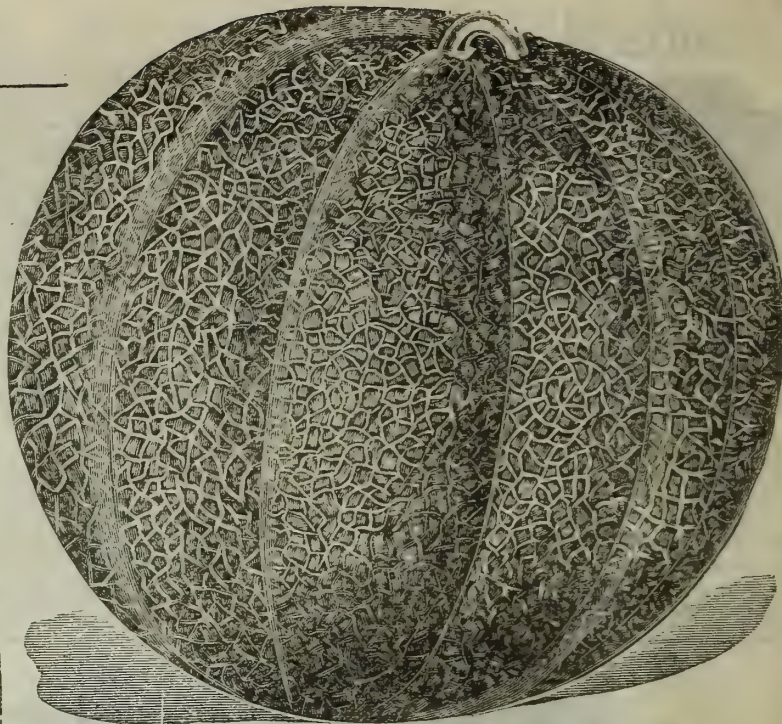

MILLS EARLIEST—Is the earliest Musk Melon and is sure to create a sensation wherever it is grown. It is ahead of the famous Jenny Lind, and, in fact, ahead of all other early Musk Melons. The melons are of uniform size, of fine shape and appearance, delicious quality and sell in any market. They are nearly round, as may be seen by the illustration, of good size, finely netted, while inside they are a rich orange color and we venture to say the flesh is thicker than that of any other variety in cultivation, there being such a small seed cavity. We can recommend this variety for home or market use and we have fully demonstrated by our trials that it deserves the name "Mills Earliest," and we know that this, the earliest, sweetest and most delicious Musk Melon, will please everybody growing it, whether they plant one or two hills or five or ten acres. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

Rocky Ford or Netted Gem

This an early variety; skin is green, ribbed and thickly netted, while the flesh is thick of a light green color, it is a very firm and solid melon and will keep in good condition for some time after being taken from the vines.

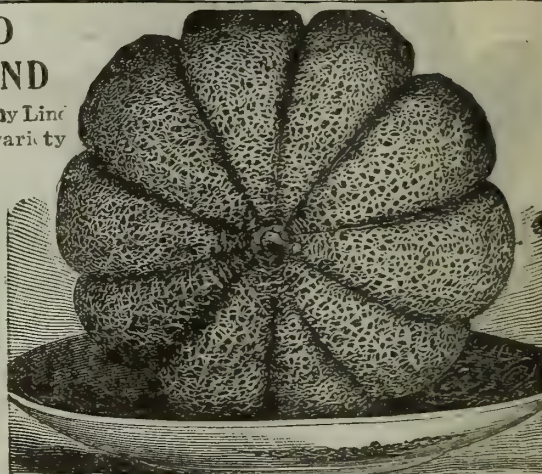

Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

Mills Famous Musk Melon

IMPROVED JENNY LIND

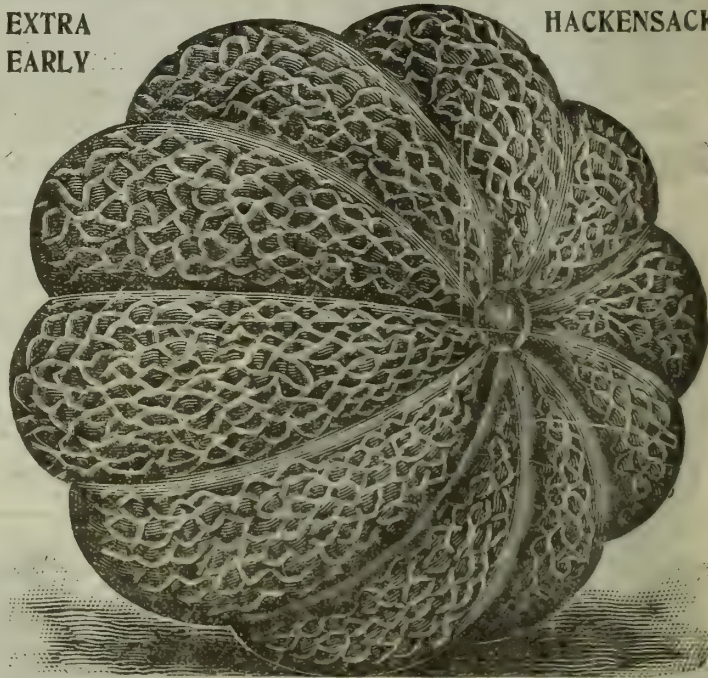

The Improved Jenny Lind is a splendid early variety and one of the best Musk Melons ever grown. Being very early, it is valuable to grow in the North. The vines are hardy in growth and bear handsome melons of fine flavor in abundance. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

Improved Jenny Lind

EXTRA EARLY

HACKENSACK

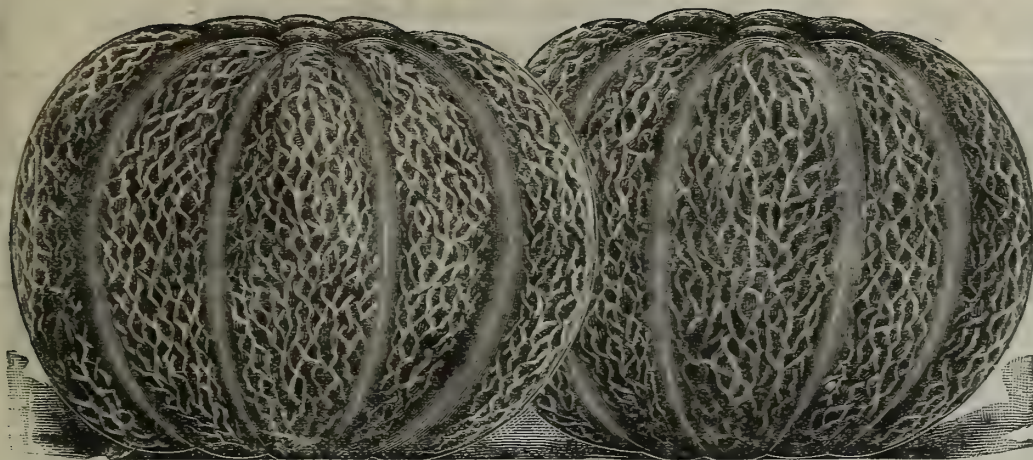

EXTRA EARLY HACKENSACK—Here is a splendid variety, early, immense yielder, handsome in appearance, rich and sugary. This excellent melon has become famous in many sections of the country and the illustration gives a good idea of its handsome appearance. It is a hard melon to beat for earliness and quality. The melons weigh from 4 to 6 pounds each. Pkt. 5c., 3 pkts. 9c., 6 pkts. 15c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 45c., lb. 80c.

OSAGE OR MILLER'S CREAM—Flesh rich salmon color, thick, sweet and melting in quality. The rind is thin and firmly netted very early. Pkt. 5c., 3 pkts. 9c., oz. 10c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

Musk Melon Mixture==

To all of those who want to raise all varieties of Musk Melons we offer by planting the seed all at once in the spring we highly recommend this mixture. An abundance of early Musk Melons with a continued supply of medium, early and late sorts of all shapes and sizes will be produced. Pkt. 5c., 3 pkts. 8c., 6 pkts. 15c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

Early Gem Musk Melon

Early Gem Musk Melon 21

Among Musk Melons Early Gem takes an important place. It has been found to be one of the best shipping melons grown. A cross between Rocky Ford and Emerald Gem, and comes true in flavor, and netting each year. The flesh of this new melon is a pink or orange color. Seed cavity is very small and the flesh is solid, of best quality; rind thin but tough. Melons of this variety have been shipped thousands of miles and expert melon growers pronounce it the grandest melon they ever saw. We are having great reports on this splendid melon from all parts of the country. It should be grown to be appreciated. We want all our customers to grow this melon, for it can be easily raised in any section of the United States, even to the far north. Pkt. 5c., 3 pkts. 12c. 6 pkts. 18c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

PERFECTION OR PRINCESS—This is of nutmeg shape, quite even in size, weighing from 6 to 8 lbs. each; skin is a dark green color, heavily netted; flesh of a salmon color, rich and sweet flavored. Pkt. 5c., 3 pkts. 9c., 6 pkts. 15c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

Emerald Gem

The Emerald Gem is one of the very best. Skin is smooth and emerald green in color. Vines grow thrifty and produce an abundance of fruit, very rich and sweet flavored. A grand musk melon. Grow it this season

and hereafter it will always find a place in your garden. Pkt. 5c., 3 pkts. 9c., 6 pkts. 15c. oz. 10c., 2 ozs. 18c., ¼ lb. 30c. ½ lb. 50c. lb. 90c

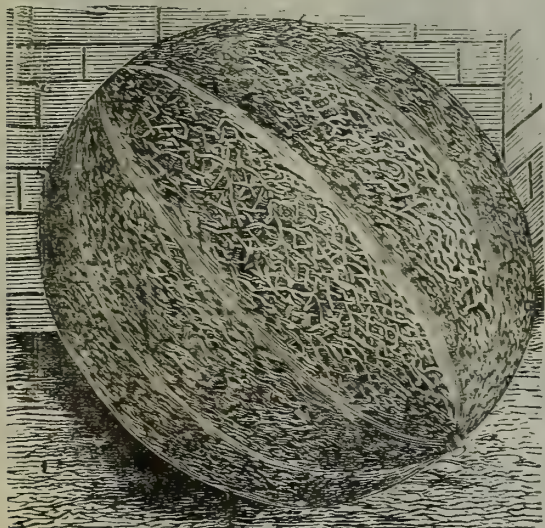

Montreal Market

The largest round musk melons in the world; weigh 30 to 40 lbs. slightly ribbed; ripens early and keeps well. Pkt. 5c., 3 pkts. 9c. oz. 10c

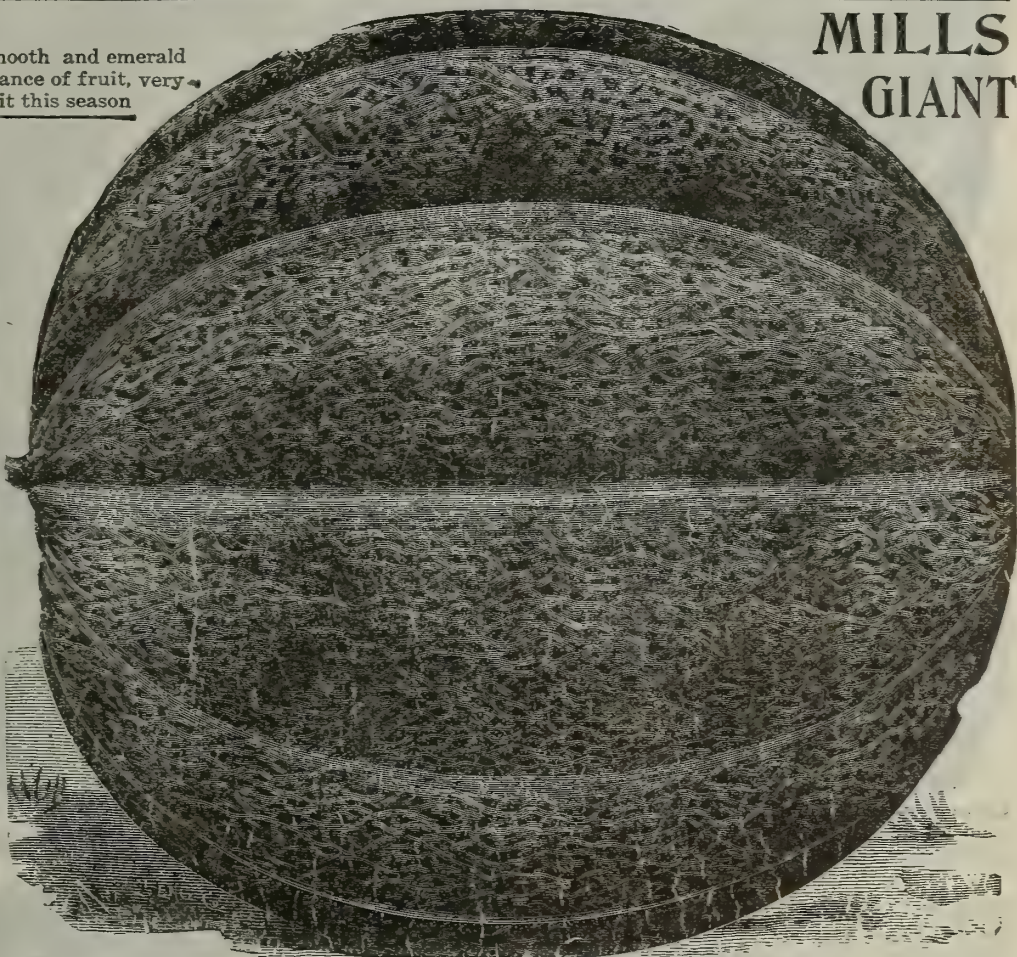

Emerald Gem

2 ozs. 16c., ¼ lb. 25c. ½ lb. 40c. lb. 75c.

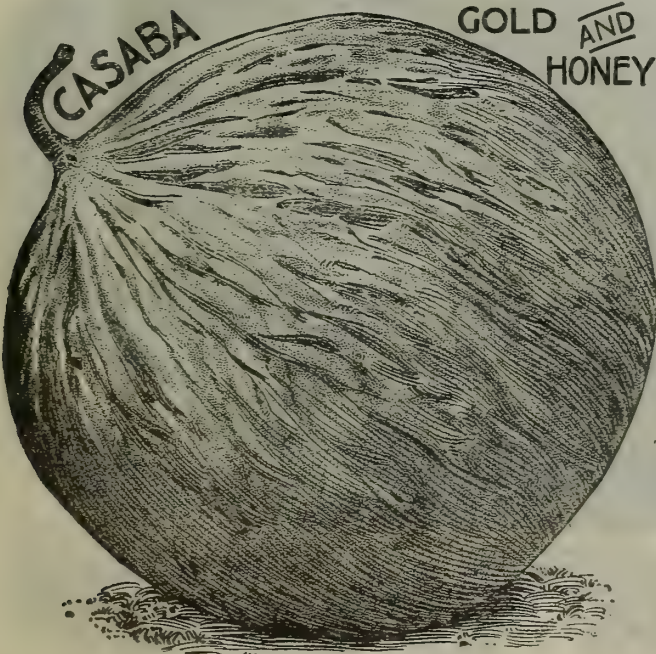

Montreal Market Musk Melon

MILLS GIANT

MILLS GIANT—Is a splendid large melon and a great favorite with all who have grown it. Handsome in form, of the very best quality; flesh is rich and sugary; grows to a large size and is very productive. It has thick flesh and small seed cavity and is a splendid sort to grow on account of its large handsome appearance. Try it,

Pkt. 5c., 3 pkts. 9c., 6 pkts. 15c., oz. 10c., 2 ozs 18c., ¼ lb. 30c., ½ lb. 50c., lb. 90c.

GOLD AND HONEY

CASABAS—are a late variety of musk melons to be classed in a group by themselves. They should be planted after all danger of frost in spring, and picked and put away in a dry place just before frost in the fall, all melons, even half grown ones, will ripen gradually, giving a continual supply all winter.

SANTA CLAUS

This name is very appropriate as it is in prime condition to eat during the holiday season. Its light green flesh is stringless. Looks like a mottled musk melon see engraving. Rind very hard.

there is no seed cavity, seeds are imbedded in a small jelly-like pulp. Plant and cultivate same as musk melons. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c., 2 ozs. 25c.

Hybrid—Will keep all winter. Large size, flesh thick; excellent flavor, a rapid grower, yields well until killed by frost. Of handsome color. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c., 2 ozs. 25c.

Gold and Honey—Is a handsome variety; a little later in ripening than the musk melon, but just before frost in the fall all the fruit, even half grown, should be picked and put in a dry place, where it will ripen gradually and give a continual supply all winter. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 15c., 2 ozs. 25c.

Santa Claus Casabas

Mills
Earliest

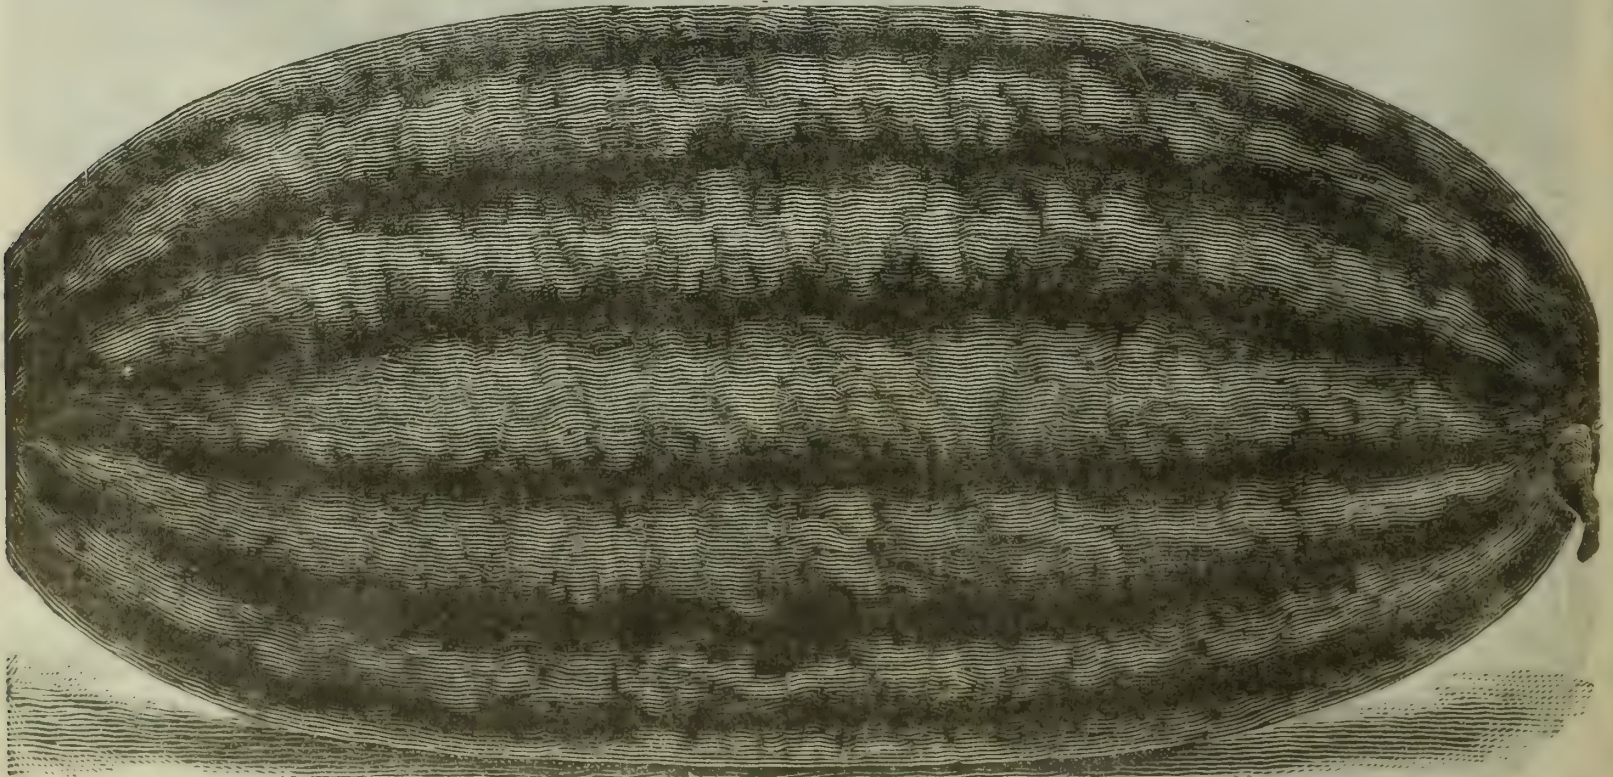

MILLS EARLIEST WATER MELON

This great Early Water Melon is becoming known everywhere and is making a great record on account of its extreme earliness. On all of our tests we find "Mills Earliest" absolutely the earliest of them all and is sure to be first in the market. It is delicious in flavor, very juicy and sweet and always salable. It is excellent for family use, as a few vines will yield many melons. Everyone should try this new early Water Melon. It is excellent to plant if you are in a climate where the seasons are short, for it will ripen where many other Water Melons will not mature. The flesh is deep red in color, exceedingly brittle, the skin is dark green with faint streaks of lighter green. It is a Melon of easy culture and we urge our customers to give it a trial. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 15c., ¼ lb. 22c., ½ lb. 35c., lb. 65c.

HARRIS - IMPROVED EXTRA EARLY

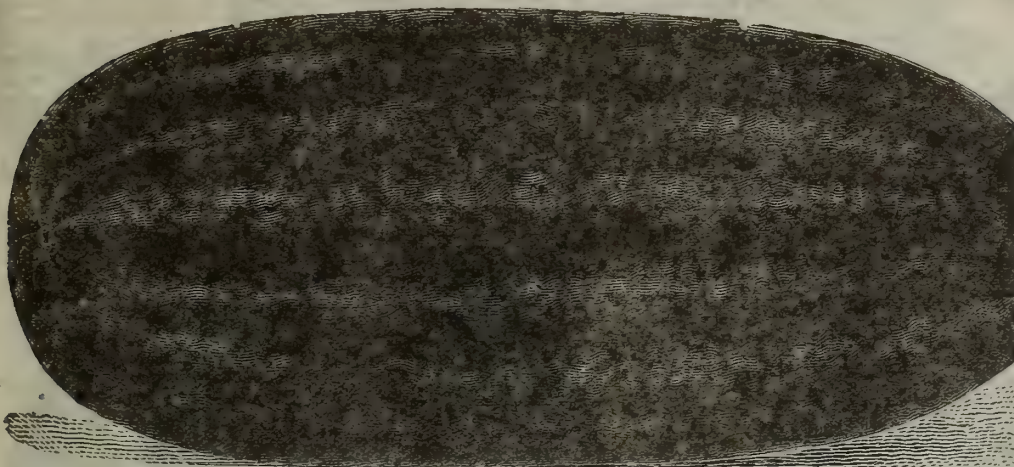

This variety was originated by Mr. Harris of Tennessee. He is an expert melon grower and this Extra Early will ripen and be gone before many other Extra Early Melons begin to ripen. It is of good size, weighing from 15 to 20 pounds. It is an excellent shipper and will ship thousands of miles. Skin is mottled with green and white. Flesh is red, sweet and juicy. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

THE WONDERFUL SUGAR WATER MELON

WONDERFUL SUGAR MELON—This has become a famous Water Melon in nearly all sections of the country and we know of no melon sweeter than this one. The Melons grow to a large size, are handsome in appearance and the flesh is a beautiful red, with light colored or white seeds. The vines grow very strong and thrifty and will stand wet or dry weather. The illustration made from a specimen gives a good idea of the handsome appearance and we can highly recommend this Water Melon as being one that will please our customers, both in the north and south. It is an excellent sort for near by markets, but on account of its thin rind we do not recommend it for long freight shipments. For a large size Water Melon, we are sure our customers will be more than pleased with this one. We have a choice lot of seed to offer. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 9c., 2 ozs. 14c., ¼ lb. 20c., ½ lb. 35c., lb. 60c., postpaid.

KLECKLEY SWEETS

This Water Melon is becoming very popular. It is especially valuable on account of its fine flavor. As will be seen by the above illustration, it is a long oval shaped Water Melon with dark green rind. The flesh is very firm, scarlet in color, and of the very best quality and crisp texture. It is a splendid family garden Melon, and always gives good satisfaction everywhere, and we can highly recommend it to grow in the North or South. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Sweetheart—Is one of the earliest of the large sorts. It is handsome, good keeper, fruits are large, rind thin but firm. Flesh very bright red, solid and thick. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

FORDHOOK EARLY—Is one of the earliest Water Melons. The average weight is from 20 to 35 pounds. Color medium green; the flesh is a bright red, sweet and juicy. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

KOLB'S GEM—Largely grown in the South for shipment to Northern markets. Fruit nearly round, rind dark green marbled with lighter strips. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

NEW FAVORITE—Excellent Water Melon with dark and light green color. It is oblong in shape. Flesh bright crimson and very sweet. An excellent shipper, ripens before Kolb's Gem or Iron clad. This is an excellent variety to grow in the South for Northern market. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

CUBAN QUEEN—Often weigh 80 lbs. each. The rind is marked with irregular stripes of light and dark green; a very showy variety and largely grown. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

DIXIE is beautifully striped. Flesh of an intense bright deep scarlet, very sweet and tender. Growers say the Dixie is the best eating and most productive melon they have ever grown. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

OUR FAMOUS GARDEN SEED COLLECTION, 60 Cts.

This is a collection of Garden Seed containing 40 regular sized packets we have always sold for \$1.00 postpaid, but on account of excellent seed crops of all the varieties the past year, and our improved system of putting up these collections, we will sell this entire lot of 40 Packets this year, all Carefully packed, for ONLY 60c., postpaid.

The above collection of seeds is one of our 1912 Bargains and we are sure when 60 Cents will buy enough seed to plant a whole garden, no one who has a garden, can let this offer pass by. Include this collection in your order.

Duke Jones—This is a large, blocky, oval fruit, but quite thick through. It is excellent for shipping. Fruit grows very large. Has a dark green skin with bright red flesh of fine quality. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

CITRON—Fruit round, handsome and small; used for making preserves only. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Mammoth Ironclad

Excellent variety of large size; the weight averaging nearly 50 pounds each. The flesh is deep red and of the best flavor. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

Mammoth Ironclad

ONIONS

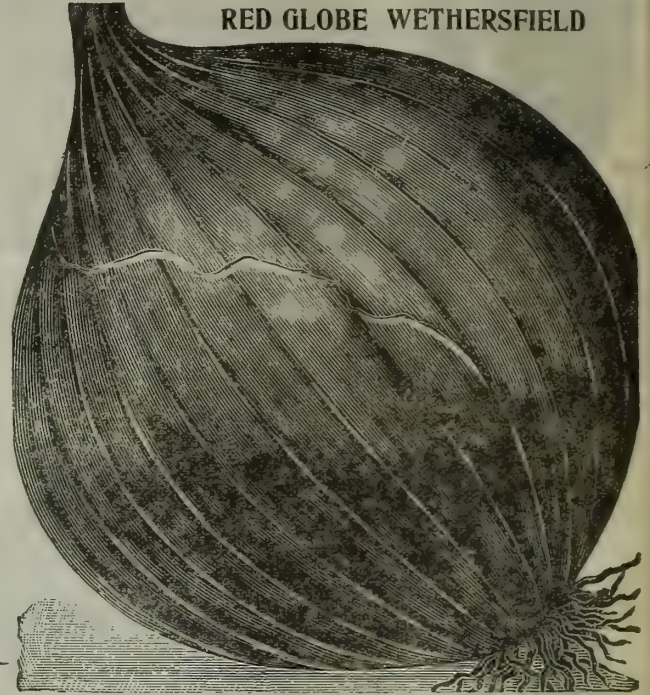

Mills Yellow Globe Danvers

This is a choice selected strain of Yellow Globe Danvers Onion and we are sure there is no better on the market to-day. It always attains a good size with deep bulb and small neck: They grow uniformly, large size and command the highest market price. Skin is rich golden yellow, flesh white, very fine grain, mild, pleasant flavor, excellent keeper, and one of the most hardy and productive Onions cultivated. Our seed stock is raised with particular care, and only the best Onions selected for seed. When once planted, customers will have no other kind. Seed is plump, very heavy, of strong vitality, and reliable in every respect. If you want to grow a choice lot of these handsome Yellow Globe Onions, order our strain of seed. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00, postpaid. By express, not prepaid, 5 lbs., enough for one acre, \$4.00, 10 lbs. \$7.00, 25 lbs. \$17.00.

Mills Yellow Globe Danvers Onion

Red Globe Wethersfield—This is a new Onion, has a record of over 700 bushels to the acre and not a scullion among them. Ripen early, large size and admired by all who see them. The outer skin possesses that luster and richness of color so desirable and yet so often lacking from the ordinary red globe crop. Pkt. 5c 3 pkts. 12c., oz. 15c. 2 ozs. 25c., ¼ lb. 40c., ½ lb. 70c lb. \$1.30.

RED GLOBE WETHERSFIELD

LARGE RED

WETHERSFIELD ONION

There are many strains of this celebrated Onion offered, but we are sure that none can surpass our famous stock of this popular variety. Some strains will not mature until late in October, and this is just what onion growers should avoid. We have for years taken particular pains in selecting from bulbs that will produce very large crops of these onions, maturing early in the fall, and 2 lb specimens the first year from seed are of frequent occurrence. Yields of 600 to 800 bushels of our Wethersfield per acre are not uncommon. It is a magnificent keeper, the skin being a deep purplish red, flesh pure white, and moderately fine grain. They are excellent for shipping and we claim there is no strain that can surpass our famous stock of this popular variety. Thousands of our customers have endorsed this as the best they have ever grown. We consider it in every way a perfect red Onion for home or market purposes. Our stock of seed is very large, and we expect to have enough to go around at the following prices: Pkt. 5c., 3 pkts. 10c., oz. 15c., 2 ozs. 25c., ¼ lb. 40c., ½ lb. 60c., lb. \$1.10 postpaid. By express, not prepaid, 5 lbs. enough for one acre, \$5.00, 10 lbs. \$9.00.

OHIO YELLOW GLOBE

This is a great Onion and it is claimed from 700 to 900 bushels of Ohio Yellow Globe Onions have been grown on an acre of land. It is handsome in appearance, has small necks, is bright yellow, ripens early and all at once, which makes it a valuable variety to grow for market. The bulbs are firm and solid and keep well through the winter. It is highly recommended for heavy muck land on account of its early maturing qualities. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00 postpaid. By express not prepaid 5 lbs., enough for one acre, \$4.00, 10 lbs. \$7.00, 25 lbs. \$17.00.

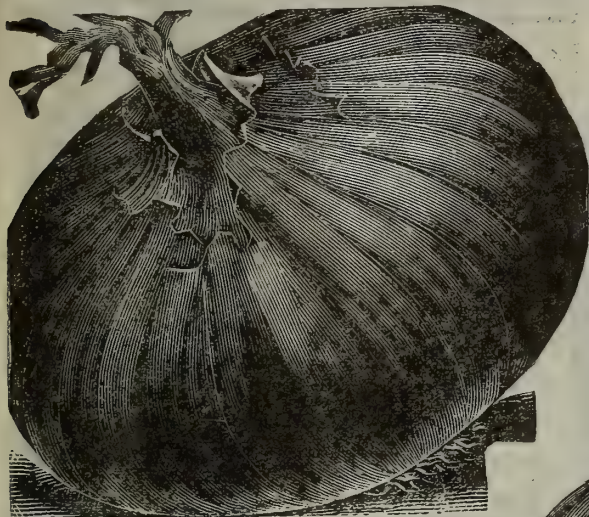

MAMMOTH SILVER KING

This variety grows very large, bulbs are of attractive shape, flattened but thick through, as shown in illustration, average diameter 5 to 7 inches, bulbs often weighing 3 to 4 lbs. each. Skin is a beautiful silver white, flesh is particularly mild and pleasant in flavor. It can be grown in nearly all sections of the United States the first year from seed. Anyone desiring a handsome large pure white Onion of the finest mild flavor will be more than satisfied with the Mammoth Silver King. Its size and beauty will prove very striking. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50.

Large
Red
Wethersfield

Extra Early Red

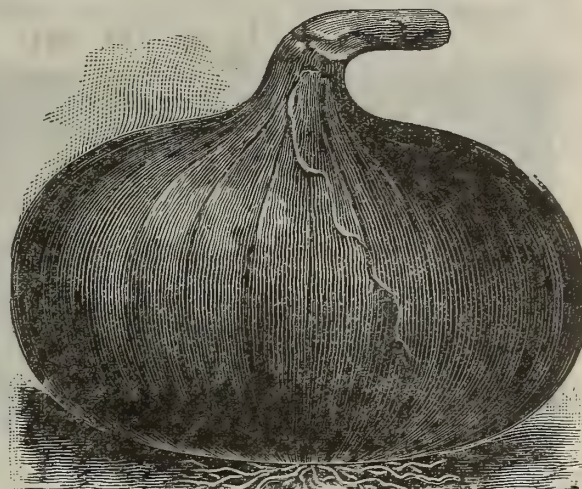

EXTRA EARLY RED—This is one of the standard American Onions succeeds in cold mucky ground where other sorts fail; matures before Red Wethersfield and if grown in rich soil will produce bulbs almost as large. Can be made to produce fine Onions 90 days from sowing; mild flavor and keeps well; color deep, rich red; grain fine and close; Onion solid and heavy; well adapted for early market; particularly adapted for northern latitudes, or where seasons are short and cold. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 15c., 2 ozs. 25c., ¼ lb. 40c., ½ lb. 70c., lb. \$1.20, postpaid. By express, not prepaid, 5 lbs. \$5.00.

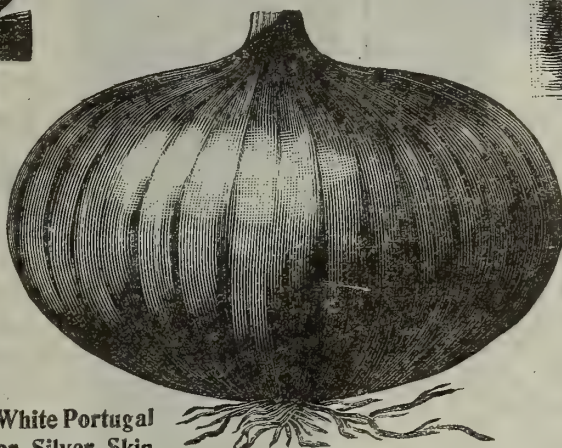

Australian Brown Onion 25

AUSTRALIAN BROWN—Is a variety which matures early, about three weeks ahead of the Wethersfield, and is largely grown for a market onion. The bulbs are of medium size, run very uniform, wonderfully hard and solid, and have an attractive amber-brown color. The bulbs are very even in size, with a small hard neck, and its keeping qualities are excellent, keeping for a year or more. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 9c., 2 ozs. 16c., ¼ lb., 30c., ½ lb. 55c., lb. \$1.00, postpaid. By express, not prepaid, 5 lbs. \$4.00, 10 lbs. \$7.00.

WHITE PORTUGAL OR SILVER SKIN—A great favorite with market gardeners and truckers. Flavor mild and pleasant, skin silvery white

Australian Brown Onion

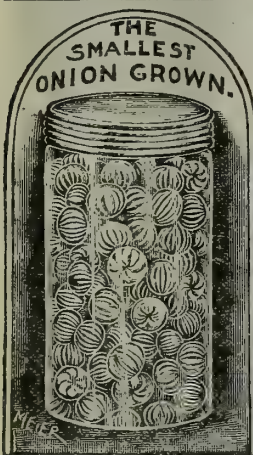

White Portugal or Silver Skin

of handsome appearance. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 20c., 2 ozs. 30c., ¼ lb. 50c., ½ lb. 80c., lb. \$1.40, postpaid.

YELLOW DUTCH OR STRASBURG—Good size, quite flat, skin yellow, flesh white, excellent for growing sets. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00, postpaid. By express, not prepaid, 5 lbs. \$4.00.

MAMMOTH RED POMPEII—Fine quality and has produced Onions weighing from 2½ to 3 pounds the first year from seed. Skin is thick and reddish brown in color; flesh white, fine grain, mild flavor. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 10c., 2 ozs. 18c., ¼ lb. 35c., ½ lb. 65c., lb. \$1.25.

MILLS WHITE PICKLING

MILLS EUREKA EARLY RED GLOBE—The earliest small Red Onions in cultivation, of globe shape, and several days earlier than any other Red Globe onion. It is an excellent sort for pickling, and will be sure to please everyone who grows it. Pkt. 5c. 3 pkts. 12c. 6 pkts. 20c. oz. 25c. 2 oz. 35c.

MILLS WHITE PICKLING is the earliest onion in cultivation, producing the handsomest little white bulbs imaginable. At maturity the tops die down directly to the bulb, which is pure white, with a very delicate and mild flavor. For table use and pickling it is very valuable. Pkt. 5c., 3 pkts. 12c. 6 pkts. 20c. oz. 18c. 2 ozs. 30c.

SPECIMENS OF NATURAL SIZE

SOUTHPORT WHITE GLOBE—Handsome silvery white perfectly ball shaped Onion of large size, commanding the highest prices in the market. Flesh firm, fine grain, of mild flavor and an excellent keeper. Pkt. 5c., 3 pkts. 12c., oz. 30c., 2 ozs. 50c., ¼ lb. 90c., ½ lb. \$1.50, lb. \$2.50.

SOUTHPORT RED GLOBE—This is a large Red Globe Onion, similar to White Globe excepting the color. Matures quite early, large size, deep red skin, fine grain, flesh mild, very productive and an excellent keeper. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c., ¼ lb. 40c., ½ lb. 75c., lb. \$1.30.

Prize Taker

One of the Largest Yellow Globe Onions in the World

IT IS UNEXCELLED AS A MONEYMAKER OR FOR FAMILY USE

This is a great Onion and it is hard to equal the genuine Prize Taker. We consider the Prize Taker is by far the handsomest, most productive, most popular and best of the Yellow Globe Onions to-day. Prize Taker produces large, handsome bulbs of superior quality and grows very uniform in size, nearly a perfect globe as shown in the illustration. It has a very small neck and always ripens up hard and fine without any stiff necks. The skin is of a bright straw color and presents a handsome appearance in market. The bulbs grow to an enormous size, often measuring 10 to 15 inches in circumference and attract a great deal of attention in any market and can be sold at a better price than any other variety we know of. The keeping qualities are excellent and the bulbs appear to be as firm and solid in the spring as when put away in the fall. We cannot too strongly recommend our genuine Prize Taker Onion seed. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c., ½ lb. 60c., lb. \$1.15, 2 lbs. \$2.25 postpaid. By express, not prepaid, 5 lbs. enough for one acre \$5.00.

RED BERMUDA—We can safely recommend it as being early, large and very solid. It keeps much better than any other foreign variety. Pkt. 5c., 3 pkts. 12c. oz. 20c. 2 ozs. 35c. ¼ lb. 60c. ½ lb. \$1.15, lb. \$2.00.

ONION MIXTURE—We have included all the early medium and late sorts which will produce an abundance of onions of all colors, shapes and sizes; many being giants, from the smallest pickling onion to the mammoth varieties. Pkt. 5c., 3 pkts. 9c., 6 pkts. 16c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 75c., postpaid.

PRIZE TAKER

26 PEAS Our Seed Peas are the very best quality being all Northern grown.

Mills First of All

First of All is the best Extra Early smooth pea, unequalled for yield, size of pod and regularity of growth. Its height is about two and one-half feet and produces pods of good size which are well filled with smooth, round, creamy white peas that ripens so evenly as not to require more than two pickings to clear the crop. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c., pt. 25c., qt. 45c., postpaid. By express or freight, not prepaid, 4 qts. \$1.00, pk. \$2.00.

*** AMERICAN WONDER**—This is a well known early pea and preferred by many. Its earliness combined with habit of growth makes it a valuable sort to grow. It is of dwarf robust habit producing a profusion of good sized, well filled pods. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c., pt. 30c., qt. 50c., postpaid. By express or freight not prepaid, 4 qts. \$1.25, pk. \$2.25.

Nott's Excelsior—A Wonderful Early Pea

*** NOTT'S EXCELSIOR** is a grand early pea, as early as American Wonder and is first-class in every respect. Our customers have had it for table use 45 days after planting with the most ordinary cultivation. They grow to uniform size, about a foot high and are always very tender and of fine quality. This is a splendid early wrinkled variety to grow. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c., pt. 30c., qt. 50c., postpaid. By express or freight, not prepaid, 4 qts. \$1.25, pk. \$2.25.

*** LITTLE GEM**—This is one of the smallest varieties grown, is very early. Its height is only 12 to 18 inches, table quality is excellent and is a prolific bearer. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 45c., postpaid. By express or freight not prepaid, pk. \$2.00.

*** ADVANCER**—This is a second early wrinkled pea, grows about 2½ to 3 ft. high, producing long pods which are well filled. This pea is used very extensively by market gardeners because of its productiveness and the fine appearance of its pod. It is also largely used by canners. Pkt. 6c., 3 pkts. 12c., ½ pt. 15c., pt. 25c., qt. 45c., postpaid. By express or freight, not prepaid, 4 qts. 90c., pk. \$1.75.

*** CHAMPION OF ENGLAND**—A well known variety and acknowledged to be one of the best for late sowing. Pkt. 6c., 3 pkts. 15c., ½ pt. 16c., pt. 25c., qt. 40c., postpaid. By express or freight, not prepaid, 4 qts. \$1.00, pk. \$2.00.

*** EVERBEARING**—Grows 18 inches to 2 feet high, producing pods from 3 to 4 inches long of very large size and peas are of the very best quality. It is an everbearing variety and has a peculiar branching character, forming as high as ten stalks from a single root stalk. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c. Crop almost a failure.

PRIDE OF THE GARDEN, GOLDEN SUGAR—This is a mammoth sugar pea and we have never found a variety that can equal it. The flavor of the pea is better than other sugar peas. It is entirely free from strings, and the pods are very tender and brittle, vines grow 3½ to 4 ft. high and are covered with mammoth pods. Can be used same as snap or string beans. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c., ½ pt. 20c., pt. 35c., qt. 60c., postpaid.

Seed Pea crop was very short the past season, making stock scarce and high priced.

20c. FLOWER BED COLLECTION!

This will produce a Great Collection of Colors.

*** THOMAS LAXTON**—This is a fine new early wrinkled pea and somewhat resembles Gradus or Prosperity, but the pods are deeper and richer green. It is about as early as the "First of All" Pods contain seven or eight large peas of the richest flavor. It grows about 3 ft. high and as a first early we consider it one of the very best. Pkt. 6c., 3 pkts. 15c., ½ pt. 18c., pt. 35c., qt. 60c., postpaid. By express or freight, not prepaid, 4 qts. \$2.00, pk. \$3.50.

*** NEW SURPRISE**—An extra early wrinkled variety which comes into market as soon as the early smooth kinds. The vines grow about 3 ft. high and need no bushing. Pods are well filled, and everyone who grows these will be more than pleased with them. Pkt. 6c., 3 pkts. 15c., ½ pt. 18c., pt. 35c., qt. 60c., postpaid. By express or freight, not prepaid, 4 qts. \$1.25, pk. \$2.25.

* Mills Enormous

Has been thoroughly tested in every section of the country and we are sure it will please everyone who takes pride in growing fine peas, for they are a wonder to all who see them. They grow to a height of 4 ft. and the strong healthy vines are so vigorous that they must be planted thinly in order to secure best results. They are enormous yielders, producing pods always well filled with mammoth peas as shown by the illustration, and are of excellent quality. They are entirely free from mildew, so common among late peas, and they stand at the head for productiveness. Stock limited. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 35c., qt. 60c., postpaid. By express or freight not prepaid, pk. \$3.00.

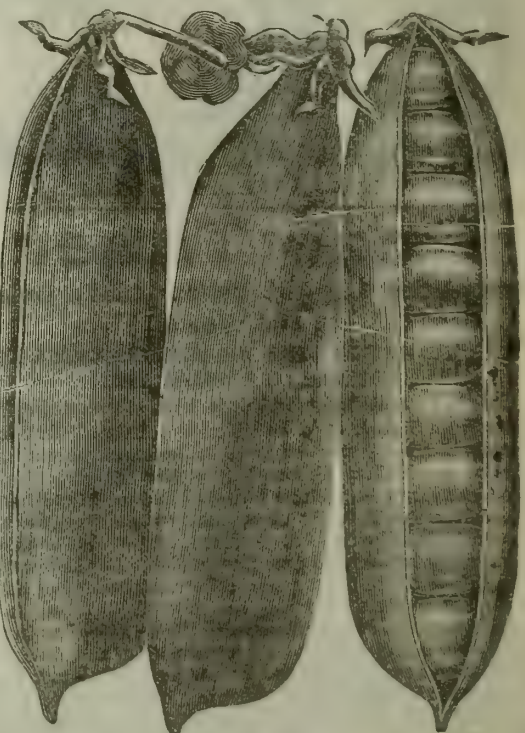

THOMAS LAXTON

MILLS ENORMOUS

*** TELEPHONE**—This is a strong luxuriant growing main crop variety, attaining a height of about 4½ ft. It is exceedingly prolific, producing a large number of pods to the stalk. The pods are always large and filled with immense wrinkled marrow peas, 6 to 8 being the average, while 10 to 12 peas to a pod are frequently found. Quality excellent. Pkt. 6c., 3 pkts. 15c., ½ pt. 18c., pt. 30c., qt. 55c., postpaid. By express or freight, not prepaid, 4 qts. \$1.50.

*** GRADUS OR PROSPERITY**—This is a grand extra early pea. It is popular wherever grown and is considered one of the very best large podded wrinkled peas which will mature pods only a few days later than the small podded round seeded extra early varieties. The pods and peas are always large and remain tender and sweet for some time after they are large enough to use. Pkt. 6c., 3 pkts. 15c., ½ pt. 20c., pt. 35c., qt. 60c., postpaid. By express or freight not prepaid, 4 qts. \$2.00.

Gradus or Prosperity

15c. VEGETABLE SEED OFFER

This Collection is a Bargain. It contains standard vegetable seeds. Made up of 6 full size packets for only 15c. It contains one packet each of Blood Turnip Beet, Parsnip, Early Tomato, Early Cabbage, Early Radish and Yellow Onion; all tested new seed and a great bargain for 15c.

These choice seeds are offered for half price to introduce our seeds in new homes this year. Be sure and order one of these collections.

REMEMBER, Entire lot of 6 packets postpaid FOR ONLY 15c.

PEPPERS

NEW TOMATO PEPPER—See Back Cover.
ANAHEIM CHILI—New Variety—See Page 1
SWEET MOUNTAIN—Best Sweet Pepper—See Page 1
MEXICAN BOUQUET—A Good Variety—See Page 1

MAMMOTH GOLDEN QUEEN—This is the largest sweet yellow Pepper, handsome, very productive, perfect in shape, uniform in size, mild flavor and of a golden waxy yellow color. The illustration gives a good idea of the appearance of the plant. Pkt. 5c. 3 pkts. 10c. ½ oz. 12c. oz. 20c.

GOLDEN UPRIGHT—The fruit is of a golden color tinged with bronze, of mild flavor, a very handsome variety. Pkt. 5c., 3 pkts. 10c., ½ oz. 12c., oz. 20c.

PROCOPP'S GIANT—Is covered with Peppers and grows to a large size. It is not infrequent for Peppers to grow 8 to 10 inches long, while they are just mild enough to be pleasing to taste. Pkt. 5c. 3 pkts. 10c. ½ oz. 12c. oz. 20c.

Chinese Giant

CHINESE GIANT—This is a large variety producing enormous fruit in great abundance on strong plants, which grow about two feet high of a branching character. The Peppers are thick, tender and mild, nearly as sweet as an apple, while the skin when ripe is a brilliant scarlet. Pkt. 5c., 3 pkts. 12c., ½ oz. 15c., oz. 25c.

LONG RED CAYENNE—This is the true Cayenne, fruit conical shaped, red in color, very hot. Pkt. 5c., 3 pkts. 12c., ½ oz. 15c., oz. 25c.

RUBY KING PEPPER This is a well known variety and one of the leading Peppers always in great demand. It grows to a good size producing large brilliant red Peppers, mild flavor. Ruby King is a sort that can be relied upon. Pkt. 5c., 3 pkts. 10c., ½ oz. 15c. oz. 25c.

BELL OR BULL NOSE—This is an early red variety of large size, mild flavor, thick and fleshy. Plants grow about 2 feet high, while the fruits are about 3 inches in length and 2 inches in diameter. Pkt. 5c., 3 pkts. 10c. ½ oz. 12c. oz. 20c.

MIXED VARIETIES—We have made up a mixture of all the leading varieties of Peppers, which will produce a great display of all the different shapes, colors and sizes and a valuable selection to make if one wants a good collection of peppers. In this mixture will be found some new varieties not offered separately. Pkt. 5c., 3 pkts. 10c., 6 pkts. 18c.

PUMPKINS

SUGAR—Also called Sweet Pumpkin. There is a great demand for seed of this well known variety. It has deep yellow skin and fine grained flesh, excellent keeper, cannot be excelled as a table variety. It is a sure cropper and excellent for marketing, as it always grows to uniform size. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

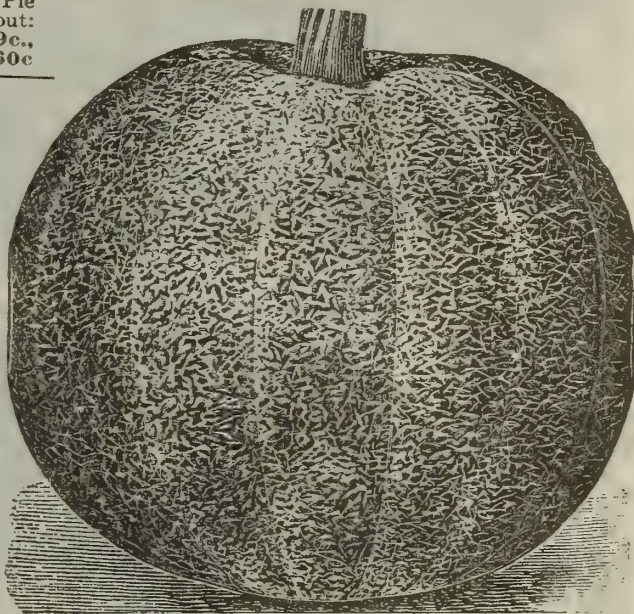

QUAKER PIE—This is a handsome Pie Pumpkin, creamy white on the inside and out; flesh is sweet and rich. Pkt. 5c., 3 pkts. 9c., oz. 10c. 2 ozs. 15c. ¼ lb. 25c. ½ lb. 35c. lb. 60c

WINTER LUXURY—Golden russet in color and one of the best for pies. A great keeper, fine grain, rich and sweet. Pkt. 5c. 3 pkts. 9c. oz. 10c. 2 ozs. 15c. ¼ lb. 25c

JAPANESE PIE—This is a Japanese variety, valuable for cooking. Flesh is very thick, of rich salmon color, fine grain, dry and sweet. It is of medium size, seed cavity small, very productive and a good keeper. Pkt. 5c., 3 pkts. 9c.; oz. 15c., 2 ozs. 25c., ¼ lb. 35c.

TENNESSEE SWEET POTATO—This is a medium size variety, pear-shaped, slightly ribbed, color creamy white; some times slightly striped with green. Flesh is light colored, fine grain and when cooked resembles a sweet potato in appearance and taste. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c.

COMMON FIELD—This is the ordinary Pumpkin used to plant in corn fields for feeding stock. Very productive. Pkt. 5c., oz. 10c., ¼ lb. 20c. ½ lb. 30c. lb. 45c.

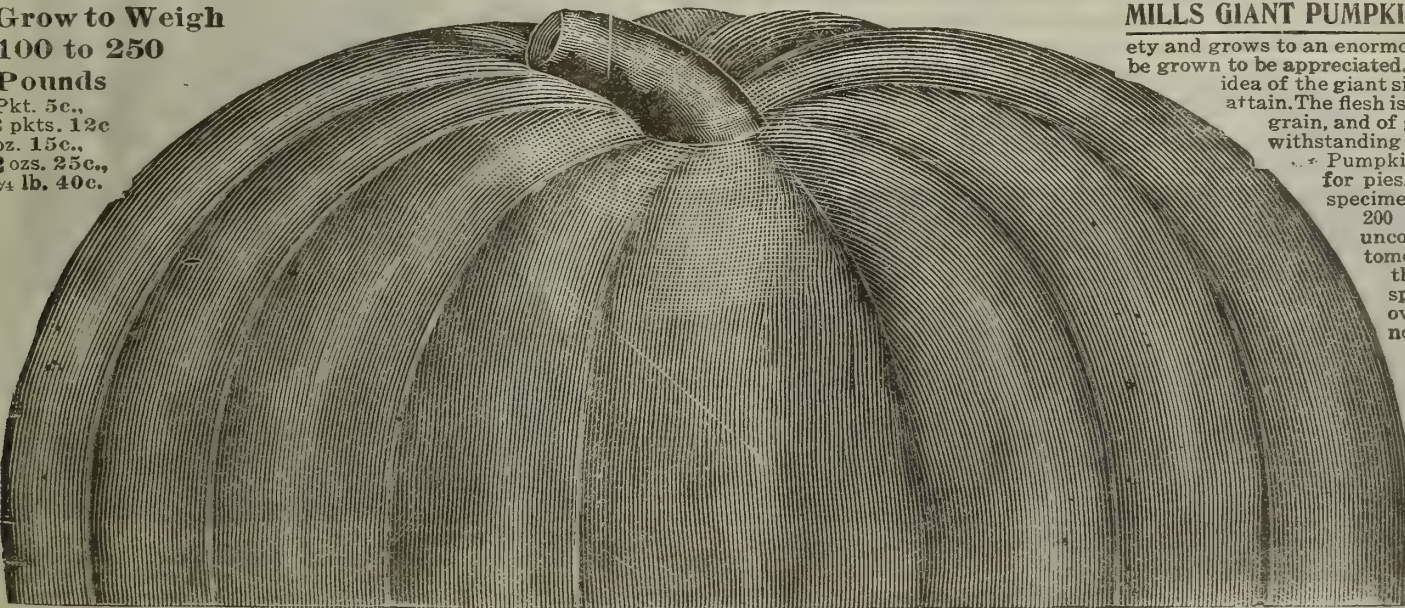

Winter Luxury Pumpkin

MILLS GIANT PUMPKIN—This is a prize winning variety and grows to an enormous size and should be grown to be appreciated. But few have an idea of the giant size these pumpkins attain. The flesh is bright yellow, fine grain, and of good quality. Notwithstanding the large size of the Pumpkin it is excellent for pies. We have raised specimens weighing over 200 lbs., it is nothing uncommon for our customers who have grown this variety to show specimens weighing over 100 lbs. There is nothing offered that will create a greater interest than this Giant Pumpkin. It is an excellent pumpkin to plant for show purposes, on account of its attaining such an enormous weight. Pkt. 5c. 3 pkts. 12c., oz. 15c., 2 ozs. 25c., ¼ lb. 40c.

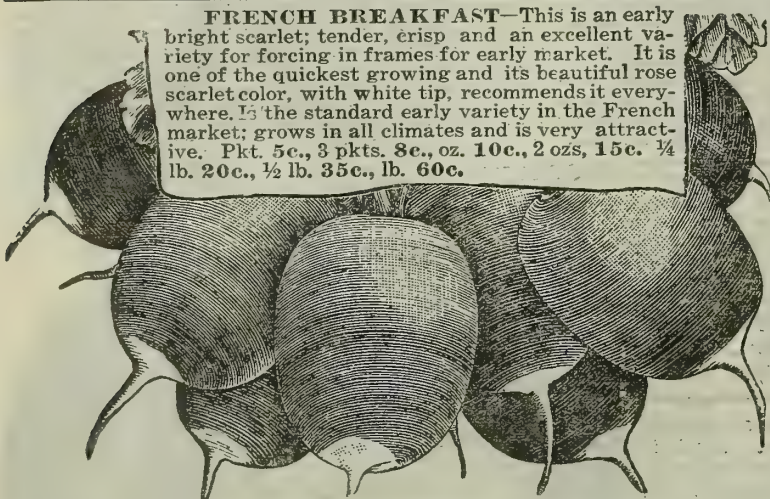

Try Our Big Squash this Year. See Inside of Front Cover for the Particulars

MILLS EARLIEST RADISH

MILLS EARLIEST—This is a handsome Radish and without doubt the earliest in cultivation. It certainly is a beautiful variety, round form, with dark scarlet skin, very fine flavor, tender and surpasses all other strains of scarlet turnip Radishes. We know of no variety that will pay the market gardener better than Mills Earliest. It has short narrow leaves, making a very short top, and is sure to become a favorite variety with all our customers who plant it.
Pkt. 5c., 3 pkts. 8c., oz. 10c. 2 ozs. 15c. ¼ lb. 25c., ½ lb. 40c., lb. 75c.

FRENCH BREAKFAST—This is an early bright scarlet; tender, crisp and an excellent variety for forcing in frames for early market. It is one of the quickest growing and its beautiful rose scarlet color, with white tip, recommends it everywhere. Is the standard early variety in the French market; grows in all climates and is very attractive. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c. ¼ lb. 20c., ½ lb. 35c., lb. 60c.

NEW WHITE LADY FINGER

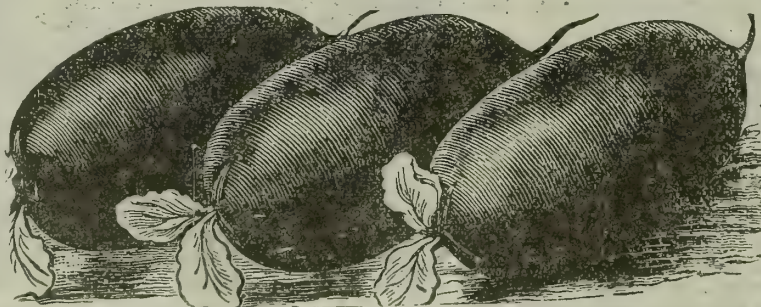

—This is one of the finest long white radishes in cultivation; of very rapid growth, remarkably tender, crisp and brittle. A great favorite. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c.

WHITE STRASBURG—This is a white radish, large size; excellent for summer planting; resists heat, good flavor, grows solid when other kinds fail. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c.

EARLY ROUND DARK RED—Deep dark red; very early; one of the best strains of early Scarlet Turnip Radishes. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

EARLY WHITE TURNIP—A grand summer variety; turnip rooted, has small top and is of quick growth; crisp and tender skin pure white. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 20c., ½ lb. 30c.

NEW LEAFLESS—This is quite a novelty and is certainly an excellent early radish. It was named Leafless from the fact that its shyness in developing the foliage is more noticeable than in any other variety. The color of this new radish is a very bright scarlet. The flesh is white, crisp and tender, of the best flavor. The illustration gives the shape of the radishes. On account of producing but few leaves, the strength of growth is all thrown into the roots, surpassing other varieties. Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

CRIMSON GIANT

This is double the size of other turnip radishes, often measuring 6 to 7 in. in circumference. Notwithstanding its large size, it has an excellent flavor, mild and crisp and has no hollow or pithy center, and it is equally suitable for forcing or planting in the open ground, as varieties developing only half its size. It is a rapid growing sort with handsome crimson roots and the flesh is pure white.

Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 25c., ½ lb. 40c., lb. 70c.

Scarlet or Rose Olive Shaped

SCARLET OR ROSE OLIVE-SHAPED—This is a very quick growing radish of an attractive carmine color, some roots of a rose shade with an olive shape, making a very attractive appearance. Is of very mild flavor and the flesh very crisp. It grows very uniform in size, and the illustration, drawn from nature, gives its true shape. It is very attractive when bunched for sale.

Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 60c.

EARLY SCARLET GLOBE—This is a splendid forcing Radish and is considered one of the earliest Scarlet Globe Radishes in cultivation, is a beautiful oval in shape, rich scarlet color, flesh is very tender, crisp and mild, and while it is a leading variety for forcing it is equally as good for outdoor culture.

Pkt. 5c., 3 pkts. 8c. oz 10c., 2ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

STRIPED TRIUMPH—In size and shape the roots are similar to the Scarlet Turnip White Tipped, but in color are a creamy white, beautifully marked with stripes and dashes of carmine. It is an early radish with very small tops and the point in its favor is its coloring, that makes it unusually attractive, both for market purposes and home use.

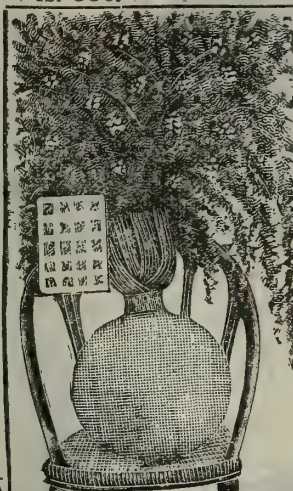

Pkt. 5c., 3 pkts. 10c., oz. 12c., 2ozs. 20c., ¼ lb. 30c.

Icicle Radish

ICICLE—This is a long, extra early variety with color of snow-white. It is crisp and brittle and of an excellent mild flavor, many claiming that it has a better flavor than the scarlet varieties. Has the same mild flavor at all stages of its growth and is the most popular of any of the white sorts. Is a short top variety, having few leaves, and roots very uniform in size.

Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c.

JAPANESE RADISH
SAKURAJIMA

EARLY SCARLET TURNIP, WHITE TIPPED—This Radish is sure to please all who grow it. It presents a beautiful appearance in the market and is very popular. It is valuable for forcing under glass. The skin is very smooth, flavor excellent, tender, crisp and mild. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ lb. 20c., ½ lb. 30c., lb. 50c.

GIANT RADISH FROM JAPAN—Sakurajima—This is a wonderful radish, our seed being imported direct from Japan. It is not unusual for it to grow 43 inches in circumference and 21 inches in length. The flesh is pure white, while the flavor is as mild as an apple. It will thrive in all soils and locations, and it is good to eat at all stages of growth. You should include this radish seed in your order for it will prove a great curiosity. Single specimens weigh from 15 to 30 pounds each and some grow larger than that. Sow seed in July. Pkt. 5c., 3 pkts. 12c., oz. 20c.

LONG SCARLET SHORT TOP—This is without doubt the best long red Radish. It is very early and the leading out-door quick-growing variety; brittle and tender and the roots are a bright red.

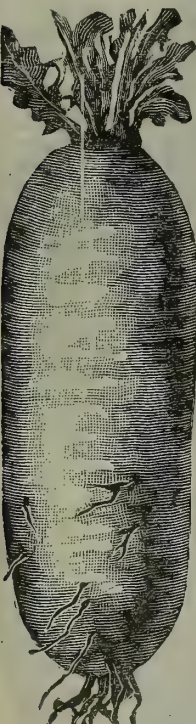

Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 65c.

CALIFORNIA

MAMMOTH

WHITE WINTER

Grows to a larger size than any other White Winter Radish. We have grown specimens measuring 7 in. in diameter and about 18 inches in length, weighing 8 lbs. The only American radish growing to this immense size and still retaining a mild, pleasant flavor. It is solid all through. We have known of our customers taking such specimens from the ground late in the fall and storing as you would turnips, having a supply of radishes until late in the winter. An excellent table variety, giving entire satisfaction on account of having a mild and pleasant flavor at all stages of growth. Whether 2 or 8 in. in diameter, its flavor and fineness of grain

are the same. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 35c., lb. 65c.

All Seasons Radish Mixture

ALL SEASONS RADISH MIX- TURE

This contains all shapes, sizes and colors, and a supply of this seed will be just the thing for small gardens when space is limited, and you want to make a garden and be done with it with one sowing of seed. By sowing seed of this mixture you will have Radishes very early and continue throughout the season, having all the leading early, medium and late sorts.

This mixture is sure to please all who give it a trial.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 9c., 2 ozs. 16c., ¼ lb. 30c.

ROSE CHINA WINTER. (Scarlet China) A bright rose-colored winter variety of excellent quality. A good variety to grow. Pkt. 5c., 3 pkts. 8c., oz. 9c., 2 ozs. 16c., ¼ lb. 20c., ½ lb. 35c., lb. 65c.

Odd Collection of Gourds

MIXED GOURDS

This is a wonderful collection of rare and curious gourds. It contains all the different colors, shapes and sizes, and a packet of seed will produce a great collection of curiosities.

We have added everything possible to make this the oddest collection of Gourds ever offered. Try some of the seed in your garden this year.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 30c., 2 ozs. 50c.

NEW GARDEN LEMONS

A great vegetable novelty and certainly deserves a place in the garden. The unripe fruit is striped with very dark green, and when ripe is nearly yellow. The fruit is the shape shown in the illustration, but a little larger than the vegetable orange. It has fine flesh, good flavor, and is unexcelled for general canning purposes. It should be cultivated the same as the musk melon. enormous yielder. Grow this unique novelty.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c. oz. 18c., 2 ozs. 30c., ¼ lb. 55c.

If you receive more than one of these Catalogues, please hand the extras to your neighbors.

30 SQUASHES= THE GIANT=See inside Front Cover, Grow to an Enormous Size, often Weighing over 200 Pounds Each.

Great Squash for
Family Use

IMPROVED
HUBBARD
SQUASH

IMPROVED HUBBARD

This is the well known variety and planted by more people than any other sort and has become the American favorite. There is always a ready market in the large cities for this favorite sort. It out-sells all other varieties. We have taken particular care in selecting our strain and we believe our Improved Hubbard is the choicest type of Hubbard Squash grown. The flesh is rich yellow, is very fine grained, solid, sweet and dry. This improved strain is nearly always true in color, being a dark green. We offer two other strains known as Red Hubbard and Mammoth Warted Hubbard, both of which are of excellent quality. We can highly recommend our Improved Hubbard seed to all, and have a choice supply to offer at the following prices:

Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 55c., lb. \$1.00.

MAMMOTH WARTED HUBBARD—This is a special strain of the Hubbard Squash, noted for its enormous size. It sells well in any market no matter what competition. It is equal in every respect to the Improved Hubbard, and we can highly recommend it to all those who are fond of extra large Squashes.
Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c., ½ lb. 60c., lb. \$1.00.

GOLDEN HUBBARD—This is another strain of the well known Improved Hubbard which produces Squash of a deep orange yellow color, exceedingly showy and attractive, while the quality is equal to the Improved Hubbard in every respect.
Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 35c., ½ lb. 60c., lb. \$1.00.

It is claimed on good proof that this Squash has no equal in good qualities. Every one

who has grown it can testify to its fineness of grain, dryness, and rich flavor. It has a small seed capacity, solid flesh and is a good keeper. It grows to weigh from 5 to 10 pounds

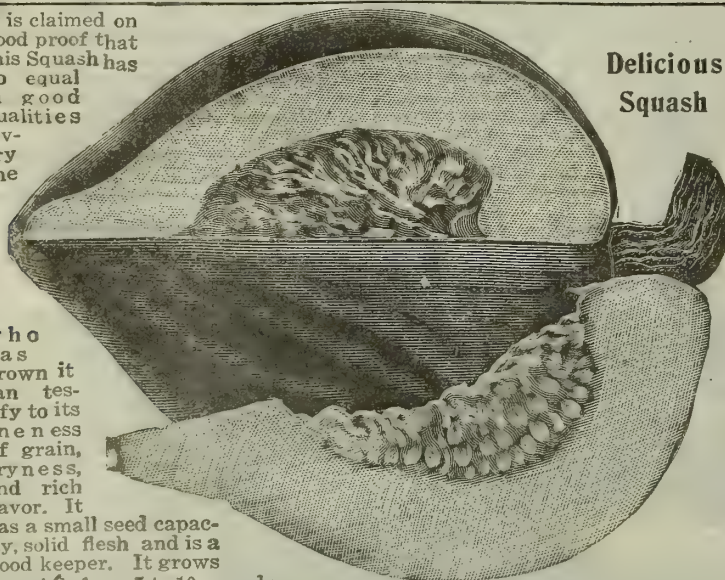

and has been known to keep in good condition through the winter and up to April 10th. We are sure this squash will be highly appreciated by everyone who grows it, and we recommend it for your garden. Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 16c., ¼ lb. 30c., ½ lb. 50c., lb. 80c.

GOLDEN SUMMER CROOKNECK—This Summer Squash is so well known that it does not require much description. It is still the most desirable early summer crookneck variety. The outer skin is very rough and of a light orange yellow color. Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

COCOZELLE BUSH—This is an early Squash, very prolific. It is much easier to cultivate than a vine. If picked as soon as matured, it will continue to bear until killed by frost. It is exceedingly hardy, persistently living in dry soil without water. When watered it grows and matures a big crop. It grows just the same as the ordinary Summer Squash, requires the same kind of soil and tillage, and begins to bear early. It is used in the green state, and is better than Egg Plant.
Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c.

ITALIAN—This squash is similar to the Cocozelle except it only grows to half the size and never exceeds 8 inches in length. When stewed it is as delicious as the Marrow Squash and when fried as Egg Plant it is equal to it, if not better. On account of its size and attractive appearance it sells well in the market. Pkt. 5c., 3 pkts. 10c., oz. 9c., 2 ozs. 16c.

Delicious
Squash

MAMMOTH WHALE SQUASH—A new Squash from France, often growing over three feet in length, a dark slate color—specimens have been grown to weigh over 100 pounds; flesh is solid, a beautiful orange color, of excellent quality and a remarkable keeper; very shy seeder.
Pkt. 5c., 3 pkts. 12c., oz. 15c., 2 ozs. 25c.

BOSTON MARROW—A good fall variety, both skin and flesh a bright yellow.
Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

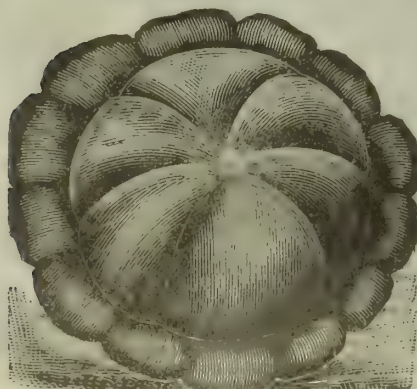

IMPROVED MARBLEHEAD—This is an excellent keeper, very best quality, fine grained, good flavor.
Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

ESSEX HYBRID—A rich flavored, fine grained sort, very productive and a good keeper.
Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

MAMMOTH EARLY WHITE BUSH SCALLOPED—It is pure white, largely grown for first early, table quality is excellent, very productive.
Pkt. 5c., 3 pkts. 8c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

GOLDEN CUSTARD SQUASH

This is a standard early summer variety and is much larger than any of the other scalloped sorts, frequently growing two feet in diameter. The habit of growth is upright, regular bush form; fruit matures early, is very flat, nicely scalloped, color a dark rich golden yellow, flesh pale yellow and fine flavor. Pkt. 5c., 3 pkts. 10c., oz. 8c., 2 ozs. 15c., ¼ lb. 25c., ½ lb. 40c., lb. 60c.

OUR SQUASH MIXTURE

Many desire to raise all the different varieties. We have therefore included in this mixture all the early and late sorts, which will produce squashes of all the different shapes, colors and sizes imaginable, and is a profitable collection to grow by all those who have a limited space.

Pkt. 5c., 3 pkts. 10c., 6 pkts. 15c., oz. 8c., 2 ozs. 12c., ¼ lb. 20c., ½ lb. 30c., lb. 50c.

THE FAXON—This is a long keeping variety and an excellent winter squash. Fruits are oval in shape, being larger on the stem end. The outside color varies from dark green to orange; is very prolific in habit and the quality is dry and rich. The flesh is thick, rich and sweet, and very fine grain, and a good keeper.

We can highly recommend the Faxon as a good one. Try it.

Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 16c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

THE FAXON

Tomatoes

MILLS MAMMOTH PRIZE--See Color Plate, Page 4,-This is the Giant Tomato.
MILLS EARLY WONDER--See Color Plate, Page 4,-The Great Early Tomato.
DWARF GIANT--See Page 2,-New Variety of Great Merit.

Mills Early July Tomato

This is a splendid variety, we have made quite a specialty of for several years. Its great value lies not only in the time of ripening its first fruits, but that such a quantity of fruit can be gathered from a single plant while many other early varieties ripen only a few fruits. They are perfectly smooth, large size and very handsome, the color is a bright red. They grow in large clusters, which ripen from July until killed by frost, and command the highest market price.
Pkt. 5c. 3 pkts. 10c. 1/2 oz. 15c. oz. 25c. 1 lb. 80c.

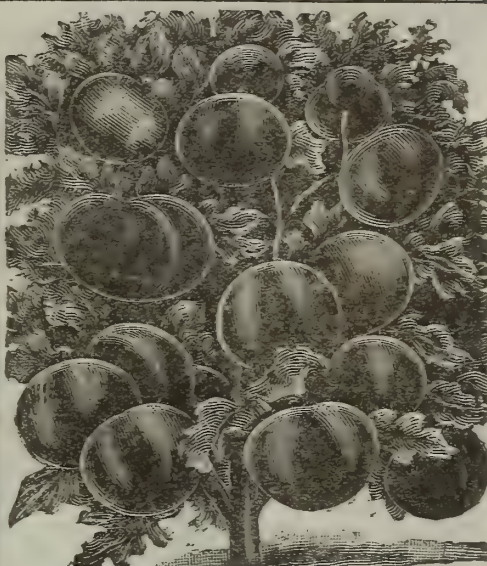

IMPROVED EXTRA EARLY TREE

This is an early variety, grows erect, has a dark green foliage and the plant is quite ornamental. Has been largely advertised as an Early Tree Tomato, and is preferred by many.
Pkt. 5c., 3 pkts. 12c. 1/2 oz. 20c., oz. 35c.

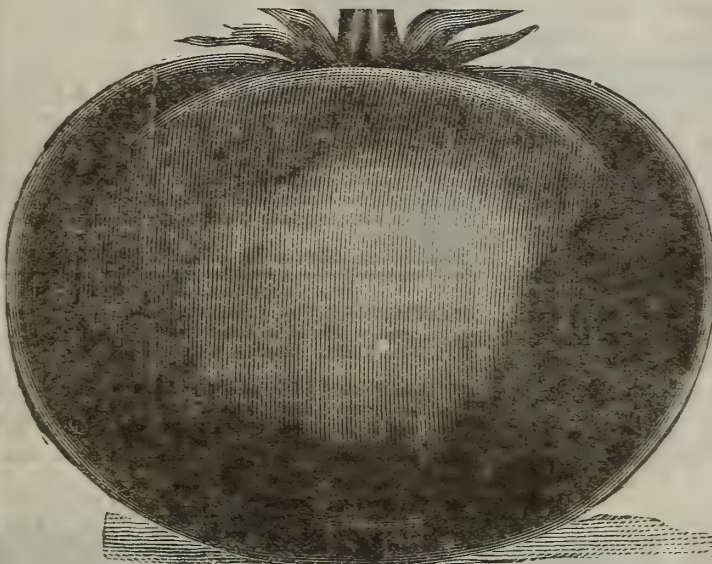

Chalk's Early Jewel

This variety matures only about a week after Earliana. The fruits are larger and heavier. It is claimed it is the most valuable extremely early and all purpose bright red tomato grown. It produces its fruit very abundantly and continually throughout the season.
Pkt. 5c., 3 pkts. 10c. 1/2 oz. 15c., oz. 25c., 2 ozs. 40c., 1/4 lb. 70c., 1/2 lb. \$1.30.

Peach--One of the prettiest tomatoes in cultivation. Fruit is of uniform size and resembles a peach in shape, size and color, which is a deep rose, beautifully blended, and covered with a delicate bloom or furze, like a peach. It is excellent for eating from the hand, the flesh being of a rich flavor, while the skin is very thin and can be peeled off like that of a peach.
Pkt. 5c., 3 pkts. 12c., 1/2 oz. 20c., oz. 35c.

Improved Extra Early Tree

Matchless Tomato

Matchless

Skin very tough and will keep for a long time. A strong grower, productive, large, no better large red tomato grown of its class. Excellent for market gardeners. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 12c., oz. 20c., 2 ozs. 35c., 1/4 lb. 60c., 1/2 lb. \$1.15, lb. \$2.00.

EARLIANA--Is a perfectly smooth tomato, is claimed to be one of the earliest varieties grown especially adapted for market gardeners. It is claimed that fruit has been marketed fully three weeks ahead of other varieties. It has given splendid satisfaction everywhere on account of its handsome appearance, large and uniform size, and of a beautiful red color. It is wonderfully productive and the quality is of the best, being very solid with only a few seeds. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 12c., oz. 20c., 2 ozs. 35c., 1/4 lb. 65c., 1/2 lb. \$1.25, lb. \$2.

June Pink--This is a deep pink or purplish colored tomato somewhat resembling Earliana in growth and fruiting. The young plants develop a large cluster of blossoms when 8 or 10 inches high, or very soon after it is planted in the garden. The fruits are borne in clusters of three, four or five measuring from three to five inches in diameter and the skin and flesh are both of a deep pink, of purple tint, while the flesh is sweet and of a mild flavor.
Pkt. 5c., 3 pkts. 10c., 1/2 oz. 12c., oz. 20c., 2 ozs. 35c., 1/4 lb. 65c., 1/2 lb. \$1.25, lb. \$2.10.

GOLDEN QUEEN--This is a first-class large smooth pure yellow tomato, the best of the yellow class. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 15c., oz. 25c., 2 ozs. 40c., 1/4 lb. 60c., 1/2 lb. \$1.00.

THE TOMATO GRAPE

Fruits in Four Months from Seed

Our Tomato Grape is a real curiosity as well as very valuable. It should be planted and treated the same as tomatoes, but its habit of growth is similar to a grape vine. It will trail on an arbor, veranda, trellis or fence, making a very attractive vine. Start the plants early and the growth will astonish you. Soon after the plants are well started they begin to climb and throw out blossom stems which soon form clusters of grapes that grow rapidly, and in a short time the entire plant is covered with large clusters of fruit of a handsome red color and having the flavor of a tomato. The fruit is excellent for preserving and using in various ways. One vine will yield enormous quantities of fruit, is a very easy plant to grow.

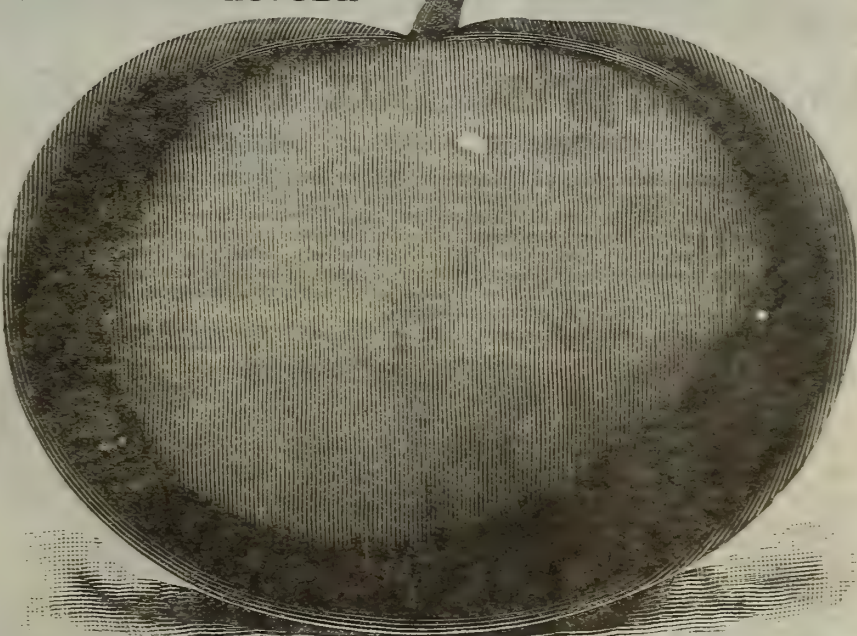

Pkt. 5c., 3 pkts. 12c.

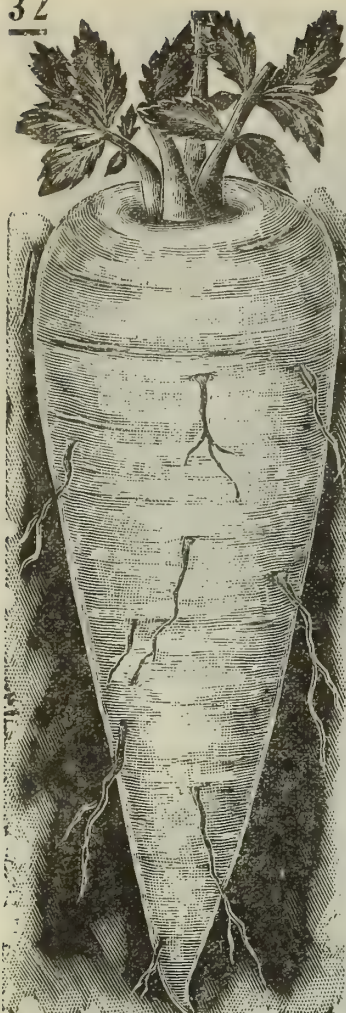

Tomato Grapes

SUPERB MIXTURE--A very interesting collection of all early, medium and late varieties of Tomatoes will be produced.
Pkt. 5c., 3 pkts. 10c., 1/2 oz. 12c., oz. 20c., 1/4 lb. 35c. 1/2 lb. 60c.

Ponderosa Tomato

PONDEROSA--Claimed by some to be the grandest tomato ever grown. It certainly is a large, handsome variety. It often attains a circumference of 18 inches and frequently weighs two pounds each, perfect in form, very solid and meaty and almost seedless; ripens thoroughly and is a handsome crimson in color and free from rot.
Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., 1/2 oz. 25c., oz. 40c.

PARSNIP

NEW SUGAR
(See Illustration)

This is one of the very best parsnips in cultivation, matures early, yielding a large crop, and brings the highest price. The roots grow to a fine size, enabling them to be easily dug; are very smooth, flesh is fine grained and of excellent quality. It is a great cropper and will yield more than 700 bushels to the acre. Our Sugar Parsnip will give the best of satisfaction wherever grown.

Pkt. 5c. 3 pkts. 8c.
6 pkts. 15c., oz. 10c.
2 ozs. 16c. ¼ lb. 20c.
½ lb. 35c., lb. 50c.

LONG SMOOTH OR HOLLOW CROWN

This is an old, reliable variety. Produces a long, smooth root, and is excellent for the table, being tender and well flavored. It requires a deep, clean, moderately rich soil. A heavy cropper and will do well in almost any locality.

Pkt. 5c. 3 pkts. 8c.
oz. 10c., 2 ozs. 15c., ¼ lb. 20c., ½ lb. 35c., lb. 50c.

SPINACH

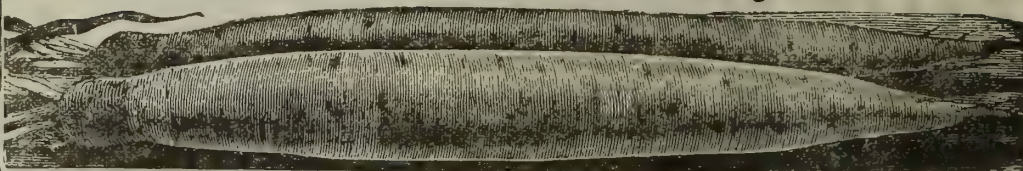

NEW LONG STANDING—This is a very popular new variety, best for spring sowing; leaves are large, thick and crumpled.

Pkt. 5c. 3 pkts. 7c., oz. 6c., ¼ lb. 12c., ½ lb. 20c., lb. 30c.

ROUND THICK LEAVED—Grows large, thick, dark green leaves somewhat crumpled.

Pkt. 5c. 3 pkts. 7c., oz. 6c., ¼ lb. 12c., ½ lb. 20c., lb. 30c.

Salsify or Vegetable Oyster

MAMMOTH SANDWICH ISLAND—Best variety grown; of large size; fully double that of other sorts. Leading variety among gardeners. Delicious flavor.
Pkt. 5c., 3 pkts. 12c., oz. 10c., 2 ozs. 18c., ¼ lb. 35c., ½ lb. 60c., lb. \$1.00.

COLLARDS

GEORGIA—Known as Cole or Colewort; originated in the South. Grown South for greens.
Pkt. 5c., oz. 10c., ¼ lb. 30c., ½ lb. 50c.

MUSTARD

BLACK—Per pkt. 5c., oz. 10c., lb. 40c.
WHITE—Very best, mild and is exceedingly tender. Pkt. 5c., oz. 10c., ¼ lb. 20c., lb. 40c.

Kohl-Rabi or Turnip Rooted Cabbage

EARLY PURPLE VIENNA

It is largely grown for table use in Germany. Pkt. 5c., oz. 20c., ¼ lb. 60c., ½ lb. \$1.00, lb. \$1.80.

EARLY WHITE VIENNA

Best for table use. Pkt. 5c., oz. 15c., ¼ lb. 45c., ½ lb. 80c., lb. \$1.50.

BORECOLE OR KALE

DWARF GERMAN—Largely grown for supplying greens during the fall, winter and spring, also used small like spinach. The leaves are bright green in color, somewhat curly and very tender. Seed should be sown about May or early in June and when plants are large enough transplant same as cabbage.

Pkt. 5c., oz. 10c., ¼ lb. 25c., ½ lb. 45c., lb. 75c.

PARSLEY

HENDERSON'S EMERALD—Beautifully curled and crinkled, a beautiful emerald green. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c.

CHAMPION MOSS CURLED—Produces crinkled and curled leaves, a choice selected strain. Pkt. 5c., 3 pkts. 9c., oz. 10c., 2 ozs. 15c., ¼ lb. 25c.

ENDIVE

GREEN CURLED—This is a very hardy va-

Pot, Sweet and Medicinal Herb Seed

No garden is complete without a few sweet, aromatic herbs for medicinal purposes. Sow in spring in shallow drills one foot apart and when well up thin out or transplant to a proper distance apart. Those marked (*) are perennial and when once obtained in the garden, may be preserved for years.

***HOREHOUND**—Has Medicinal Qualities.
***SUMMER SAVORY**—For Seasoning.
***SWEET FENNEL**—Seeds Aromatic.
***SWEET BASIL**—Culinary Herb.
***SWEET MARJORAM**—For Seasoning.
***WORMWOOD**—Has Medicinal Qualities.
***BALM**—Has Medicinal Qualities.
***CORIANDER**—Seeds Aromatic.
***ANISE**—Seeds Aromatic.
***CARAWAY**—Seeds Aromatic.
***DILL**—Seeds Aromatic.
***LAVERNA**—Very Fragrant.
***SAGE**—Culinary Herb.
***ROSEMARY**—Very Fragrant.
***THYME**—For Seasoning.

Price, 5c. per pkt. for any of the above, 3 pkts. 12c., 6 pkts. 20c.

DANDELION

IMPROVED LARGE LEAVED—Very early. If sown in May will be fit to cut in July. A very valuable variety.

Pkt. 10c., ½ oz. 25c., oz. 40c.

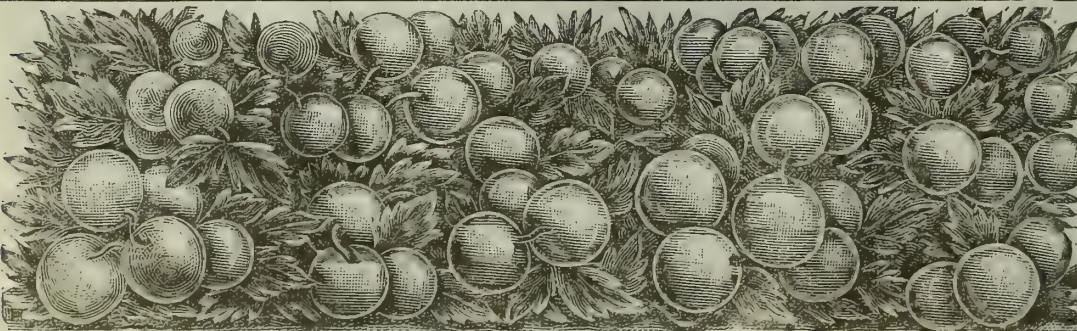

CRESS

FINE CURLED—(Pepper Grass) Pkt. 5c. 3 pkts. 12c. oz. 10c., 2 ozs. 18c., ¼ lb. 35c.

riety; has dark green leaves, always blanch white and crisp. Pkt. 5c., oz. 15c., ¼ lb. 35c., ½ lb. 55c.
BROAD LEAVED BATAVIAN—Produces large heads of broad thick leaves, used for flavoring soups, and if blanched the leaves make a good salad. Pkt. 5c., oz. 15c., ¼ lb. 30c., ½ lb. 55c.

WHITE VELVET OKRA (or Gumbo)

Never prickly and always round and smooth, while other varieties are either ridged or square edged. Out-yields other varieties. Pkt. 5c., 3 pkts. 9c., oz. 10c., ¼ lb. 25c., ½ lb. 40c., lb. 75c.

The Vegetable Orange

This is a splendid novelty of recent introduction, handsome in color and appearance and an enormous yielder. As shown, vines of this Vegetable Orange are smaller than a Musk Melon Vine, but they require about the same cultivation. It is a wonderful yielder, producing fruit about the size of an Orange of a bright yellow color, somewhat russeted. In the west where fruit is scarce, this Orange is rapidly becoming popular. For sweet pickles, pies or preserves they are splendid and can be used in many ways. Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 25c., 2 ozs. 40c.

Our Surprise Box of Seeds==98 Cents

OVER 100 FULL SIZED PACKETS.

In making up our collections and Bargain Offers for this year we have arranged to put up a "Surprise Box" which will surely be a surprise to anyone ordering one of them. We make up the box as we think best, including over 100 packets of Selected Vegetable and Flower Seeds, and we take great pride in sending out this excellent lot of seeds, and we know if they are shown to neighbors they will be a great advertisement for us. Think of it! Over 100 Regular Full Size Packets, retail price being over \$5.00 for only 98 cents. It is only with our increased facilities and our large crops of seed that we are able to do this. If you want a big lot of seeds for a little money, send 98 cents and let us send you this great box which has to go by express. If 30c. extra is included we will send by mail postpaid.

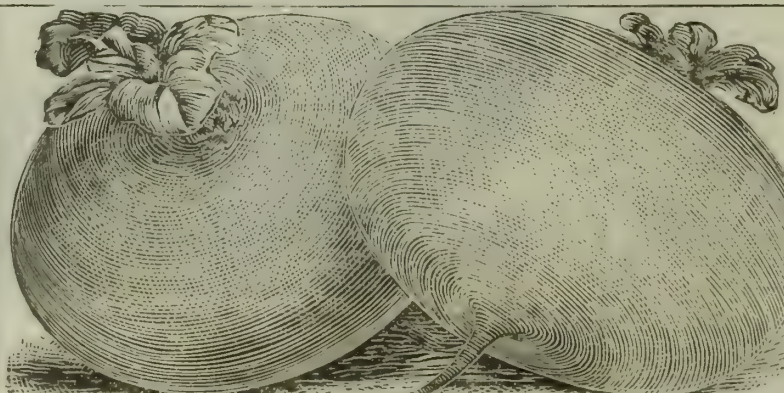

At this price anyone can make money selling these seeds for we will send a choice selection of varieties.

Special Offer TURNIPS

For only 15 cents we will mail the following:

- 1 pkt. Early White Flat Dutch.
- 1 pkt. Snow White.
- 1 " Golden Ball.
- 1 " Heavy Cropping Rutabaga.
- 1 pkt. Imperial Hardy Swede.
- 1 pkt. Large White Sweet Rutabaga.
- 6 packets only 15c.

When you order simply ask for Special Offer Turnips 15c.

NEW JAPANESE TURNIP

A Large, Tender and Sweet Turnip

This is a new turnip from Japan. It grows large, color white, and we believe it will be of great merit in this country. The seed we offer comes direct from Japan and was imported expressly for our trade. This turnip grows to a good size, is solid and meaty, a heavy cropper and a good winter keeper.

This illustration gives a good idea of the shape of the turnip. Color is a pure white, both outside and inside, except on the top, under the leaves, where it is tinted a little darker color.

We can recommend this variety to farmers, for it is well adapted for table use as well as stock feeding. Pkt. 6c., 3 pkts. 15c., 6 pkts. 25c.

PURPLE TOP STRAP LEAF

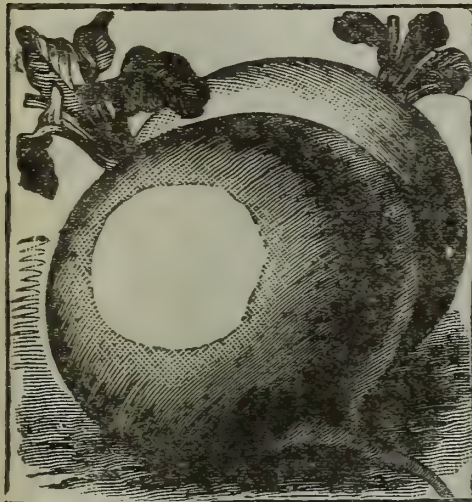

PURPLE TOP STRAP LEAF—This bulb is very flat, of medium size and quite smooth, with a bright purple top; very fine grained.

Pkt. 5c, 3 pkts. 9c, oz. 10c, ¼ lb. 20c, ½ lb. 35c., lb. 60c.

GOLDEN BALL—Very early, fine quality and keeps well. Excellent for table use or stock feeding.

Pkt. 5c, oz. 10c., ¼ lb. 20c., ½ lb. 30c., lb. 55c.

EARLY SNOWBALL OR SIX WEEKS

This is one of the best Extra Early Turnips in cultivation. The bulb is of medium size, smooth, white, and of excellent flavor.

Pkt. 5c, 3 pkts. 12c, oz. 10c, ¼ lb. 20c, ½ lb. 30c, lb. 50c.

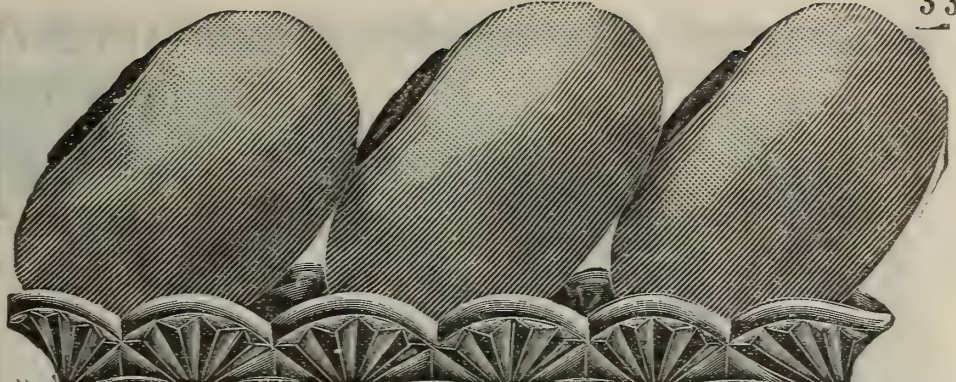

BREAD-STONE—Medium size, flesh white and fine grained. Pkt. 5c, oz. 10c, ¼ lb. 20c., ½ lb. 35c., lb. 60c.

WHITE

A variety that produces egg shaped roots with thin white skin, always solid, sweet, and a good keeper. Excellent for early or late sowing. Very desirable for table use. Pkt. 5c, oz. 10c., 2 ozs. 15c., ¼ lb. 20c., ½ lb. 30c., lb. 50c.

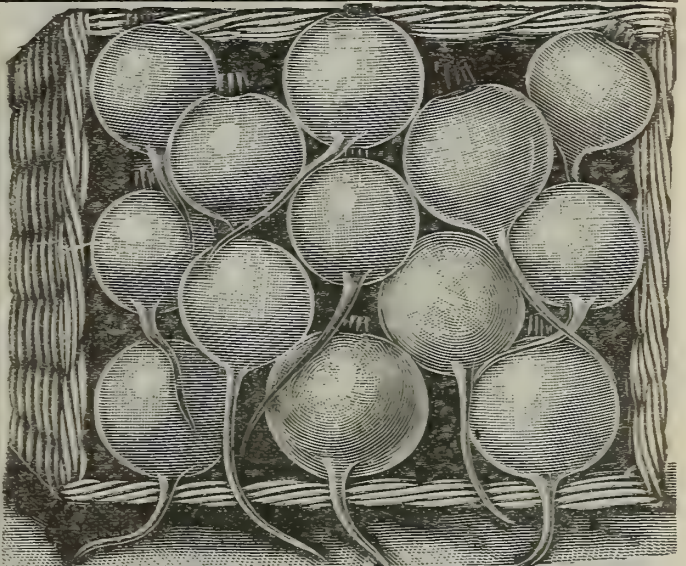

EGG

EXTRA EARLY MIDIAN—A good turnip and one of the earliest grown. Medium size, purple top. Flesh pure white, best quality, good keeper. Pkt. 5c, oz. 10c., ¼ lb. 25c., ½ lb. 45c., lb. 80c.

EARLY WHITE FLAT DUTCH—This is another early variety, which grows to a medium size very quickly. It has a clear white skin and is always choice for table use and is one of the best varieties for spring sowing. Our Early White Flat Dutch seed this season is the finest we have ever produced, being of strong vitality. Give it a trial.

Pkt. 5c, 3 pkts. 8c, oz. 10c, 2 ozs. 16c, ¼ lb. 22c ½ lb. 35c, lb. 60c.

SNOW WHITE TURNIP—This is one of the finest early Turnips ever introduced. It has thin white skin, always solid, sweet and a good keeper. The flesh is snow-white and on account of its being early, is the best variety to sow in the garden for early use. It can be sown late with good results. Do not fail to give it a trial this season. Pkt. 5c, 3 pkts. 10c, oz. 15c, 2 oz. 25c, ¼ lb. 40c.

SUPERB MIXTURE OF TURNIPS—This mixture contains all the leading varieties, both early and late, and by sowing this seed a continuous supply may be had throughout the season. You cannot do better than to plant some of this seed. Pkt. 5c, 3 pkts. 9c, oz. 10c, ¼ lb. 18c, ½ lb. 25c, lb. 45c.

Rutabagas and Swede Turnips

GIANT WHITE SWEET RUTABAGA

This is a very choice Rutabaga, growing to a good size; always solid, rich flavor, while the flesh is pure white. Just the

Rutabaga to grow in the garden to get a big yield from a small plot of ground. Pkt. 5c, 3 pkts. 10c, 6 pkts. 14c., oz. 9c, 2 ozs 15c, ¼ lb. 25c.

HEAVY CROPPING Rutabaga

This is a magnificent Rutabaga and we consider it the most profitable of Swede Turnips, as well as the hardest, heaviest best shape and most productive. The flesh is yellow, of the choicest

quality and bulbs always re-

main sound and good when flatter varieties will rot. It is a variety that

should be sown in preference to all others and you will make a great mistake if you do not plant it this year. Pkt. 5c, 3 pkts. 9c, oz. 10c, ¼ lb. 25c, ½ lb. 40c., lb. 70c.

SKIRVING'S PURPLE TOP—Enormously productive. Pkt. 5c, 3 pkts. 9c, oz. 10c, ¼ lb. 15c., ½ lb. 25c, lb. 45c.

IMPROVED AMERICAN PURPLE TOP—One of the best varieties, keeps hard and brittle all summer. Pkt. 5c, oz. 10c., ¼ lb. 20c., ½ lb. 30c., lb. 50c.

IMPERIAL HARDY SWEDE—Grows to a large size; produces a bulb always of good size. One of the best for winter use. Pkt. 5c, 3 pkts. 9c, oz. 10c, ¼ lb. 15c, ½ lb. 25c, lb. 45c.

LARGE WHITE SWEET—Flesh white and solid, rich, sweet flavor, a well known Rutabaga. Pkt. 5c, 3 pkts. 8c, oz. 10c, ¼ lb. 20c, ½ lb. 30c, lb. 45c.

MORTGAGE LIFTER YELLOW DENT

We introduced this Mortgage Lifter Yellow Dent Corn several years ago and we still have a greater demand for it than any other variety of yellow corn. The ears are from 9 to 10 inches in length, unusually well filled at butt and tip, with less taper from butt to tip of ear, as you will note from the illustration made from photograph, than any other variety we have known of. A bushel of ears of 70 lbs. has shelled out for us and others 60 and 62 pounds of corn and in other respects has given our customers universal satisfaction.

A large corn grower in Loraine Co., O., says: "While visiting the World's Fair I procured a few grains from an ear which was a sport found in a field in Iowa, and pronounced it the most beautiful ear of corn at the fair. That is how this splendid variety found its way into the East, and from these few grains we have bred out this Yellow Field Corn, which we do not think can be surpassed. The grains are the largest of any large ear variety in cultivation. The stalks grow very quick, rank and green, and will stand storms to a remarkable degree. Those who have grown the Mastodon, Chester County Mammoth, Klondike, Leaming, Iowa Gold Mine, Champion White Pearl, Mills Golden Superior, Golden Beauty, White Cap Yellow Dent and Early Butler say that this corn will outyield any of them. We have records of fields producing 107 and 118 bushels of corn per acre. The largest grower of seed corn in America says it will mature in from 85 to 95 days, and has 14 to 24 rows on a cob and is the longest and largest of any early corn in cultivation. Describing it he says: 'Mortgage Lifter is the most beautiful Yellow Dent Corn ever seen. It will mature in 85 to 95 days, and it has the largest grains of any early yellow corn in cultivation. It grows from 7 to 11 feet high, strong, rank and quick, and stands storms remarkably. The ears are of a very large size and will outyield any other corn grown. It husks and shells easily, and brings the highest market price, as it will sell for seed on sight. It will cure out in the shock where large cob varieties will mold and spoil.'

The above is what the originator said of this variety, and while thousands of bushels of this sort have been sold for seed, we are glad to say that our customers are much pleased with it and we believe it a hard variety to surpass. We have a very fine stock of extra choice seed which we can supply our customers with this year.

We offer a very choice selected grade of this grand Corn at the following prices:
Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 40c., pk. 70c., ½ bu. \$1.00, bu. \$1.75.

Iowa Silver Mine White Dent

This is the corn with the record of having produced 215 bushels on one acre in Scott County, Iowa, and is without doubt the most popular of any White Dent corn. It is comparatively early, with very deep grain of a pure white. It seems to adapt itself to hard conditions, and you can surely rely upon a crop under conditions that would be very unfavorable to many other varieties. The cob is small, pure white, with about 16 rows. The stalks on good ground grow about 8 feet high and will mature in about 100 days.

Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid 4 qts. 40c., pk. 75c., ½ bu. \$1.25, bu. \$2.00.

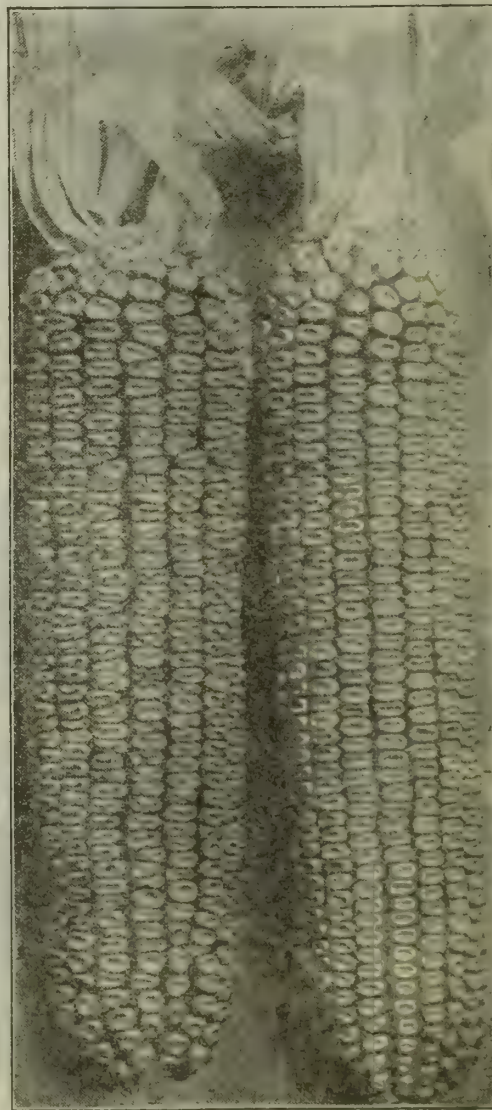

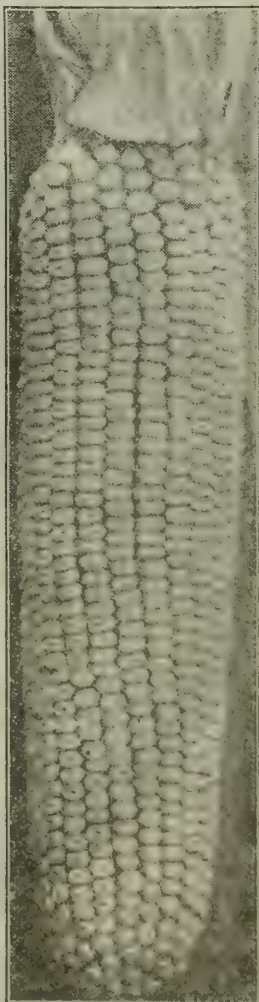

Photo. of Pride of the North Corn

PRIDE OF THE NORTH YELLOW DENT

Without doubt the earliest Dent Corn in the United States. It will ripen in the northern states where our customers have only been able to grow flint varieties, and on account of its earliness in maturing has taken the place of flint corn in many places for feeding. It yields a good amount of fodder and can be planted closer than the large eared kinds. It is a bright orange color, has a good sized stalk, many producing 2 ears from 7 to 9 inches long, small cob, long, deep grain. For good sized ears and wonderful productiveness, it is at the head of the very earliest dent corn.

Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 40c., pk. 75c., ½ bu. \$1.25, bu. \$2.00.

Silver Mine White Dent

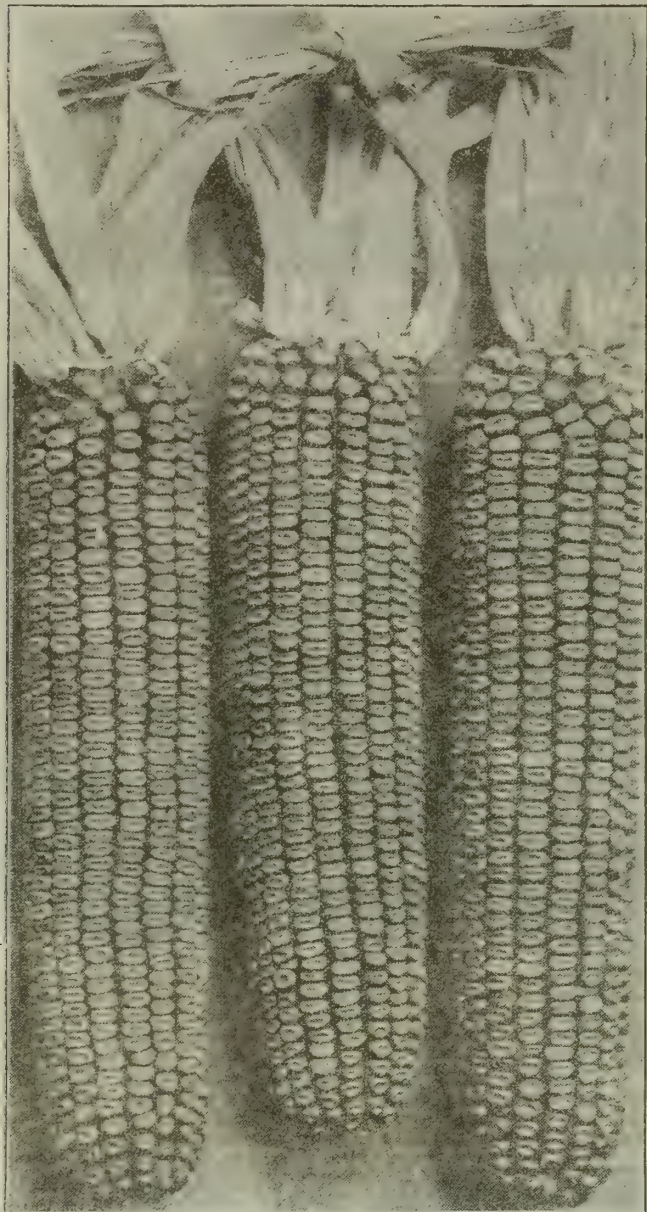

Photo. of 3 Ears Great Mortgage Lifter Corn

REID'S YELLOW DENT

This is a very popular variety throughout many places in the corn belt and has won more prizes at corn shows than all other corn put together, it being especially a great show and exhibit corn. It has won more favor among State Agricultural Corn experts than any other variety, and they are always quick to recommend it.

It is a light golden color, the ears running from nine to eleven inches long, seven to eight inches in circumference and eighteen to twenty rows on the cob. The ears are of symmetrical shape the entire length and will shell out at least 85 per cent grain. The ears are very well filled from butt to tip. It is a very vigorous grower, stalks from eight to twelve feet high, producing an abundance of foliage, which makes it heavy in tonnage to the acre. We have taken particular pains in selecting our seed stock, and believe we have the very best strain to be found.

It is safe from frost in from 90 to 100 days. Prices: Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 40c., pk. 75c., ½ bu. \$1.25, bu. \$2.00.

IOWA GOLD MINE YELLOW DENT

We believe it is known to every farmer in the United States. We have sent Iowa Gold Mine as far as Africa and Australia. We know it is a first-class variety and we have taken particular care in selecting our seed stock. It is early, ripening a few days later than Pride of the North. Ears are good size, symmetrical, and color is bright golden yellow. Grain is very deep, cob small, therefore dries out quickly. 70 lbs. of ear corn made 62 to 63 lbs. of shelled corn and in hauling to market it usually weighs out a few more bushels to the wagon load than common varieties in the same sized wagon. It matures, perfectly even as far north as Southern Michigan. Pkt. 5c., 3 pkts. 12c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 4 qts. 40c., pk. 75c., ½ bu. \$1.25, bu. \$2.00.

This is a splendid Eight-Rowed Yellow Flint Corn; very early, ears cylindrical, 12 to 14 inches long, color a rich, glossy yellow. Particularly adapted to the North and therefore assures a crop wherever planted. The average height of the stalk is 7½ feet, producing two or three perfect ears to the stalk.

Our seed is extra selected and we offer it as follows:

Pkt. 5c., 3 pkts. 12c., lb. 25c., 3 lbs. 60c., postpaid. By express or freight, not prepaid, 4 qts. 40c., pk. 75c., ½ bu. \$1.25, bu. \$2.00.

EAR SEED CORN. To those who prefer to buy Seed Corn on the ear: Our shelled seed corn trade has increased each year until it has reached enormous proportions, from the fact that every ear to be shelled is handled for examination of cob, etc., and allowed to thoroughly cure out before being shelled and graded.

We can furnish on the ear every variety of seed corn offered by us and if you prefer to buy that way we can send on request our special Ear Seed Corn Circular. This circular gives a very complete description of how our corn is handled, with prices.

You will find this Ear Seed Corn Circular interesting, and a request will bring it to you by return of mail, postpaid.

Egyptian Wheat Corn

BRAZILIAN OR STOOL- ING FLOUR CORN

This Corn yields four times more corn to the acre than any common corn and a great deal more in shelled corn. It stools like wheat, each kernel producing from 4 to 8 stalks with from 3 to 4 ears on each stalk, about 5 to 6 inches in circumference and from 9 to 12 inches in length of pure white kernels. It is the best variety for ensilage. It contains a larger percentage of starch than any other corn and when ground and bolted by the same process as wheat gives a better bread and biscuit flour than can be made from wheat. It is also used largely as roasting ears. Only two kernels should be planted to the hill, and afterward thinned to one, and cultivated the same as other corn.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., ½ pt. 25c., pt. 40c., qt. 70c., postpaid. By ex. or frgt., 4 qts. \$1.00, pk. \$1.60.

EGYPTIAN WHEAT CORN

This Corn is cultivated very extensively in India and recently brought to this country and found to yield very valuable crops. As a grain it is much more valuable than Kaffir Corn, as it yields a larger amount of seed. It is of stooling habit, producing from three to six stalks from a single grain. The heads grow similar to Broom Corn, forming large heads of round, plump, white seed. It is an excellent feed for horses and cattle, and for chickens it is simply unexcelled. When ground it makes excellent flour for pancakes; besides, it can be popped as pop corn and it has a good flavor and is tender and crisp. It is more of a grain corn than forage, forming double the seed of Kaffir Corn and more than any Cane or Sorghum plant.

Pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., lb. 30c., 3 lbs. 80c., postpaid.

Brazilian or Stooling Flour Corn

DWARF ESSEX RAPE

A forage plant of great merit that can be produced in from six to eight weeks from seed, yielding from 25 to 30 tons of green feed to the acre. The plants grow from two to four feet high, having broad, rich, juicy leaves, resembling rutabaga tops. When corn is grown to be cut for feed, it is well to sow rape at the last plowing, as it will leave excellent pasture after the corn is taken off and is very effective in keeping down the weeds. The seed should be used at the rate of 3 lbs. to the acre in drills, or from 5 to 10 lbs. per acre sown broadcast. Pkt. 5c., 3 pkts. 10c., lb. 25c., 3 lbs. 60c., postpaid. By express or freight, not prepaid, 5 lbs. 80c., 10 lbs. \$1.25.

MAMMOTH RUSSIAN SUNFLOWER

The kind that is still in the lead for producing the largest heads, the most seed; in fact, the most reliable to plant. Better and cheaper food for poultry than corn and the stalks make excellent firewood.

Pkt. 5c., 3 pkts. 10c., lb. 25c., 3 lbs. 60c. postpaid.

FAIRVIEW LAWN GRASS (Quick Growing)

We offer the purest, cheapest and best Lawn Grass we ever had. It is the best for our American climate and composed of various grasses that grow and flourish during the different months of the year, so that a rich velvety green is constantly maintained. Large pkt. 5c., pt. 15c., qt. 25c. postpaid. By express or freight, not prepaid, pk. \$1.00, ½ bu. \$1.75, bu. \$3.25.

EARLY AMBER SUGAR CANE

Sugar Cane possesses high value for pasture, green feed in cut form, or in a dry state through the winter months, and in other ways is a valuable crop for the farmer, dairyman or stock raiser. It is greedily eaten by horses, cattle or hogs. Dairymen find that cows will give more and richer milk from its use. As a soiling crop it is valuable and will produce pasture at a time of year when it is most needed after allowing a number of cuttings. Pkt. 5c., 3 pkts. 12c., lb. 25c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 10 lbs. \$1.00, 25 lbs. \$2.00, 50 lbs. \$3.50.

EARLY ORANGE CANE

This variety is highly prized for its heavy syrup producing qualities; is also satisfactory as a forage. It does not grow as tall as the Early Amber but yields about the same. Prices same as for the Early Amber.

NEW JAPANESE MILLET

A quick growing, drought resisting Millet of great merit; distinct from other varieties. We have grown this millet and have been very careful in selecting our seed stock from individual stalks and the seed we offer is an improved strain. It grows from 4 to 5 feet high, stands up well and yields 15 tons of hay to the acre. It is claimed by a great many to be superior to corn fodder and is eagerly eaten by all kinds of stock. It can be sown broadcast at the rate of 15 pounds to the acre, or can be drilled in 12 or 18 inches apart, which requires about 12 pounds. It does not need cultivating after it has attained a height of 18 inches, as it will smother all weeds. Will make a good crop if sown right after cutting your oats, barley, rye or wheat, and will ripen in from 60 to 90 days. Pkt. 5c., 3 pkts. 10c., lb. 20c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, 5 lbs. 75c., 10 lbs. \$1.25.

TEOSINTE

It resembles corn somewhat, but has a much broader leaf and sweet-er sap. It is a very rapid growing plant after it has attained a height of 5 or 6 inches and grows to a height of 11 feet. It suckers more than any other foliage plant; often producing 25 to 30 stalks, and as many as 75 stalks have been grown from one kernel of seed. It can be cut when two or three feet high, after which it will rapidly grow up and as many as four crops have been cut during a season. The amount of forage per acre from this plant is something immense; in many cases from 250 to 300 tons. It should be planted in hills two feet apart each way and three pounds is sufficient for one acre.

Pkt. 5c., 3 pkts., 12c., oz., 10c., ¼ lb. 30c., ½ lb. 50c., lb. 75c., 3 lbs. enough for one acre, \$2.00, postpaid.

JAPANESE BUCKWHEAT

This is the hardiest, most profitable variety of buckwheat in cultivation. As high as 40 bushels have been harvested from the sowing of ½ bushel of seed and it is claimed to make flour superior to any other buckwheat. It is about one week earlier than Silver Hull, and yields better; of strong, vigorous growth, and stands up well. It is without doubt the best variety for bees. Pkt. 5c., 3 pkts. 10c., lb. 25c., 3 lbs. 50c., postpaid. By express or freight, not prepaid, pk. 50c., ½ bu. 80c., bu. \$1.50.

If You Should Receive More than One Catalogue, Please Hand the Extras to Your Neighbors.

MILLS FAVORITE COLLECTION OF ASTERS

This great collection of Asters has given splendid satisfaction everywhere and we believe for a great display throughout the summer and fall months nothing could be planted to equal it. This collection of Asters is made up of all the varieties offered in this list and a great many new and rare varieties that we do not catalogue for lack of room. A packet of this seed will produce flowers of all colors imaginable, making a magnificent display. The illustration can convey but a faint idea of their beauty, but you can imagine what a wonderful collection of flowers can be grown from such a mixture of seed. A packet of this seed will make a complete flower garden, but in order to get a gorgeous effect and have a large size flower bed, three packets of seed should be sown. **Per pkt., 100 seeds, 5c., 3 pkts. 12c., 6 pkts. 20c. Be sure to include this Aster seed in your order.**

We offer good strong Aster Plants which we can deliver to nearly any part of the United States during the Spring at the following prices: 12 plants 30c., 25 for 50c., 50 for 75c., 100 for \$1.00, by mail, postpaid.

MILLS EARLIEST BLOOMING ASTERS

Earliest Strain of Asters in the World

All those who want Asters very early in the season should grow this one. We have taken particular pains in producing this Aster, which is the earliest in cultivation; from three to four weeks earlier than any other Aster. Its large flowers and spreading habit of growth makes it a handsome plant. The colors are all shades of pink, blue, rose, white, scarlet, and lilac. **Per pkt. 5c., 3 pkts. 12c.**

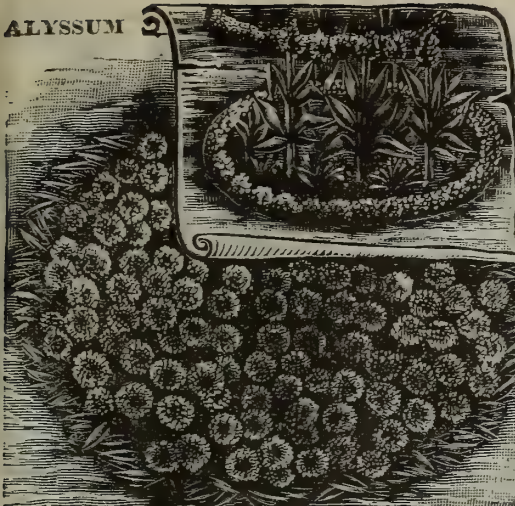

NEW BOUQUET ASTER

New Bouquet Aster Growing in Pot

This is a splendid new Aster especially suited for pot culture or for the border of a flower bed. It is very dwarf, growing only 6 or 7 inches high, but completely covered with blossoms, forming a handsome bouquet. Colors are white, pink and other shades, blending in the most pleasing manner, making it one of the most beautiful Asters we have offered. **Mixed Colors. Pkt. 5c., 3 pkts. 12c.**

ALYSSUM

LITTLE GEM—Grows two to four inches high and one plant will completely cover a circle 12 by 14 inches in diameter. Very fragrant, and the flowers are pure white. Pkt. 5c., 3 pkts. 10c.

SWEET—This is pure white, much used for borders; is fragrant and produces very delicate flowers. Pkt. 5c., 3 pkts. 10c.

AGERATUM

LITTLE BLUE STAR—Plants grow only 4 or 5 inches high and are completely covered with bright blue flowers. Make excellent edging plants on account of the wonderful profusion of bloom and small size. Pkt. 5c., 3 pkts. 12c.

MIXED COLORS—Pkt. 5c., 3 pkts. 10c.

COLEUS

We offer a choice collection of colors which includes all the large leaved varieties. Seeds sown early will produce strong, vigorous plants. The culture is very easy. No one can fail with this seed and with rich soil and plenty of water you will grow handsome colored plants. Mixed Colors, pkt. 6c., 3 pkts. 15c.

AGERATUM—Little Blue Star

MILLS FANCY BALSAMS

We have taken particular pains in selecting a great assortment of Balsams to offer this season.

PERFECTION WHITE—A fine strain, without doubt the best white Balsam grown. Pkt. 5c., 3 pkts. 12c.

PERFECTION PINK—Rich deep pink in center spreading gradually to a light rose bud pink at the petals. Per pkt., 5c.; 3 pkts., 10c.

CRIMSON SPOTTED—A deep crimson, spotted with white, very double. Per pkt., 5c.; 3 pkts., 10c.

BRILLIANT RED—Contains all the choicest shades of red of striking beauty. Per pkt., 5c.; 3 pkts., 10c.

MILLS' DEFIANCE SPLENDID MIXED—This is without question the most attractive mixture of Balsam seed ever grown. It produces plants that are covered with very large double flowers of all the colors imaginable. It will be a favorite wherever grown. Per pkt., 5c.; 3 pkts., 10c.

CANDYTUFT—LITTLE KING

This is a handsome little Candytuft, grows only about 6 inches high. The massive spikes are pure white. It makes a fine pot plant. Its shape is much like the Hyacinth flowered, making a handsome appearance. Pkt. 5c., 3 pkts. 10c.

GIANT HYACINTH FLOWERED CANDYTUFT—The flower heads grow nearly 6 in. long and about 3 in. in diameter and the color is snow white. The plants grow about 14 in. high and bear from 4 to 6 of these immense flower heads on one upright stalk and each plant will send out 4 to 8 branches. Pkt. 5c., 3 pkts. 10c.

ALL COLORS MIXED—Pkt. 5c., 3 pkts. 10c.

Giant Hyacinth Flowered Candytuft

CALLIOPSIS

These are half hardy annuals of quick growth, bearing a profusion of bright colored flowers. We offer a choice collection of colors and if the seed is sown thinly where the plants are to bloom as early in the spring as the soil can be dug, an abundance of bloom may be expected. Mixed pkt. 5c.; 3 pkts. 10c.

GOLDEN WAVE—A mass of bright golden colors. Per pkt., 5c., 3 pkts., 10c.

BELLIS (Double Daisy)

BELLIS (Double Daisy)
Daisies are easily raised from spring sown seed and come into bloom in a very short time. We offer a splendid mixture including all the best varieties. Give this beautiful little plant a place in your garden. Mixed Colors pkt. 5c., 3 pkts. 10c.

CACTUS

These curious and hardy plants are grown easily from seed and our mixture will produce a great variety of these odd and curious plants. A packet of this seed will produce a wonderfully interesting collection of plants. Pkt. 6c., 3 pkts. 15c.

GODETIA (Satin Flower)

SATIN ROSE—This produces handsome, very large, showy flowers of a rich, velvety satin rose, the petals of which shine like satin. Pkt. 5c., 3 pkts. 10c.

FINE MIXED COLORS—Pkt. 5c., 3 pkts. 10c.

GLADIOLUS FLOWERING CANNAS

This grand strain of Cannas is of dwarf growth and produces immense Gladiolus-like flowers of most brilliant colors. On account of their profusion of bloom they are the most useful, showy and popular garden plants grown. A bed of these plants will make a grand sight and the plants can be easily grown from seeds sown in hot beds in the spring. Fancy Mixture, pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

CANTERBURY BELLS

This is a popular well known large bell shaped flower, known everywhere. The cup and saucer varieties produce beautiful single flowers, three inches in length, saucers three and four inches across. They grow like pyramids, two feet high and are often covered with one or two hundred flowers, white striped, lavender and pink, for weeks during the summer. Finest Single Mixed, Pkt. 5c., 3 pkts. 10c. Finest Double Mixed, pkt. 5c., 3 pkts. 10c.

Try a good selection of our Flower Seeds. There is no better.

NEW GIGANTIC—This is a very attractive variety. Seeds can be sown early and before fall the heads, which have a mammoth purple comb and dark brown foliage, begin to appear. It makes a very odd pot plant. Pkt. 5c., 3 pkts. 10c.

Fire Feathered

FIRE FEATHERED—Grows nearly 3 feet high, covered with flower heads of orange scarlet. Pkt. 5c., 3 pkts. 10c.

GOLD FEATHERED—Similar to Fire Feathered except the flower heads, which are a bright golden color. Pkt. 5c., 3 pkts. 10c.

CELOSIA (Coxcomb) Spicata—A verystartling and handsome new sort, growing 2½ feet high. Immense bloom, silvery white tipped with bright rose. Each plant produces a great number of these blooms. Quite a curiosity in the garden. Pkt. 5c., 3 pkts. 10c.

All Varieties Mixed—This will make a great collection, producing many curious plants and flowers. Pkt. 5c., 3 pkts. 10c.

WATER LILIES

Water Lilies

Seed should be sown in a pan of mud just covered with water and kept in a warm temperature where they will germinate quickly and grow rapidly. Our seed includes many new foreign varieties that will flower the first year and one packet of seed produces many odd and curious flowers. We offer a collection of **Choice Varieties in a mixture**, pkt. 15c., 2 pkts. 25c.

Salpiglossis (Velvet Flower)

SALPIGLOSSIS (Velvet Flower)

The flowers are marked and penciled, resembling the petunia. This is a very handsome plant.

All Colors Mixed, pkt. 5c., 3 pkts. 10c.

ALPESTRIS BLUE—A grand free-flowering sort, and the very best blue variety. Will thrive in almost any soil.

Pkt. 5c., 3 pkts. 10c.

KOCHIA SCOPARIA (Summer Cypress)

MILLS' GIANT EARLY FLOWERING CARNATIONS AN EARLY FLOWERING STRAIN

This is a wonderful strain of early Flowering Dwarf Perpetual Carnation which will produce flowers in three or four months from seed. The seed we offer should give nearly 90 per cent. of double blossoms. The plant is of dwarf compact habit, branching just above the ground. The variety of colors includes blush, deep pink, white, salmon, carmine, scarlet, maroon, dark crimson and many beautiful variegated flowers, a great many of which have beautiful fringed petals and are very fragrant. The plants grow easily anywhere. In about 12 weeks after the seed is sown they begin to bloom and an abundance of flowers will be produced until frost comes. Seed sown during the summer will produce plants which can be potted in the fall and will produce an abundance of blooms throughout the winter. Pkt., 100 seeds, 5c., 3 pkts. 12c.

KOCHIA SCOPARIA (Summer Cypress)

A beautiful plant, very unique and ornamental. The rounded globe-like form resembles a delicate evergreen highly colored. Nothing handsomer for an annual hedge. Early in fall ends of shoots are thickly set with small bright scarlet flowers. Plants are very showy. When planted in

rows singly to show the round ball-like form they are very striking. Easily grown from seed and can be planted in the ground early in spring. Our illustration shows one plant as it appears in fall. Grow it this year. Pkt. 5c., 3 pkts. 12c.

Mills' Giant Early Flowering Carnations

Hardy Hibiscus

HIBISCUS-

This is a handsome perennial plant, grows very fast, and in one season attains the dimensions of a shrub. There is nothing more desirable for an ornamental hedge, or to set in clumps as they are hardy and never winter kill. Early in summer they begin to flower and continue to produce enormous flowers nearly as large as tea saucers, of a variation of color, blush, white, deep pink, rose and many other odd markings and

colors. This makes a very attractive plant wherever grown and is easily raised from seed.

Hardy Hybrids, mixed, per pkt, 5c., 3 pkts, 10c.

DATURA

SWEET NIGHTINGALE

This is a very showy and delicate pot plant, producing immense large white trumpet shaped flowers very quickly from seed, is fragrant and a very interesting flower.

Per pkt, 5c., 3 pkts, 12c.

FOXGLOVE (Digitalis)

Produces long spikes of richly colored flowers, excellent for cutting. A very showy plant. Blooms the first season. Pkt, 5c., 3 pkts., 10c.

Foxglove (Digitalis)

Gaillardia (Grandiflora)

The flowers are greatly admired for their rich blending of colors. Bloom readily from seed the first year. Thrive well everywhere. This is one of the very finest everblooming flowers we offer. Plants grow from one to two feet high. Flowers are daisy-like in shape and are useful for cutting. Plants should stand about ten inches apart. Fine mixed, all colors, single flowers in red, yellow, scarlet and orange, pkt, 5c., 3 pkts, 12c.

NEW DOUBLE GAILLARDIA
—Produces large double flowers of various shades and colors. Very attractive and beautiful. Pkt. 5c., 3 pkts, 12c.

New Orna-

mental Cotton

This Cotton makes a very beautiful decorative plant when growing, and for cutting in the fall for house as everlastings, there is nothing better. Some leaves are green, white, yellow and red. The cotton is snow white. Grows easily from seed. Be sure to place your order for a little of the seed.

Pkt, 5c., 3 pkts, 12c

JAPANESE

CHRYSANTHEMUMS

EASILY RAISED FROM SEED

We have succeeded in securing a wonderful collection of Japanese Chrysanthemum seed and there is hardly any flower produced from seed that can take the place of this. Think of seed producing all the curious and odd shaped flowers as shown in the illustration. Our mixture is composed of all the best Japanese and Chinese varieties, which are imported from Japan. Among the curious shapes and beautiful colors will be found the Ostrich Plume sort, twisted and curled, and nearly all shades you can imagine. In addition to the Japanese variety, we include the Annual Chrysanthemums which produce large flowers of crimson, gold and white colors. No matter how many plants you raise there will hardly be any two alike. The entire mixture of seed soon begins to bloom and by winter the plants are large enough to produce a gorgeous display of flowers. Fine Mixed, all varieties, shapes and colors, Pkt, 8c., 3 pkts, 20c.

ANNUAL VARIETIES MIXED—These bloom freely the first year from seed and produce a variety of colors. Seeds can be sown in garden in the spring. Pkt, 5c., 3 pkts 12c.

Japanese Chrysanthemums

DAHLIAS

New Single Mixed Colors—Flowers are large, formed of broad petals, which are beautiful in color. Pkt. 5c., 3 pkts. 12c.

DOUBLE LARGE FLOWERING

This grand mixture will flower the first season from seed and the collection we are offering will produce a great display of flowers. We have included all the best varieties to be had, which are easily grown from seed. But few people know that Dahlias can be raised from seed and will bloom the first year. Seeds germinate as easily as Zinnias, and from the start develop strong, stocky plants.

Mixed Colors pkt. 5c., 3 pkts. 12c.

New Dwarf Double Cactus Dahlia—Plants grow compact, erect bushes, flowers are double and a large variety of rich, handsome colors. An early blooming race. Mixed Colors, pkt. 8c., 3 pkts. 20c.

FEVERFEW

Feverfew, Double White and Golden Ball

DOUBLE WHITE—Flowers enormous in size, snow white, and double as roses. Pkt. 5c., 3 pkts. 12c.

GOLDEN BALL—A dwarf double yellow, is a perfect little beauty. Is covered with large double yellow flowers. Pkt. 5c., 3 pkts. 12c.

All Colors Mixed—Pkt. 5c., 3 pkts. 10c.

CLEMATIS, PANICULATA

One of the most valuable of all the hardy flowering vines. Of exceedingly rapid growth, soon reaching a height of 15 to 20 feet and spreading out in all directions. Small, pure white flowers, borne in great masses of panicles or clusters on long stems so profuse as to fairly cover the plant with a sheet of fleecy white. Its blooming period is in August and September, when most other vines have ceased and it is a sight to behold. Not its least charm is its delightful, magnolia-like fragrance.

Perfectly hardy. You can grow this handsome vine from seed. Pkt. 5c., 3 pkts. 12c.

Baby Golden Glow

Single Plant of Baby Golden Glow

This is a beautiful annual, producing a yellow flower, which makes a pleasing effect. They will begin blooming early in the season and each plant will produce hundreds of bright yellow flowers as double and perfect as roses. Seed should be sown early in the house or hot bed and plants transplanted to the garden as soon as frost is past. The Baby Golden Glow grown only from twenty inches to two feet in height and resembles the famous Golden Glow which is a tall growing late flowering perennial plant. We are sure that this will make a very interesting plant and have succeeded in securing a choice supply of seed.

Pkt., 6c., 3 pkts. 15c.

CLEMATIS, PANICULATA

BANANA OR MUSA-ENSETE

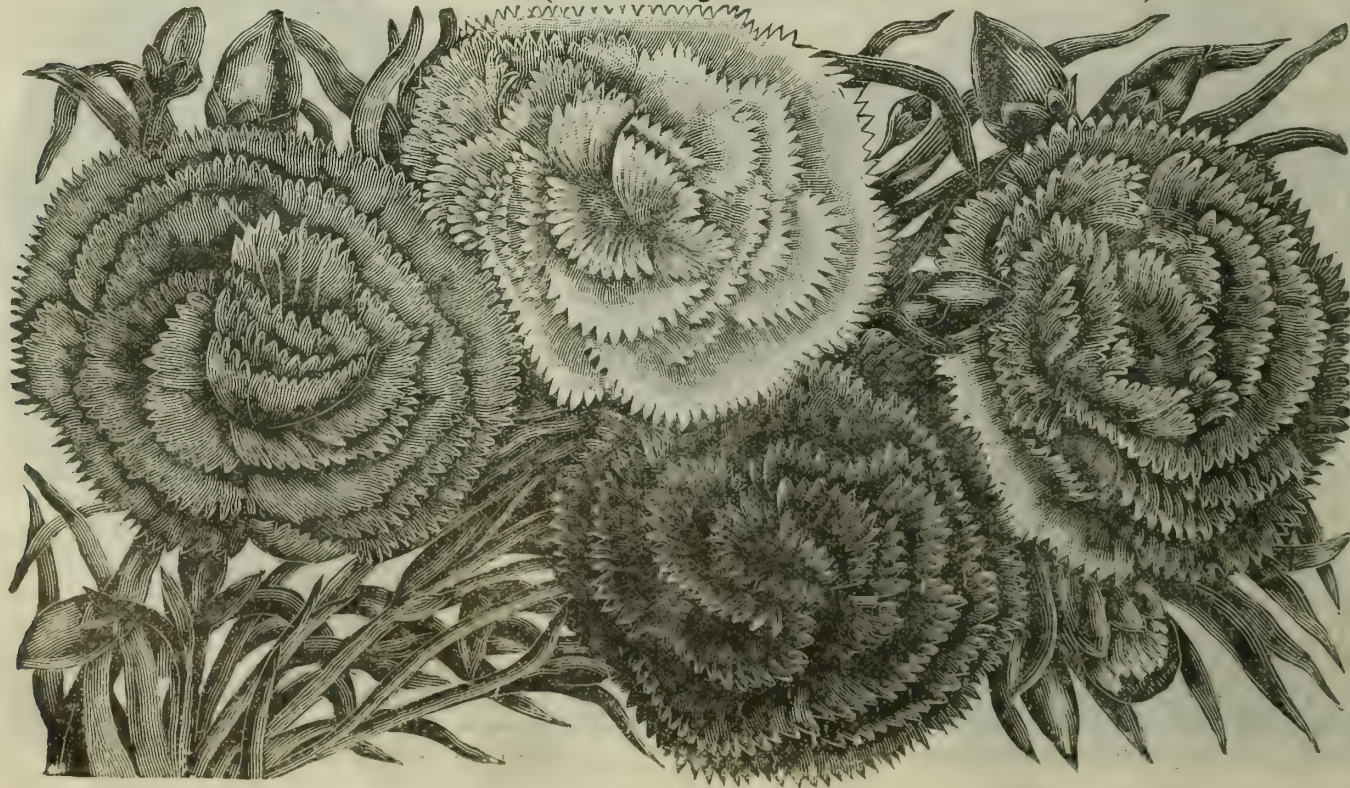

The rapidity of the growth of this plant is astonishing. It is a gorgeous and stately plant with giant, magnificently shaped leaves of a beautiful bright green color. Seeds sown early in hot bed and repotted will give plants eight feet high the first summer. It certainly is a great curiosity and a few plants in your garden or upon the lawn will make an ornamental and gorgeous effect. The seeds of this variety are scarce and hard to get, but we have succeeded in securing a supply which we can offer to our customers this year.

Price per pkt., 15c., 2 pkts. 25c.

WILD CUCUMBER VINE (Echinocystis Lobata)

One of the quickest growing climbers in our list. Grows 30 feet in one season, is thickly dotted with pretty white fragrant flowers, followed by an abundance of ornamental, prickly seed pods. To cover unsightly buildings and fences, nothing can equal it. Pkt. 5c., 3 pkts. 10c., 1/2 oz. 15c., oz. 25c.

DIANTHUS (Hardy Garden Pinks)

DIANTHUS Hardy Garden Pinks

These are the most beautiful of summer flowering annuals. They are unrivaled for brilliancy and variety of colors. The plants are bushy, of symmetrical form, about a foot high. The flowers grow to a large size, averaging about six inches in circumference. There is a wonderful variety of colors and they are intensely brilliant and varied. Colors are beyond description.

DWAVE SNOW-BALL—These are pure white, producing an abundance of double flowers. Pkt., 5c., 3 pkts. 12c.

DWAVE FIRE-BALL—Produces double fiery red flowers throughout the summer and fall. Pkt. 5c., 3 pkts. 12c.

LARGE FLOWERING DOUBLE HYBRID—All colors. Pkt. 5c., 3 pkts. 12c.

CHOICE SINGLE MIXED—All colors. Pkt. 5c., 3 pkts. 12c.

Everblooming Annual Hollyhock

We have been unable until recently to secure seed of the true Everblooming Hollyhock, as illustrated. They are as easily grown from seed as any annual and commence flowering in about 12 weeks and continue to bloom until killed by frost. On account of their blooming the first season they are much more desirable to grow than any other Hollyhock, as they can be started in the house or hot beds in March or April, or sown in the open ground in May. Plants from early sown seed set out in May will commence blooming in July and will produce an abundance of bloom throughout the season. This Annual Hollyhock is a wonderful free flowering sort, as shown by the illustration. The forms and colors among the flowers would be a surprise to anyone. They are produced in double flowers, semi-double, single saucer shaped flowers, some with smooth edged petals, while others are fringed and of various shapes and shades. The flowers are usually very large, sometimes measuring over five inches across. For great variety of color we know of no Hollyhock that will make such a gorgeous display as the colors and markings are beyond description and should be grown to be appreciated. The plants grow very strong and vigorous and are of a branching habit. The center spike will attain a height from 7 to 9 feet but it can be kept at a desirable height by pinching off the top. To get the best results plants should be set in thoroughly rich soil and kept watered in dry weather.

Price of seed containing a great mixture of double and semi-doubles, all colors and shades, per pkt. 5c., 3 pkts., 12c., 6 pkts., 20c.

FINE DOUBLE MIXED—This produces flowers of delicate shades and markings and the best mixture of the large double Hollyhock on the market. The plants are hardy and large, robust growers; the flowers of this mixture often measure 5½ inches in diameter. This variety is the mammoth Double Hollyhock blooming the next year after sowing the seed. Per. pkt., 5c., 3 pkts. 12c.

Lemoine's Giant Hybrid Heliotrope

Blooms from Seed the First Season

This is a true new hardy hybrid perpetual everblooming Rose, which will bloom in 60 days from sowing the seed. It is a new variety and the seed is very scarce and high priced. The plants grow very strong and begin to bloom when very small, even when the shoots are not more

than 3 inches high. As they grow older the flowers increase in size and number until large trusses of bloom cover the plant from spring until fall. They are hardy and live from year to year increasing in beauty and make an excellent pot plant. Flowers come double, semi-double and produce many colored flowers, such as white, pink and crimson, Mixed Colors. Pkt. 5c., 3 pkts. 12c. 6 pkts. 20c.

The Baby Rose

Cosmos

These Giant Autumn Flowering Annuals often produce flowers 4 to 5 inches across. For cutting this is one of the finest flowers grown, long stems and feathery foliage, produce a graceful effect. They are easily raised from seed.

KLONDIKE—Produces large orange colored flowers. Pkt. 5c., 3 pkts. 12c.

EARLY COSMOS, SUMMER FLOWERING—A large flowering Cosmos does not bloom until late in the fall, but we offer an early flowering strain, which begins to bloom in June and continues until frost. Flowers are not quite so large nor the plants do not grow as high as the late flowering Cosmos. A good collection of colors mixed, pkt. 5c., 3 pkts. 12c.

GIANT COSMOS, ALL COLORS MIXED—This contains all the large varieties, which make a great display of colors. Pkt. 5c., 3 pkts. 12c.

OXALIS

The Annual Oxalis make pretty border plants, bloom quickly from seed; clover like foliage; 6 to 7 in. high. Mixed colors, pkt. 5c., 3 pkts. 10c.

Heliotrope—These are easily grown from seed and if sown in open ground will produce flowers in August, but the seed will do better if sown in the house and set out in the open ground when the weather is warm.

LEMOINE'S GIANT HYBRID—A grand new variety of large size, great beauty and delicious fragrance. It is impossible to give an idea of the rare beauty of the flower heads. More than 12,000 flower heads have been counted on a single stalk; trusses measure from 8 to 12 inches across and colors range from pure white through all shades of blue and violet to a deep indigo. Pkt. 6c., 3 pkts. 15c.

BLACK KING—This produces flowers of a rich very dark purple. Pkt. 6c., 3 pkts. 15c.

DARK BOUQUET—The deepest blue in color. Pkt. 5c., 3 pkts. 12c.

LADY IN WHITE—This produces flowers of a spotless white. Pkt. 5c., 3 pkts. 12c.

ALL VARIETIES IN A MIXTURE—A wonderful display. Pkt. 5c., 3 pkts. 12c.

42 **Nasturtiums**

Mills Dwarf Brilliant Beauties—Produce a wonderful display of flowers of all colors to be found in Nasturtiums. Colors are very intense; plants grow about one foot high and one foot across which are literally covered with showy bloom. Pkt. 5c., 3 pkts. 12c., oz. 10c., ¼lb. 30c., lb. 75c.

Giant Climbing—This is the King of all Giant Nasturtiums. It is as beautiful as an Orchid on account of the giant flowers. Plants grow very strong and vigorous with large, dark green foliage, producing great quantities of flowers of all colors, some measuring over 3½ inches across. Just the variety to plant by an arbor or fence to make a wonderful display of colors. Pkt. 5c., 3 pkts. 12c., oz. 10c., ¼lb. 30c., lb. 75c.

Giant Flowering Silver and Mosaic Leaved

Silver and Mosaic Leaved Nasturtiums

This is a beautiful race of new Nasturtiums, the foliage being variegated, making the plants very attractive, even when not in flower, but when in bloom their beauty is more than doubled on account of the great combination of colors. The plants grow about the size of other dwarf varieties, which make them very desirable for bedding. All colors, mixed, pkt. 5c., 3 pkts. 12c., 6 pkts. 20c., oz. 30c.

TOM THUMBS

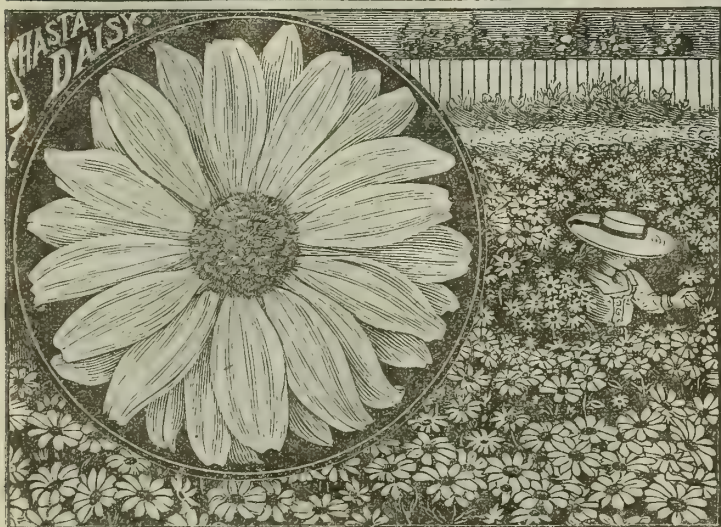

These are well known for their handsome foliage and brilliant flowers. They grow about a foot high and produce an abundance of flowers during the summer.

CLOTH OF GOLD—This has a bright yellow foliage, while the flowers are a beautiful scarlet color, excellent for bedding and blooms nearly all summer. Pkt. 5c., 3 pkts. 10c., 6 pkts. 15c., oz. 10c., ¼ lb. 25c.

BRONZE COLORED—The flowers are of good size, a beautiful bronze in color. Pkt. 5c., pkts. 10c., 6 pkts. 15c., z. 10c., ¼ lb. 25c.

Tom Thumb Nasturtiums

BURBANK'S SHASTA DAISY

This is the newest Giant Daisy and one of the best productions of Mr. Luther Burbank, surpassing earlier creations bearing only a slight resemblance to the common Daisy. The New Shasta Daisies often measure 4 and 5 inches across, and are borne on stems 2 to 3 feet long. They succeed everywhere blooming throughout the season.

Pkt. 5c., 3 pkts. 12c.

GIANT PLANT

This is a magnificent foliage plant and is a great curiosity when grown in garden or on the lawn. Seeds can be sown early in spring and will produce plants 10 to 12 feet high spreading 25 feet across with leaves from 5 to 6 feet across, making it a perfect wonder. It requires sun, good soil with plenty of moisture, and in the winter the roots should have good protection. Pkt. 10c., 3 pkts. 25c.

NICOTIANA

Nicotiana, Sanderae Hybrids

SANDERAE HYBRIDS—These flower from early summer until late in autumn. Their beauty is beyond description, flowers produced being purple, snow-white, dark and light red, violet, salmon, crimson, pink and various other shades. It is a very easily cultivated plant, thrive in any soil either in pots, boxes, or in the open ground. Flowers are nearly as large as a petunia, with tubes five inches long, and many of the flowers are delightfully scented. You should not miss this excellent plant as it is good for summer, fall or winter blooming. Cut blooms last well, opening freely in water. All colors, mixed, pkt. 6c., 3 pkts. 15c.

An improved type, producing large flowers, very double, of various colors, shades and markings, which are borne on long spikes like immense Hyacinths. Can be easily grown in the open ground.

All colors mixed, pkt. 5c., 3 pkts. 10c.

DOUBLEDWARF ROCK-ET—Fine mixed colors, pkt. 5c., 3 pkts. 10c.

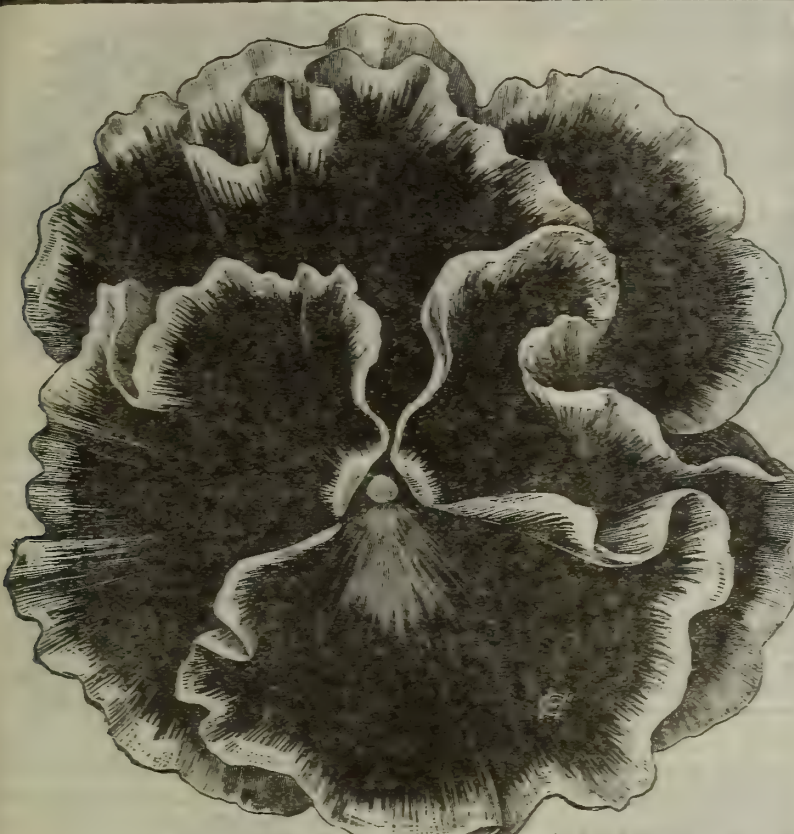

WEATHER PLANT

This is a beautiful flowering vine with fern-like foliage and clusters of flowers. It is claimed that the leaves by changing their positions foretell the weather two days in advance. If the leaves stand upward from the twig at an angle of 45 degrees the sky will be cloudless and the weather beautiful. If they should stand out straight then changeable weather is indicated, or if the leaves droop down the indications are rain, and when the leaves are hanging straight down it indicates it will be very wet. Everybody should have this plant growing about their home.

Pkt. 5c., 3 pkts. 12c.

PANSIES

Mills Giant--We have received hundreds of recommends from our customers as to its mammoth size, often measuring three inches in diameter and the colors range through all shades that have ever been known in Pansies. This distinct strain is offered as one that will produce flowers surpassing in size and colors any other variety. All colors. Pkt. 5c., 3 pkts. 12c. We offer strong, well rooted plants, carefully packed as follows: 12 plants 30c., 25 for 50c., 50 for 75c., 100 for \$1.00, by mail, postpaid.

GIANT RUFFLED MASTERPIECE

GIANT RUFFLED MASTERPIECE--A new type in Pansies producing Giant flowers of the most distinct and striking character. The petals have a rich velvety substance and being ruffled gives them the effect of a double flower. Colors range through all shades known in Pansies. On account of the richness and beauty of colors, and distinct character of petals, we consider them a real curiosity. All colors mixed, pkt. 6c., 3 pkts. 15c.

- SNOW QUEEN**--Flowers of pure delicate satiny white. Pkt. 5c., 3 pkts. 12c.
- GOLD MARGINED**--Very pretty. Pkt. 5c., 3 pkts. 12c.
- MAHOGANY COLORED**--Pkt. 5c., 3 pkts. 12c.
- ROSY MORN**--Red, with white edges. Pkt. 5c., 3 pkts. 12c.
- EMPEROR WILLIAM**--Flowers of ultramarine blue, with purple eyes. Pkt. 5c., 3 pkts. 12c.

Imperial German

Violet Scented Pansies

- IMPERIAL GERMAN**--For a variety of colors and large sized flowers this is a good one. They embrace all the solid colors, as well as the spotted and marked varieties, and the variations and combinations cannot be fully described. This splendid mixture embraces seeds of over fifty colors and markings. Pkt. 5c., 3 pkts. 12c.
- VIOLET SCENTED PANSIES**--This is a new type of Pansies and a cross between the Pansy and the Violet. Flowers more like Pansies but fragrance like Violets. The colors embrace canary, azure blue, white, buff and many others mixed. Pkt. 6c., 3 pkts. 12c.
- FIRE KING**--Lower petals have blotches of deep brown red, margined yellow; upper petals are a bright reddish brown. Pkt. 5c., 3 pkts. 12c.
- PEACOCK**--Resembles peacock feathers; very attractive and beautiful. Pkt. 5c., 3 pkts. 12c.
- METEOR**--Bright canary yellow, with mahogany and reddish brown. Pkt. 5c., 3 pkts. 12c.
- KING OF THE BLACKS**--Intensely dark and rich. Pkt. 5c., 3 pkts. 12c.
- PURE YELLOW**--Very large golden flowers. Pkt. 5c., 3 pkts. 12c.
- STRIPED and MOTTLED**--Pkt. 5c., 3 pkts. 12c.

Shoo-Fly Plant

SHOO-FLY PLANT

Here is a very interesting curiosity of the Physilis family. It is claimed that flies will not stay in a room where it is grown if they can escape. It is hard to understand this as the flower does not seem to have any odor. It is a great plant to bloom when grown in pots summer or winter, and it is a most remarkable free flowering plant, blooming in a short time from seed. On account of the blossoms being large, cup-shaped and of a delicate light blue color, with a white center, we are sure it will be highly prized by all who grow it. It can be easily grown from seed.

Pkt. 5c., 3 pkts. 12c.

TUFTED OR BEDDING "PANSY-VIOLETS"

These are very popular for bedding. They produce beautiful Pansy-like blossoms 2 to 2 1/2 in. across, of the most brilliant colors, lemon, crimson, orange, maroon, purple, lavender, silver gray, rose, blue, white, black and many other shades. Flowers are borne on long stems like the violet. Seeds sown in May will flower in August and bloom the next spring. All Colors, mixed. pkt. 5c., 3 pkts. 12c.

44 - PHLOX = MILLS' GORGEOUS =

A bed of these Annual Phlox will surpass almost anything else in dazzling brilliancy. Plants grow about 18 inches high, produce large trusses of immense flowers of various colors, such as deep rose, soft pink, maroon, purple, lavender, dazzling scarlet, pure white and many other shades. Gorgeous Mixture cannot be equaled. All colors mixed. Pkt, 150 seeds, 5c, 3 pkts., 12c.

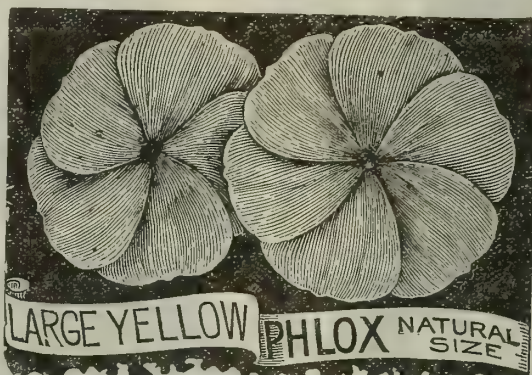

NEW FRINGED—This is the finest starred and fringed variety, having a bright eye in the center. The fringed flowers are distinctly bordered with white. We offer a Choice Mixture of Colors. Pkt. 5c., 3 pkts., 12c.

LARGE BLOOD RED—This is the darkest color of them all, being of the deepest blood red color, rich and beautiful. Pkt., 5c., 3 pkts., 12c.

PURE WHITE—This is the very best pure white variety and will produce an abundance of white flowers throughout the summer. Pkt., 5c., 3 pkts., 12c.

NEW LARGE YELLOW—No variety is more admired than this on account of producing large flowers of a rich straw color. Pkt., 5c., 3 pkts., 12c.

NEW PHLOX

Bunch of Roses

NEW PHLOX, BUNCH OF ROSES—This is a splendid dwarf strain, the plants being completely covered with bright flowers. The florets are large and vividly rose colored with a darker spot of rose close to the base while the center of the flower is pure white. On account of the large, clustered heads, its name "Bunch of Roses" was selected. It's a great bloomer and we advise our customers to try it. Pkt. 6c., 3 pkts. 15c.

Double Flowering Red Giant

HARDY PHLOX, NEW LARGE FLOWERING HYBRIDS—For permanent beds in the garden or lawn nothing is more attractive. The plants bear immense panicles of large bright colored flowers of many beautiful shades and colors. The plants are perfectly hardy, grow 2 or 3 feet high, bloom freely during the summer. New Large Flowering, Mixed. pkt. 6c., 3 pkts. 15c.

Mignonette

DOUBLE FLOWERING RED GIANT—This is one of the largest and best Mignonettes for garden culture. It is a strong stocky grower, handsome foliage and very healthy. The spikes of flowers are mammoth, measuring 5½ to 8 inches long by nearly three in diameter, and are completely filled with giant florets, measuring about ½ inch across and packed very full with anthers nearly three times as many as other Mignonettes contain, which entitles it to be called a double Mignonette. The fragrance is rich and powerful and for cutting there is no better variety, as it will remain fresh for several days when placed in water. Pkt. 5c., 3 pkts., 10c.

DEFIANCE—This is one of the leading varieties and largely grown as a florist's flower. It grows very strong, both the plant and the individual flower, while the size and strength of the leaf have not been equalled. The spikes of the flowers grow several inches long and the single florets more than ½ inch in diameter having a delightful fragrance. Pkt., 5c., 3 pkts. 10c.

GOLDEN QUEEN—Produces yellow blossoms and is of a very dense dwarf growth. Pkt., 5c., 3 pkts. 10c.

COMMON SWEET—The old well-known small flowered variety, very sweet. Pkt., 5c., 3 pkts. 10c.

FINE MIXED—This comprises all known varieties. It is a very choice selection. Pkt. 5c., 3 pkts. 10c.

Defiance Mignonette

Salvia or Scarlet Sage

LARGE FLOWERING SCARLET—This is a most gorgeous plant with its brilliant colors producing an abundance of bloom during the summer. The great spikes of bloom completely conceal the foliage, making it a blaze of flaming scarlet. One plant will produce several hundred spikes of flowers in a season, each spike being about ten inches in length. Per pkt. 5c., 3 pkts., 12c.

CYCLAMENS

This is a splendid plant for blooming in the winter or summer. They are very easy of culture, producing a handsome plant which is covered with Orchid-like flowers. They are of the most beautiful colors, ranging through all the different shades of red, white, pink, spotted, variegated, etc.; foliage is beautiful, being variegated with green stripes. The plants develop a bulb which can be planted from year to year. We consider this one of the most showy plants for house culture and it is easily raised from seed. Pkt. 8c., 3 pkts. 20c.

POPPIES=BRILLIANT=

These Poppies grow 12 to 15 inches high, branch freely and bloom continuously for weeks. Flowers are immense, both in size and color. Their colors run through all shades and make a gorgeous sight all summer. All Colors. Pkt 500 seeds, 5c., 3 pkts. 12c. **45**

Tulip Poppies

NEW TULIP POPPY—Flowers are more of a tulip shape than any other and at a little distance one could scarcely tell a field of them in bloom from a field of scarlet tulips. Pkt. 5c. 3 pkts. 10.

NEW ADMIRAL—A grand new Poppy. Quite a curiosity. We succeeded in securing seed from Germany and advise all to give it a trial. A new species from Asia Minor. Doubtless the finest of the open ground Poppies, sown in autumn it blooms from June through summer bearing flowers 2 to 2½ inches across, of a fiery dark orange scarlet with black spots at base. The branching plants are about 16 in. high with gray green foliage. A real novelty. Pkt. 5c., 3 pkts. 12c.

Shirley Poppies

SHIRLEY—This is a splendid strain, the habit of plant being dwarf and stout, blossoms of enormous size and of the most beautiful colors to be found among any flowers. All Colors Mixed, pkt. 5c.; 3 pkts. 10c.

SNOWDRIFT POPPY

NEW ICELAND—This is a new strain and contains many new colors, and flower the first season from seed. The colors include white, lemon, orange, rose, striped, blush and many other odd markings. They are hardy perennials and produce an abundance of flowers from June until October. Pkt. 5c., 3 pkts. 10c.

SNOWDRIFT—This is a large variety producing pure white flowers, perfectly round and double, of large size and at a little distance a bed of them looks like a drift of snow making a grand sight. Pkt. 5c., 3 pkts. 10c.

FAIRY BLUSH—This handsome variety grows about the same height as Snowdrift and produces handsome, globe-shaped flowers of immense size, and the petals are elegantly fringed and pure white, colored at the tips with rosy cream, making a very odd and attractive flower. Pkt. 5c., 3 pkts., 10c.

New Iceland Poppy

Ricinus, Zanzibarensis

GIANT DOUBLE POPPIES BRILLIANT MIXTURE—This mixture is made of all Double Annual Poppies we have been able to secure seed of. Imagine a bed of these Poppies, producing flowers 4 to 5 inches in diameter about as large as Peonies. All colors mixed, pkt. 5c., 3 pkts. 10c.

PERENNIAL POPPIES—The single perennial Poppies are perfectly hardy and very attractive on account of the large handsome flowers. Colors, white, red, orange and yellow; flowers measure 6 to 9 inches across. All colors mixed, pkt. 5c., 3 pkts. 10c.

RICINUS (Castor Oil Bean)

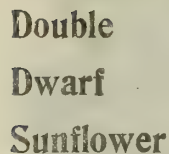

ZANZIBARENSIS—This is a handsome, quick growing Ricinus or Castor Oil Bean and if planted in the open ground in May should be in full foliage by July and attain a height of from 12 to 14 feet during the season. This is a giant variety and a few plants in a large bed make a most picturesque sight, to be admired a long distance. The gigantic leaves measure 2½ to 4 feet across. Giant Varieties Mixed pkt. 6c., 3 pkts. 15c.

CHIZANTHUS

Christmas Orchid Flower

SCHIZANTHUS—A very showy, desirable flower, spotted and blotched with crimson, violet and yellow, giving flowers and plants an odd appearance. Blooms well in summer or if planted in October blooms during the winter as a house plant. About Christmas time it is in full bloom. Of easy culture, mixed all colors. pkt. 5c., 3 pkts. 12c.

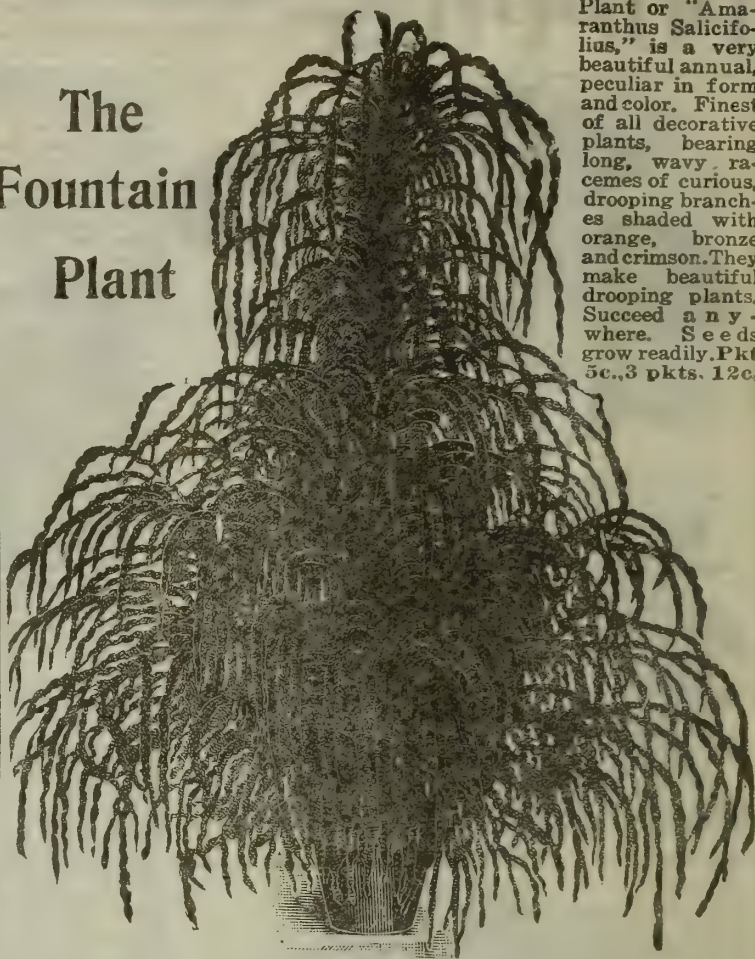

**All double varieties mixed,
pkt 5c. 3 pkts 12c.**

This is a wonderful rose. It will produce semi-double and double flowers from 2 to 3 months after sowing seed. When not over 1½ in. high, it will throw out from 1 to 3 single flowers the size of strawberry blossoms. Hardy hybrid perpetual everbloomer. Mixed seed, pkt. 5c., 3 pkts. 12c., 6 pkts. 20c.

The Fountain Plant

The Fountain Plant or "Amaranthus Salicifolius," is a very beautiful annual, peculiar in form and color. Finest of all decorative plants, bearing long, wavy racemes of curious, drooping branches shaded with orange, bronze and crimson. They make beautiful drooping plants. Succeed anywhere. Seeds grow readily. Pkt 5c. 3 pkts. 12c.

GERANIUM SEED

FOUR O'CLOCKS—Are very beautiful and picturesque, with flowers of striking colors, which contrast finely with the dark green, glossy foliage. Best Mixed, pkt. 5c. 3 pkts. 12c.

Well known, popular plants for either pot culture in the winter, or summer bedding. Few people know how very easily and quickly they bloom from seed. You can get all the plants you want with very little trouble and expense by sowing the seed. Some of the finest sorts have been raised from seed. Start early and you will have plenty of bloom the first year.

Extra Choice, Good Mixed Double and Single, per pkt. 10c., 3 pkts. 25c.

SWEET WILLIAM

SWEET WILLIAM—Excellent for edging or for borders, producing large heads of the richest flowers early in the summer. Very fragrant, excellent for bouquets.
Single Mixed all Colors, pkt. 5c., 3 pkts. 10c.

DOUBLE MIXED—Produces double flowers, all colors. Pkt. 5c., 3 pkts. 12c.

This collection is made up of all the leading varieties of everlasting flow

ers. They are very attractive, as a bouquet of these flowers will keep for years without a drop of water, and look as fresh as when first picked. We offer a very choice collection of Mixed Colors, and our seed cannot be equalled in this country. Pkt. 5c. 3 pkts. 10c.

CUPHEA is a very fine genus of plants, remarkable for their beauty, freely blossoming and of ornamental appearance both in conservatory and flower border. Admirable for house in winter. It is a very attractive plant. Try it. Pkt. 5c., 3 pkts. 12c.

TORENIA

TORENIA

These are excellent for pot culture, borders or baskets. A profuse bloomer and a popular annual. They do well in open ground. All Colors Mixed, pkt. 5c., 3 pkts. 12c.

ELECTRIC LIGHT PLANT

A wonderful curiosity, which produces a sturdy, bushy plant growing to the height of about four feet and covered with large spikes of flowers six to eight inches long.

These flowers are produced in lovely shades, pure white at base and ranging from rose to bright red to top of flower. It makes a showy and ornamental plant, and when grown in clumps it is a beautiful sight. It can be readily grown from seed. Pkt. 5c., 3 pkts. 12c.

SWEET PEAS = MILLS GIANT FLOWERING = Gorgeous Mixture. Greatest Mixture of Colors ever offered. 47

continue to bloom for months. Sow a liberal quantity of seed. Pkt. 5c., 3 pkts. 10c., oz. 12c., 2 ozs. 20c., ¼ lb. 30c., ½ lb. 50c., lb. 75c.

EARLIEST OF ALL—This is the very earliest, always coming into bloom nearly two weeks in advance of any other variety. It is so early that two crops of flowers may be grown in one season by simply planting early in the spring and those that go to seed if sown in August will produce flowers in the fall. Try them Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

EXTRA EARLY BLANCHE FERRY—This is a very early variety. Standard rose pink, wings white tinted rose. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

BLACK KNIGHT—Very deep maroon color. Wings brownish purple. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

CAPTAIN OF THE BLUES—Standard light purple, wings lavender. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

INVINCIBLE RED—White stripe on scarlet. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

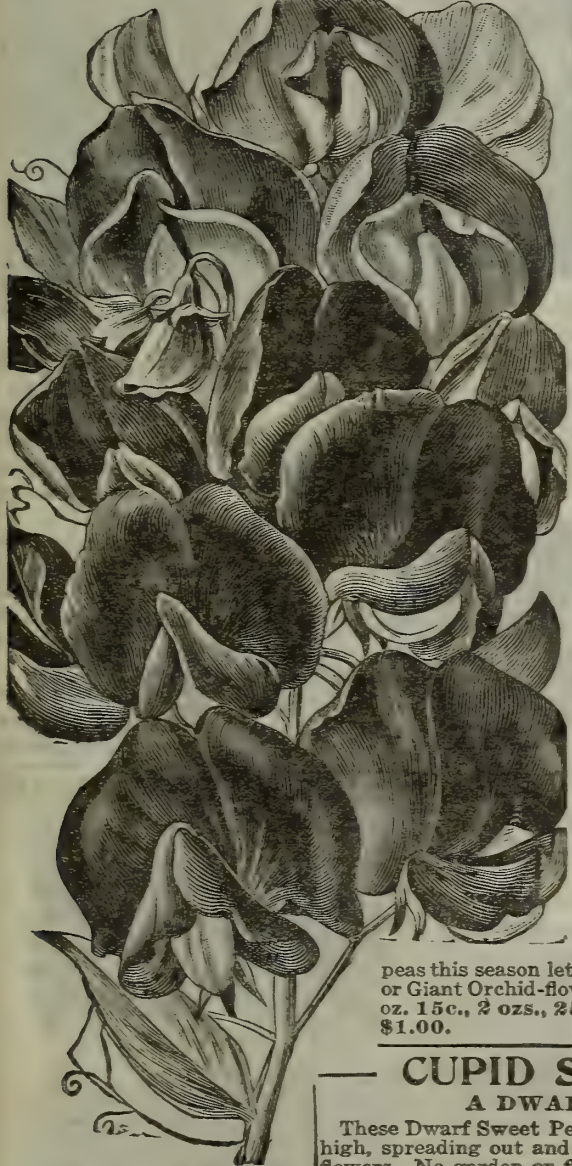

Earliest of All

Bush Sweet Peas
A half dwarf form of Sweet Pea growing nearly 18 ins. high. Needs no support. It is a vigorous and profuse bloomer, producing white, pink, rosy carmine, violet striped, and various other shades and markings on flowers found among Sweet Peas. A good sort to grow. Mixed Colors, Pkt., 5c., 3 pkts. 12c.

BUSH SWEET PEAS

Spencer Hybrid

BLUSHING BEAUTY—Has a peach-blossom pink color. Very beautiful shade. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

EMILY HENDERSON—Very early, large, pure white flowers. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb. 25c.

LOTTIE ECKFORD—White, shaded and edged with soft lavender. Pkt. 5c., 3 pkts., 8c., oz. 10c., 2 ozs., 15c., ¼ lb., 25c.

GORGEOUS—A new Sweet Pea; one of the richest colored varieties that we know of, being a rich orange salmon. Pkt. 5c., 3 pkts., 8c., oz. 10c., 2 ozs. 15c., ¼ lb., 25c.

SENATOR—Chocolate and creamy white. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

PRINCE OF WALES—White stripe mauve. Pkt. 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c.

RED RIDING HOOD—Produces bright, dark, rosy pink flowers in abundance. Pkt. 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb. 25c.

PERENNIAL SWEET PEAS

We cannot praise this lovely hardy vine too highly, for it blooms constantly from early summer until late in autumn. The plants produce a profusion of clustered flowers on long stems, in various colors; white, pink, rose, carmine, etc., these flowers being of large size. All colors mixed. Pkt., 5c., 3 pkts., 10c.

Spencer OR GIANT ORCHID-FLOWERED Sweet Peas

This is the Sweet Pea that is very popular. The illustration gives but a little idea of its mammoth size, and a very faint idea of the shape. The enormous flowers are waved to a remarkable degree, giving them the well deserved title of Giant Orchid-Flowered—beyond comparison with all other varieties. The harmony of soft coloring in this mixture is beyond the power of words to describe. This mixture contains shades of white, crimson, lavender, blush, etc., often many shades of the same color. If you only have one packet of sweet peas this season let it be this collection of Spencer or Giant Orchid-flowered. Pkt., 5c., 3 pkts., 12c. oz. 15c., 2 ozs., 25c., ¼ lb., 35c., ½ lb., 60c., lb., \$1.00.

CUPID SWEET PEAS A DWARF VARIETY

These Dwarf Sweet Peas grow only about five inches high, spreading out and forming a mass of foliage and flowers. No garden or flower bed is complete without this little novelty.

WHITE CUPID—Produces waxy white flowers, nearly as large as Emily Henderson. Very sweet. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c.

PINK CUPID—Exactly like the white, except in color, which is a lovely pink. Pkt. 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c.

CUPID BEAUTY—This is the most beautiful of the Cupids, growing from six to seven inches high. Standard rose pink, shaded to white, wings rosy carmine. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c.

CUPID PRIMROSE—A beautiful primrose in color. Very dainty. Pkt., 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c.

DOUBLE SWEET PEAS

Produce from 20 to 50 per cent of double flowers. We have the finest strain in existence, with all the best colors, making a grand mixture. Is very attractive. Pkt. 5c. 3 pkts., 10c., oz. 12c., 2 ozs., 20c. ¼ lb. 30c., ½ lb. 50c., lb. 75c.

CUPID, MIXED COLORS—All the Cupid Sweet Peas in one mixture. Pkt. 5c., 3 pkts., 8c., oz., 10c., 2 ozs., 15c., ¼ lb., 25c., ½ lb., 40c., lb., 70c.

GOOD MIXED—We have made a good mixture of Sweet Peas and offer as follows. They are fine. Pkt. 5c., 3 pkts. 12c. oz. 8c., 2 ozs. 15c., ¼ lb. 30c., ½ lb. 50c., postpaid.

White Cupid Sweet Peas

This is the handsomest petunia in the world, because of its rich colors and markings and its fringed or notched petals. The great blooms are beautifully ruffled on the edges. Some flowers are 5 inches across. The tints are rich and varied, embracing purple, yellow, rose, velvety crimson, etc., including much curious veining and penciling. Some flowers are blotched, with dark throats, giving them a handsome appearance. Pkt. 15c., 2 pkts. 25c.

EXTRA CHOICE MIXED—All best colors, single and double. Pkt. 5c., 3 pkts. 10c.

Petunias

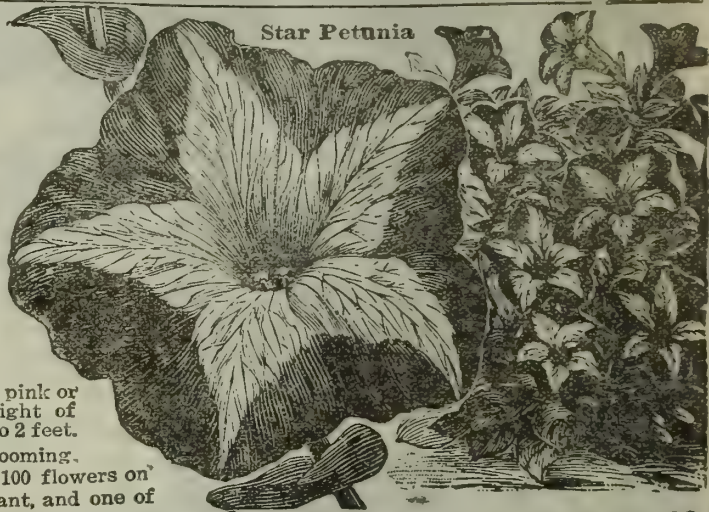

FANCY FRINGED DOUBLE—These are as large as Hollyhocks, very double with edges finely fringed. Petals are crinkled, of various colors, making a gorgeous effect. We have secured the choicest Double Petunia seed that can be had, guaranteeing no other strain can produce a larger per cent of double flowers. Selected Seed, All Choice Colors, pkt. 15c., 2 pkts. 25c.

SUNSET RAINBOW—A fine new strain of large flowering Petunias which we have grown and paid \$50.00 for a name. They should be grown to be appreciated. A description can give but a faint idea of their beauty. Pkt. all colors mixed, 5c., 3 pkts. 10c.

STAR—Flowers 2 to 2½ in. in diameter, of fine texture with more or less veining. Ground color a crimson maroon in the centre of the flower is a five rayed star of light bluish pink or white. Height of plant, 1½ to 2 feet. Free blooming, sometimes 100 flowers on a single plant, and one of the most attractive for bedding, window boxes or borders. Pkt., 5c., 3 pkts. 13c.

Fancy Fringed Double Petunia

Star Petunia

MARIGOLD

Legion of Honor

LEGION OF HONOR—Named so because it resembles Button of the Legion of Honor. Flowers bright and almost startling. Bright golden yellow with a deep velvety crimson brownish red mark on each petal at base. The plants are very dwarf and compact, while they produce large flowers. Pkt. 5c.; 3 pkts. 10c.

TOM THUMB—MIXED—These form compact little bushes from six to eight inches high completely covered with handsome blossoms from summer until fall. Pkt. 5c., 3 pkts. 10c.

FRENCH MIXED COLORS—These produce double flowers of rich dark shades. Pkt. 5c.; 3 pkts., 10c.

FUCHSIA

This well-known house plant will bloom the first year from seed if sown reasonably early. We offer a splendid mixture made up of double and single varieties, which should produce a variety of colors.

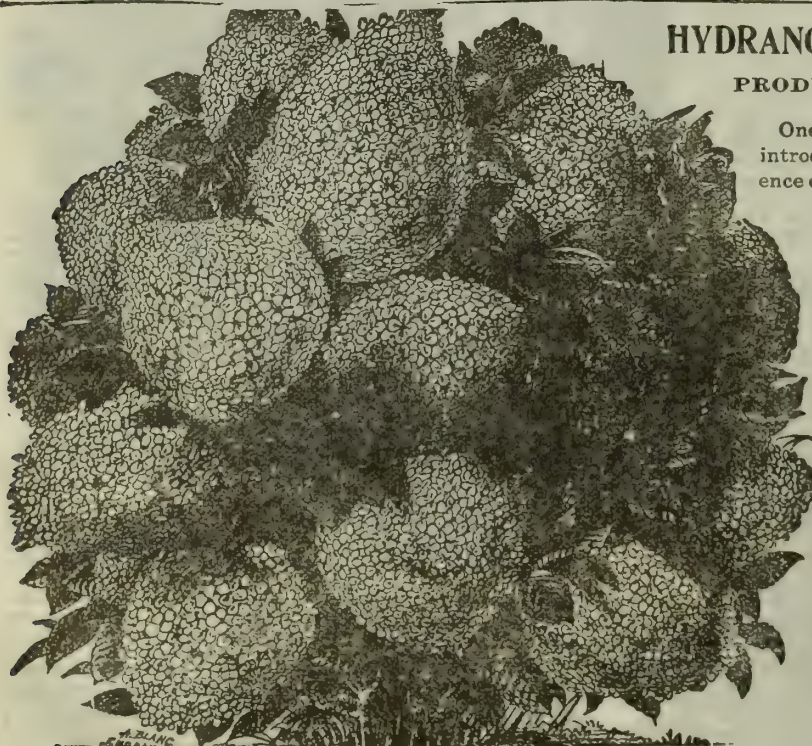

Double and Single Mixed, per pkt 15c.; 2 pkts., 25c.

HYDRANGEA-PANICULATA

PRODUCES IMMENSE FLOWERS

One of the finest hardy shrubs ever introduced, and in size and magnificence of bloom not excelled by any shrub in cultivation. The bush in time attains a large size, growing in beauty year by year. It is in full glory of bloom from August until the middle or last of October, when every branch is crowned with an immense panicle of fleecy, pure white flowers, changing later to a pinkish hue, sometimes a foot long and nearly as broad at the base, presenting an aspect of majestic grandeur that absolutely defies description. Entirely hardy, very free growing, a profuse bloomer and thrives in all soils. It should have a permanent place in every garden, not only because it is such a glorious shrub, but for its flowers appearing at a time when few others are to be found. A bed of one hundred makes a most striking appearance. It can be grown from seed, and we have secured a choice lot for our customers this year. Start some of these plants this spring. You will be surprised at the result.

Price, Pkt., 6c., 3 pkts., 15c.

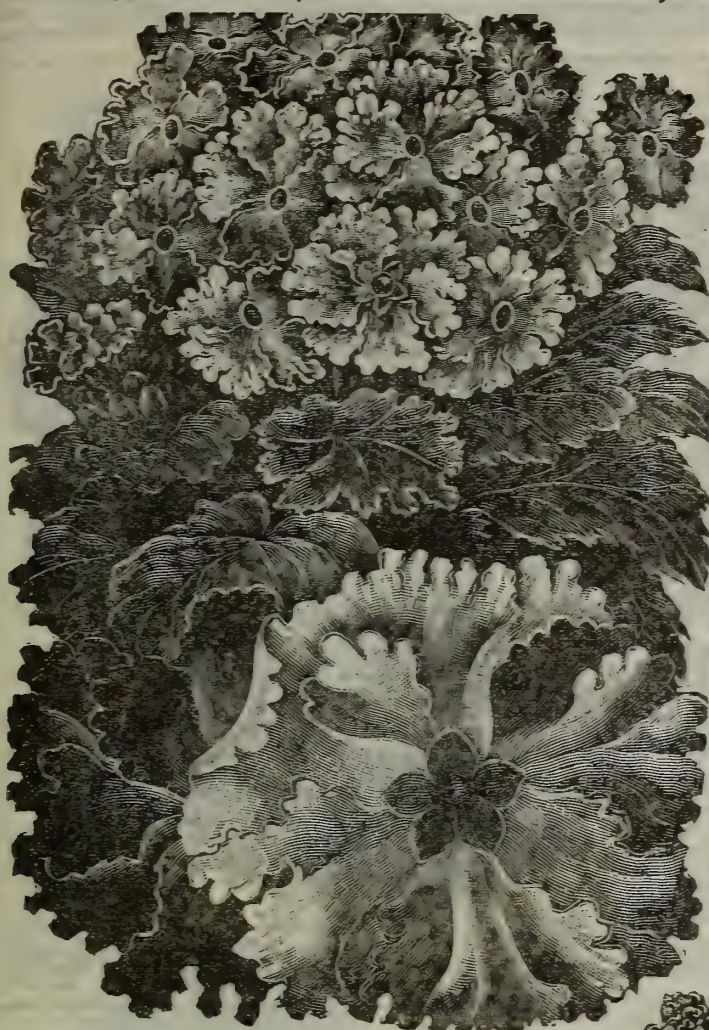

Hardy Hydrangea - Paniculata.

PURPLE FEATHER GRASS

He is quite a curiosity and we believe will be very useful for lawn and house decorations on account of its rapid and vigorous growth. The recurving leaves, which are narrow and grow very graceful are overtopped by elegant feathery plumes about a foot long. The heads are borne from July until frost and the whole plant seems to be veiled in a purple cloud. It certainly is the most beautiful and ornamental house plant of easy culture which can be readily grown from seed. Price pkt., 6c., 3 pkts., 15c.

PRIMROSES are easily grown from seed, produce a very handsome plant and flower and continue to bloom for months. The young plants will produce an abundance of bloom as soon as well started if given plenty of air and kept in a warm dry place. They make an excellent pot plant or can be grown in the flower bed in summer. The colors are very beautiful. The plant produces an abundance of foliage, well covered with large flowers. All Colors Mixed. Pkt. 8c., 3 pkts. 20c.

Lantanas From Seed

LANTANA—This is a well-known shrub-like plant, producing clusters of verberna-like flowers, in pink, yellow, orange and white colors, in great profusion. Many take the plants up before frost, cut them back and place them in a sunny window, where they generally give an abundance of flowers all winter. Per pkt. 6c., 3 pkts. 15 cents.

IMPERIAL SWEET SULTAN—This beautiful flower deserves to be in every garden. Produces large double pretty flowers in great profusion, growing on long stems, and is splendid for bouquets. It is sweet scented and admirable for the garden. Pkt. 5c., 3 pkts. 12c.

Double Wall-flower

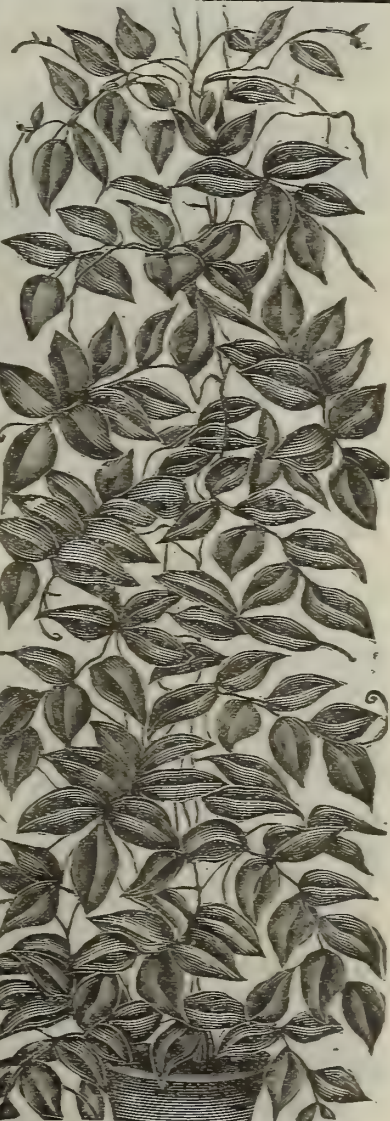

FINE GERMAN DOUBLE MIXED—This is a splendid mixture; contains a large collection of shades and colors. Pkt. 5c., 3 pkts. 10c.
CHOICE SINGLE MIXED—This includes all single varieties and a good variety of colors. Try a packet of each variety. Pkt. 5c., 3 pkts. 10c.

MUSK PLANT (*Mimulus Moschatus*) This is a fragrant and universally admired favorite. Equally at home in Sitting-room, Greenhouse or flower garden. They live for years, as house-plants. Pkt. 5c. 3 pkts. 12 cents.

The **Tritoma** is sometimes called Red Hot Poker or Torch Flower. It will bloom the first season from seed, sending up tall flower stems on which are borne the great blossoms of a bright red or flame color. Single plants produce from five to a dozen of these great flowers, stalks growing 3 to 4 feet high, presenting a brilliant appearance. The plants are hardy in open ground and grow and bloom early in spring. Per pkt., 8c.; 3 pkts., 20c.

SMILAX—No climbing plant surpasses it in the graceful beauty of its glossy green foliage. Its wavy form renders it valuable for vases, or to hang and droop from baskets, or trellis. Pkt. 5c., 3 pkts. 12c.

50 VERBENAS = MILLS GIANT

These Giant Verbenas produce the most beautiful flowers of gigantic size, in a wider range of colors than any other Verbena ever offered. A few plants will make a display of colors long to be remembered. Try them. All Colors. Pkt. 100 seeds, 5c., 3 pkts., 12c.

**SWEET-SCENTED
MAYFLOWER
VERBENA**

shade. Pkt. 5c., 3 pkts. 12c.

SCARLET DEFIANCE—Intensely deep rich color, of the brightest scarlet. Very attractive. Pkt. 5c., 3 pkts. 12c.

MOSS VERBENA—Produces a mass of fine moss-like foliage, and as the branches spread out over the ground in all directions forming a lovely carpet of mossy green above which is borne the clusters of purplish blue blossoms in great profusion. It is more hardy and robust than most Verbenas and blossoms in a short time from seed. Pkt. 5c., 3 pkts. 12c.

SWEET SCENTED MAY FLOWER—A strain of Verbenas that is made up to include all the sweet scented varieties. The flowers are large, the colors are very brilliant, and they bloom continuously from early summer until late in the autumn. Pkt. 5c., 3 pkts. 12c.

BLUE AND WHITE EYE—A light blue flower with a white eye. A bed of only 3 plants makes a grand sight. Pkt. 5c., 3 pkts. 12c.

GOLDEN LEAVED—Scarlet flowers with leaves of a bright yellow

**A Flower of
Giant Striped**

GIANT STRIPED—A most beautiful flower producing beautiful colors. Pkt. 5c., 3 pkts. 12c.

GIANT PURPLE—It produces mammoth purple flowers of beautiful color. Pkt. 5c., 3 pkts. 12c.

GIANT PINK—Similar to purple, except that the colors are pink. Pkt. 5c., 3 pkts. 12c.

GIANT STRIPED

GIANT WHITE—The handsomest of all white flowered varieties grown, is of enormous size. Pkt. 5c., 3 pkts. 12c.

Solanum

SOLANUM—A beautiful miniature evergreen tree, that bears perpetually in great numbers ripe and green fruit (not edible) and it blossoms freely the whole year. Their scarlet fruits make them very desirable for both house and lawns (in summer). Pkt. 5c., 3 pkts. 12c.

LOBELIA

LOBELIA—An excellent pot plant for window culture as it blooms in four weeks. The colors are exceedingly clear, making charming plants.

Dark Blue, Best for bedding. Pkt. 5c., 3 pkts. 10c.

Mixed Colors. All the very best. Pkt. 5c., 3 pkts. 10c.

TEN WEEKS STOCKS

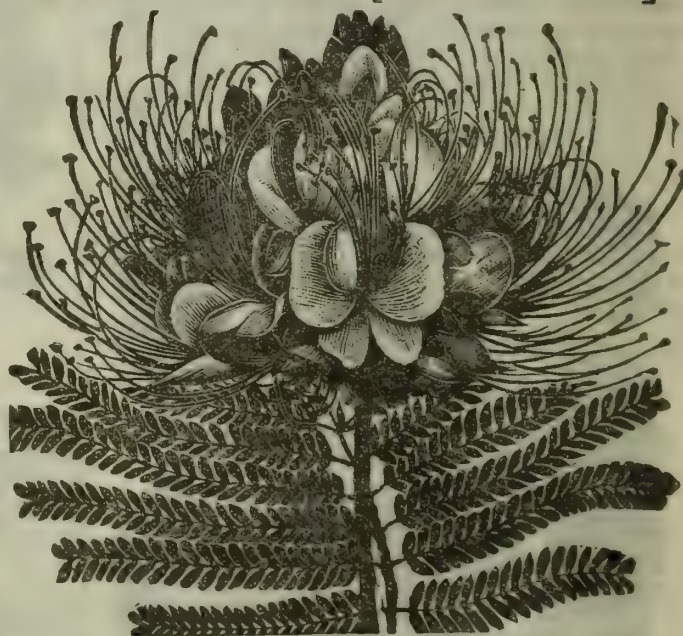

LARGE FLOWERING GLOBE PYRAMIDAL—This kind produces immense spikes of perfectly double flowers; individual blooms measuring from 2 to 2½ inches in diameter. Colors are crimson, white, rose, blue, lilac, brown, flesh color, apple blossom and yellow. They are greatly prized for cut flowers on account of their fragrance and many colors. All colors mixed. Pkt. 5c., 3 pkts. 12c.

DWARF GERMAN—Fine, mixed. All colors, Pkt. 5c., 3 pkts. 12c.

Ten Weeks Stocks

BIRD OF PARADISE [Poinciana Gillesii]

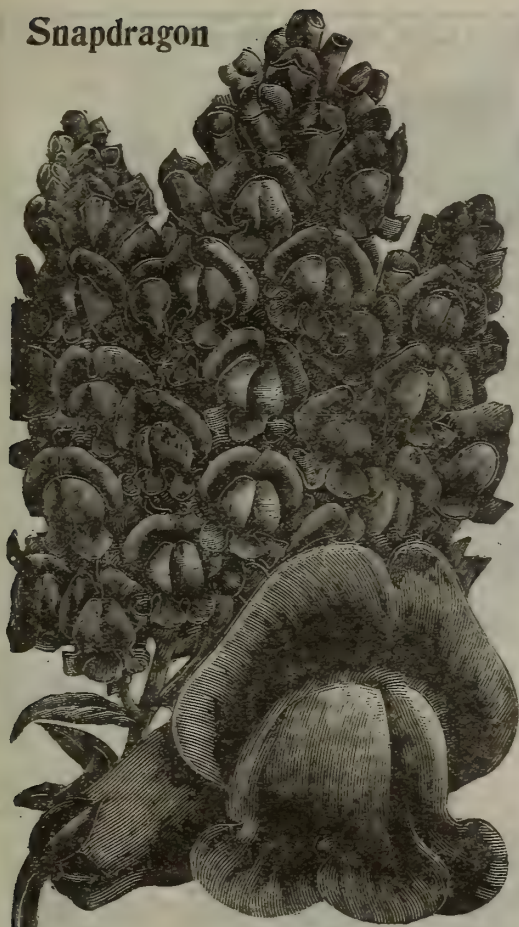

Bird of Paradise

The foliage of this new plant reminds one of a very delicate Acacia. The flower is a golden yellow, measuring nearly 2½ inches across, of beautiful shape as shown in the illustration. They are produced in very large trusses, and the most beautiful part of the flowers are the very large pistils which spread out in a fan-like form, of bright crimson color. It blooms in great profusion the first year, if sown early in the spring. Can be grown inside in winter and outside in summer. Will produce plants 3 to 5 feet tall. Pkt. 6c., 3 pkts. 15c.

Perfect Gem Calla

This is a very handsome Calla Lily, and can be grown from seed. It was originally imported from Germany and found to be a distinct variety of the Calla family. It grows from 16 to 20 inches high, making a very handsome pot plant and is a continuous bloomer, producing an abundance of pure white flowers of large size, standing well above the massive foliage. It produces bulbs never larger than one inch in diameter, and is a very rapid grower. Sow a few seeds, plants are easily started and they make graceful ornaments in any home. Packet 5c., 3 packets 12c.

Snapdragon

**SNAP-
DRAGON**—This is a charming old fashioned flower produced in many colors, such as yellow, scarlet, white, etc. It is a perennial and blooms well the second season. It succeeds well as an annual. All colors mixed, pkt. 5c., 3 pkts. 10c.

FERNS

FERNS—It is very easy to raise a great collection of Ferns from the seed. They make splendid decorations for the table, windows, etc. The seeds are very fine and should be sown in shallow boxes on the surface of moist soil with an exceedingly light covering of crushed or sifted moss. Ferns require light sandy soil, well enriched.

Choicest mixed, from a very fine collection of all sorts, pkt. 10c., 3 pkts. 25c.

ANEMONE (Wind Flower) A very beautiful hardy perennial, which blossoms very early in spring, and has a greater variety of colors than any other flower. Large, attractive blossoms. Fine mixed, pkt. 5c., 3 pkts. 10c.

Anemone

(WIND FLOWER)

51

Nigella—This is an easy-growing annual, making a compact plant one to two feet high. It produces large double porcelain blue and white flowers, which completely cover the plant. The foliage is odd and striking. Mixed colors, pkt. 5c., 3 pkts. 12c.

SCABIOSA (Mourning Bride)

SCABIOSA (Mourning Bride)—These produce perfectly double flowers, borne on long, slender stems, well above the foliage. Very useful for cutting. The colors range from white to rich crimson deep red and pink, lilac and other delicate shades, some almost black. Mixed, pkt. 5c., 3 pkts. 10c.

CATCHFLY (Silene)—Showy, free-flowering hardy annuals. Fine for borders, beds and bouquets. Succeeds in any soil. Grows about one foot high. Very nice to mix with other flowers when making bouquets. Succeeds everywhere. Mixed, double and single, Pkt. 5c., 3 pkts. 10c.

GIANT ZINNIAS

GIANT MAMMOTH MIXED—This is a new class of Zinnias, giant in size, and has perfect double flowers of the richest and most varied colors and shapes, measuring nearly 5 inches across, of intense brilliant colors. The plants grow about 3 feet high, and bloom freely. All Colors Mixed, pkt. 5c., 3 pkts. 10c.

FAIRY ZINNIAS—Called Fairy Zinnia because the plant is dwarf, compact and covered during the summer and until frost sets in, with very small, perfectly double flowers, embracing a wide range of colors. Perfect little beauties. Pkt. 5c., 3 pkts. 10c.

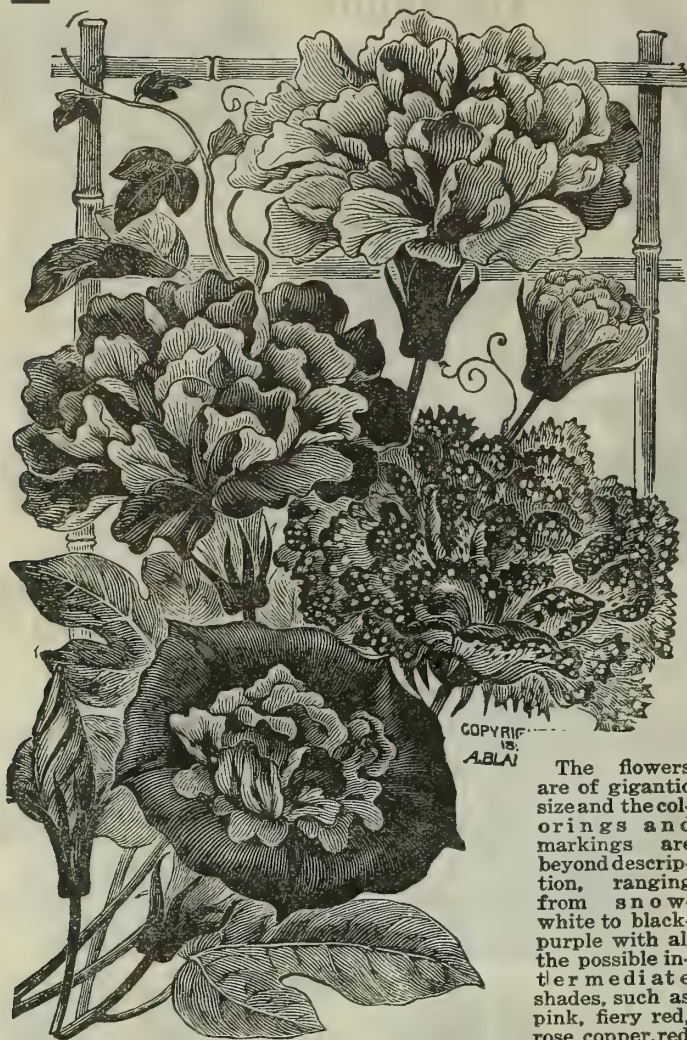

STRIPED ZEBRA—Produces all colors such as orange, pink, yellow, crimson, violet, scarlet, white, rose, and many are striped with different shades. Hardly any two plants produce flowers alike. Pkt. 5c., 3 pkts. 10c.

NEW POMPONE—Color pure white through cream and buff to clear cream yellow, and pinks to deepest crimson and

DUSTY MILLER (Centaurea Gymnocarpa)—One of the prettiest of ornamental leaved plants. The leaves are white and are beautiful for vases, edgings, ribbons or mixed with cut flowers. Pkt. 5c., 3 pkts. 10c.

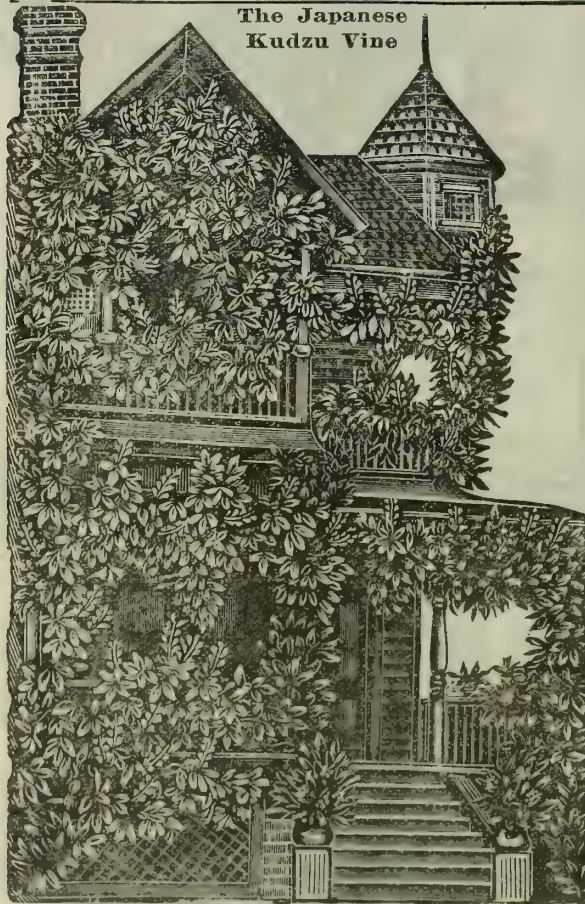

fiery coppers and reds. All Colors Mixed. Pkt. 5c., 3 pkts., 10c.

COPYRIGHT
1918
A.B.L.A.I.

The flowers are of gigantic size and the colorings and markings are beyond description, ranging from snow-white to black-purple with all the possible intermediate shades, such as pink, fiery red, rose, copper, red

carmine, crimson, deep blue, pale blue, royal purple, maroon, indigo, bronze, slate, brown and cherry, while many have throats spotted, marbled, striped, flaked and splashed. The most attractive Morning Glories grown. All Colors, Single and Double Mixed pkt. 5c., 3 pkts. 12c.

The Japanese Kudzu Vine

JAPANESE KUDZU VINE
(Jack and the Bean Stalk Vine)

This comes from Japan, the land so productive of curious and ornamental flowers. With ordinary treatment it will grow seventy feet in one season, filling the air with the fragrance of its large clusters of wistaria like blossoms. It requires very little care and in three months this wonderful vine progresses as much as most vines do in five years. It is perfectly hardy, lasts for years. Foliage is large, shaped like the leaf of a bean. Flowers are a pleasing shade of purple. Pkt. 6c., 3 pkts. 15c.

PORTULACA-Royal Beauty

ROYAL BEAUTY—This is a grand new variety being recently introduced and has given great satisfaction wherever grown. The flowers are large and double, while the colors are very brilliant, of red, orange, white, maroon, yellow, and various other shades, impossible to describe. A bed of these double portulacas makes a magnificent sight. All Colors Mixed, pkt. 5c., 3 pkts. 10c.

SINGLE—These cover the plants completely over with large, bright beautiful flowers of all shades. Be sure to plant a packet this season. All Colors, pkt. 5c., 3 pkts. 10c.

JAPANESE HOP VINE

This is a handsome vine, growing from twenty to thirty feet in a season. The leaves are striped and variegated, making a charming effect. It is a rapid summer climber and one of the best plants for covering verandas, trellises, etc. Heat, drought and insects do not trouble it. Pkt. 5c., 3 pkts. 10c.

Japanese Giant Flowering Dolichos
(HYACINTH BEAN)

This annual climber grows about ten feet high, branching out well from the bottom, producing an abundance of sweet pea like blossoms, borne in long wistaria like clusters, nearly a foot in length. The foliage is very dense and is insect proof. Mixed Colors, pkt. 6c., 3 pkts. 15c.

Allegheny Vine

This is one of our best hardy climbing plants, being a native of the Allegheny Mountains, very attractive and picturesque. Flowers, rose, pink and white. Try it this season, it's a wonder. Pkt. 5c., 3 pkts. 10c.

COBEA-- [Scandens]

A rapid growing climber, attaining a height of fifteen to thirty feet, produces rich purple flowers. Pkt. 5c., 3 pkts. 12c.

Wild Flower Garden Mixture

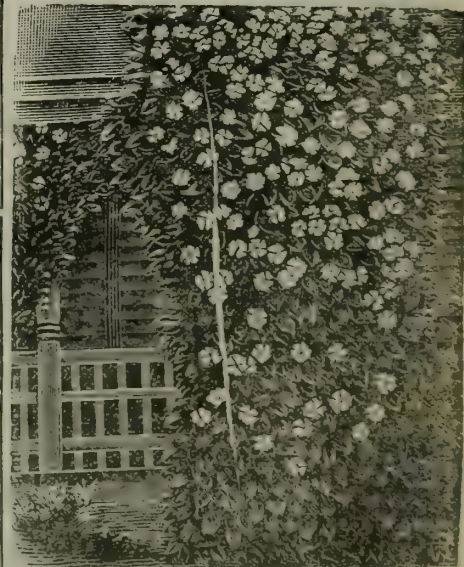

We have made up a great mixture of flower seeds, including nearly all flowers that will grow and flower from seed the first year. This selection embraces several hundred varieties of easy growing and pretty flowers suitable for a wild flower garden. They are excellent to sow in any corner of the garden or along fences or any unsightly places where they will grow and bloom freely. Without doubt this collection contains more varieties of beautiful flowers than any other on the market. Price, pkt. 5c., 3 pkts. 12c., oz. 25c.

CYPRESS VINE

This is a beautiful and artistic vine. The trembling foliage and star shaped flowers give the plant a charming effect. Mixed Colors, pkt. 5c., 3 pkts. 10c.

MOON FLOWER VINE

This vine has become very popular, and on account of its being a rapid grower, it has taken the lead among the annual climbing vines and no one who has a trellis or arbor veranda, or old tree to cover should fail to plant the Moon Flower. It is the most rapid growing of all climbing vines and if given a sunny situation and plenty of water, it will attain a height of from forty to sixty feet and be covered with thousands of immense fragrant flowers, opening in the evening and remaining open until nearly noon the following day. The flowers are from five to seven inches in diameter. Pkt. 6c., 3 pkts. 15c.

PAN-AMERICAN EVERBEARING STRAWBERRIES

Pan-American Strawberry begins to fruit with the early varieties and will bear, not three weeks as do other kinds, but will continue to fruit until late in the fall. It is a strong, vigorous grower and has a perfect blossom. The plants are hardy, of medium size and strong, thrifty growers. The fruit is of good size, of a bright red in color, and of excellent flavor. What would be more appreciated than a few of these Everbearing Strawberry plants producing fruit in your garden all summer? Grow some in a barrel. Fill barrel with good garden soil, cut two inch holes in sides and set plants in these and in top. Keep soil moist.

If you want strawberries all the season, set some of these plants in your garden and they will be the wonder of your neighbors. Plants 15c., 3 for 30c., 6 for 50c., 15 for \$1.00 30 for \$1.75, postpaid. By express, not prepaid, 100 for \$4.00.

ST. REGIS EVERBEARING RASPBERRY

Bears the First Season—Raspberries in Four Months—that is what you get when you plant the St. Regis—the New Everbearing Variety.

St. Regis is unlike any other Raspberry for it yields a crop of fruit the first season it is planted petually for four months. Plants berries on June 20 of the same year duce ripe berries freely, without intermission until the middle of October. The berries were large and beautiful, brilliant crimson in color, firm and full flavored to the very last.

St. Regis is of pure American blood and of ironclad hardiness, the canes enduring the severest cold uninjured and are wonderfully prolific. The foliage never suffers by sunburn or scald, nor is its growth of canes impaired by the heat and drouth of summer.

In addition to the bright crimson color and large size of the fruit, it is so firm and rich in sugar that it will stand shipping two hundred miles, arriving at market in first class order; and it can readily be kept in perfect condition for several days after being gathered.

Extract from Report of Special Fruit Committee, New Jersey State Horticultural Society

The St. Regis Everbearing Raspberry is truly a wonder and marks a great advance in Red Raspberries. The berries are of good, though not extra large size, are bright in color, very firm and of quality that equals the old Cuthbert. Its distinguishing characteristics are its remarkable vigor of plant and its everbearing property. It is the first Red Raspberry to ripen, giving ripe berries the past season on June 20 and continued to yield, without intermission, until late October; and its summer and autumn crops do not consist of a few scattering berries, but good heavy pickings all the time. One party who had a small patch—say half an acre—picked and shipped from two to three pickings each week for four months, and his profits were enormous. The berries in late summer and autumn do not differ perceptibly in size, color or quality from those that ripen in June.

The last fruit we picked from the St. Regis was on November 7th, at which time the plants were in full foliage; though previous to this the mercury had registered 28 degrees.

Farm Journal, December, 1910.

On September 30 we saw some nice looking red raspberries on exhibition at the Inter-State Fair at Trenton, N. J. They had just come from the bushes and looked as fresh and luscious as early summer berries. The variety is called the St. Regis Everbearing.

We have been very fortunate in securing a good supply of plants to offer our customers, and know St. Regis will please everyone.

Price of strong, well rooted plants 25c. each, 3 for 60c., 6 for \$1.00, 15 for \$2.00, by mail postpaid.

THE EARLY BIRD Strawberry originated in Southern Illinois. Has a perfect blossom. The earliest variety in cultivation, bright crimson red color, very firm and good quality, the vines are literally crowded with beautiful berries. In flavor the fruit is very tart and rich. **Red Bird** will become very popular as soon as tested because of its very heavy yields of uniform fruit and its fine shipping qualities. They will yield 12,000 quarts per acre, being very productive for such an early berry. The plant is a deep rooter and this fact combined with the heavy foliage renders the plant to be a great drouth resister. The old adage "early bird catches the worm" applies to this variety, as the **Red Bird** captures the prize as a money maker and mortgage lifter, on account of their extreme earliness.

Plants 10c., 3 for 25c., 6 for 40c., 15 for 80c., 30 for \$1.50, postpaid. By Ex. not prepaid. 100 for \$3.00, 500 for \$12.00.

EARLY RED BIRD STRAWBERRY

KEVITT'S WONDER STRAWBERRY

This **Wonder Strawberry** is a New Creation! The most distinctive individual of all American Strawberries; it is absolutely new and unlike any other. It is a perfect blooming variety. The berries are large and very attractive. The plants grow strong and stocky, fruit stems short and the plants are full of berries. Berries are bright red with a long neck, parting readily from the Calyx, have very few seeds and sweet as a Sugar Plum. It is a splendid shipper and sells at fancy prices in market on account of its beauty.

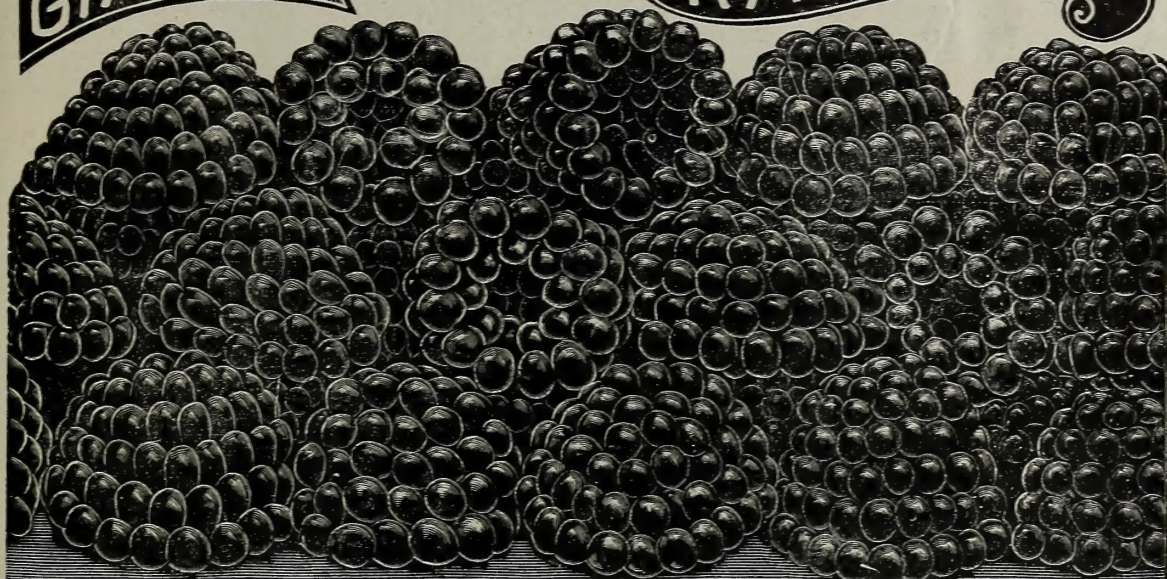

Price of Strong Plants 10c. each, 3 for 25c., 6 for 40c., 15 for 80c., 30 for \$1.50, postpaid. By express, carefully packed, not prepaid, \$3.00 per 100

THE NORWOOD Is the largest Strawberry in cultivation. The plants grow strong and healthy. Berry is conic and regular in shape. Quality is unsurpassed and the size unequalled, some attaining the enormous size of three inches in diameter. Four such berries would fill a box and be crowded. Color bright red all the way through, growing darker with age, is firm, a good keeper and will ship well. Has a perfect blossom and holds its size well through the season and remains in bearing a long time. If you want to grow the largest Strawberries in cultivation, set a few of these plants. Even the plants grow larger and stronger than other strawberries.

Plants 10c. each, 3 for 25c., 6 for 40c., 15 for 80c., 30 for \$1.50, postpaid, By Ex. not prepaid, 100 for \$3.00, 250 for \$7.00, 500 for \$12.00.

GIANT CARDINAL RASPBERRY

GIANT CARDINAL 55 RASPBERRY

This wonderful berry is a surprise in the fullness of its merits—its great growth, extreme hardiness, and the exceeding productiveness of its choice purple, pure-flavored berries. It will pay to grow it everywhere. It is not a novelty, but a variety of great merit. The Giant Cardinal will grow ten feet, and bears in proportion. Leading horticulturists who have seen this berry say that it is one of the wonders of the century, so far exceeding all others as to put it entirely beyond comparison. Judge Wellhouse, president of Kansas State Horticultural Society, said at the meeting of the society that the introduction of the Cardinal Raspberry would add millions to the wealth of the farmers of the country because of its inherent great vigor and exceeding productiveness.

Price of plants 10c., 3 for 25c., 6 for 40c., 12 for 75c., postpaid.

By express, 100 for \$2.00, 500 for \$9.00, 1000 for \$16.00.

NEW EVERBEARING STRAWBERRY—Grows freely from seed and will fruit the first summer. The plants grow very fast. The valuable point of this New Berry is that from the time the first fruit appears they continue to fruit until late in the fall. The Berries are not quite as large as garden varieties, but are enormous yielders, single plants having produced nearly half pint of Berries in one picking as late as October. They are perfectly hardy and will grow anywhere. Seeds: Pkt. 6c., 3 pkts. 15c. We have plants to offer at the following prices: 3 for 15c., 6 for 25c., 15 for 50c., 30 for 75c., 50 for \$1.00, postpaid.

EVERBEARING BLACK RASPBERRY

This is a wonderful Black Raspberry, and will actually bear fruit from June until killed by frost in the fall. The vines grow upright, are very strong, and are literally loaded with fruit in all stages, from bloom to ripe fruit. It creates a great surprise wherever grown, for it has no equal as an everbearing variety.

It is really a Great Berry Novelty, and will be greatly appreciated in any garden. Our engraving shows a cluster of luscious berries on a branch taken from a plant. If you plant St. Regis Everbearing Raspberry for a red variety, and this for Everbearing black, it will make a great combination and such fruit you will be proud to show your neighbors. Be sure to try them and order some plants to set this spring.

Plants 12c. each, 3 for 30c., 6 for 50c., 15 for \$1.00, postpaid. By express, 100 \$3.00.

56 THE GIANT HIMALAYA BERRY

This Wondertul Berry originally came from the cold regions of the Himalaya Mountains. It is perfectly hardy, there being no winter anywhere in America too severe to kill it. It grows like a grape vine, making a growth of twenty-five to forty feet in a year, and can be trained to a trellis of any kind. It looks handsome on an arbor in the garden, back

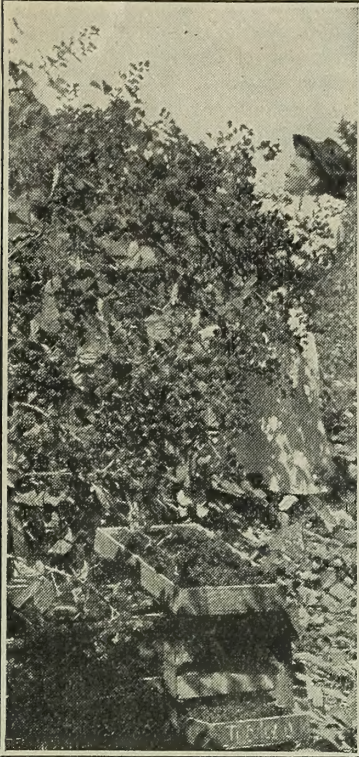

Photo Picking Giant Himalaya Berries. Notice the immense quantities of fruit.

yard, or on the lawn, forming a great bush or weeping tree that is a beautiful sight, when in bloom, with its shell pink blossoms.

It begins to fruit in July and continues to produce fruit until October; the plants growing larger and producing more fruit each year. There is no berry in existence like it. The fruit is large [see photo of cluster below 2-3 natural size] black in color, almost coreless, and unsurpassed for eating, picked fresh from the vines or cooked, canned or preserved in any form. Fruit was shipped a thousand miles the past year and arrived in perfect condition. Plants do well in the hot, dry sections of the South and West and are making wonderful records in the Middle, northern and Eastern States.

Do not fail to order some of the plants this Spring, for they will be a source of great pleasure and profit to you for many years to come. Plants should be set any time in the spring when gardens are being planted and up to June 1st. See following illustrations made from photographs of fruit and plants.

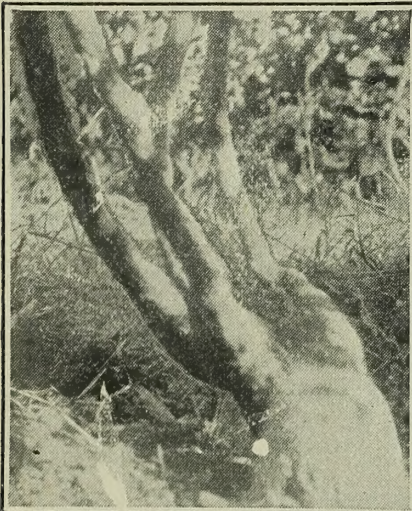

Photo of a main stalk of a 5 year-old vine. Notice the immense size at the base. Himalaya Vines grow larger and stronger each year

This is certainly a most wonderful Berry, because the vines do not die down after fruiting, as is the case with other berries, but continue to live and grow year after year like a grape vine or apple tree.

Order now and be the first to have this magnificent Berry growing in your neighborhood.

J. G. Wiseman, Mareline, Mo., writes: "Last Spring I sent to you for a Himalaya Berry plant, and notwithstanding the dry season they grew over 19 feet long."

James Kyle, Cramer, Ill., writes: "I have just seen a plant called Giant Himalaya that I think is the most beautiful plant I ever saw, I want to buy some of them."

J. G. Hoydock, Bloomfield, Mo., writes: "The Himalaya Berry Plants I purchased last

This photograph shows a cluster of ripe Giant Himalaya Berries just as picked from the vine, two-thirds natural size.

Spring I trained on trellises 10 to 12 feet wide and 8 feet high. From three plants I measured on or about Oct. 15th, a growth of main stalk and branches of 161½ feet. I never saw such a growth in one season."

J. J. Rodebaugh, Collegeport, Tex., writes: "The Giant Himalaya Berry Plants have made a wonderful growth, one plant having grown about 200 feet of vine this season."

Mrs. E. L. Hopkins, Eugene, Ore., writes: "I have grown the Giant Himalaya Berry for several years and I can say I do not know its equal for an all-around Berry for cooking, canning, raw, etc."

Geo. W. Terry, Poteau, Okla., writes: "I want to tell you about my Giant Himalaya Berries. Some of the plants have grown 40 feet since I set them out in the spring, and they are growing about 3 feet every week. They certainly grow as you claimed"

E. Olsen, S. Lyme, Conn., writes: "My Giant Himalaya Plants have done well. They have grown over 20 feet this season."

Full instructions for cultivation, with a booklet of receipts for using the fruit in many ways sent free with every order.

Price of strong well-rooted plants, 20c. each, 3 for 40c., 6 for 75c., 15 for \$1.25, 25 for \$2.00, postpaid.

By express or freight, not prepaid, 100 for \$7.50, 250 for \$15.00, 500 for \$25.00, 1,000 for \$40.00. Set plants any time to June 1st.

A field of 3-year-old Giant Himalaya Berry Plants, showing vines after fall pruning. The main canes do not have branches, nor do they need pruning any more. All growth is top growth, except an occasional branch from the main trunk.

THE HUNDRED DOLLAR

THE HUNDRED DOLLAR

is a wonder. It should not be compared with any other variety. As a producer of enormous quantities of fruit and as a drouth resister there is nothing can equal it. It is a tremendous yielder of the best and most berries over all other varieties. The producer says: "It makes a wonderful sight. The berries pile high on top of each other and to a side view of the rows the berries are more conspicuously prominent than the leaves of the plant themselves. Berry growers, commission men and nurserymen from miles come to see this gigantic production. I do not believe there is another variety of strawberries that will outyield this Giant. The color and flavor is good, it has no core, is one of the best show berries grown, and wins the prize wherever shown. It is a good shipper, but the best for table and canning and for home use, and most profitable to sell on a local market for Big Berries always sell well everywhere."

We believe this Great Berry will attract a great deal of attention wherever grown, and we are very anxious for all our customers to test it. We have a good stock of plants and offer at low prices considering its great value, and guarantee satisfaction.

Plants 15c. each, 3 for 30c., 6 for 50c., 15 for \$1.00, 30 for \$1.60, postpaid. By express, not prepaid, 100 for \$4.00, 250 for \$8.00, 500 for \$12.00.

A SINGLE PLANT

DWARF APPLE AND PEAR TREES

There is no class of trees that attract more attention than the famous Dwarf Apple and Pear Trees.

It is a fact that a Dwarf Apple Tree two years old has borne fine apples but little more than two feet from the ground, the whole tree being less than four feet tall.

For the garden or small yard, where standard trees take up too much space, Dwarf Trees should be planted. They bear quickly, and the fruit is full size and of very fine quality.

DWARF APPLE, LIVELAND RASPBERRY

This is absolutely the very best red early apple known; of wide-spread adaptability, remarkable in tree and

DWARF PEAR TREE
2 YEARS OLD

DWARF APPLE TREE
3 YEARS OLD

fruit, and deserving of the most extended planting. Has been tested everywhere; succeeds South as well as far North; in the East and in the West. It is clear waxen white, striped, shaded and marbled with crimson; medium to large; flesh white, often tinged pink next to skin; very tender and rich. Fruit ripens just a few days ahead of Yellow Transparent and covers a long season—several weeks. Tree is extremely hardy, healthy, vigorous and long-lived; a late bloomer, resistant to blight; a young bearer. Fruit retains freshness in storage remarkably well. We know of no red early apple anywhere near so good as Liveland, and we cannot recommend it too highly. The grower who plants it will have a tree to be proud of.

Strong One Year Old Trees, 80c. each, 6 for \$4.50, by express, not prepaid.

DWARF PEAR TREES

The Dwarf Pear Tree never attains large size, but they come into bearing very much sooner than standard pear trees (Dwarf Pear Trees often bear fruit the second year). Though the tree itself is a dwarf, the fruit it bears is the same size as that produced by the standard tree and is borne in large quantities. The Dwarf Pear Tree is especially suited to the home garden or the small city yard, where space limitations make the planting of standard trees impossible. Plant a few trees and you will be more than pleased.

Strong One Year Old Trees, 80c. each, 6 for \$4.50, by express, not prepaid.

SPECIAL OFFER—We will send 1 Dwarf Apple and 1 Dwarf Pear Tree, by express, not prepaid, for \$1.50, or 3 Trees of each for \$4.00.

CHAMELEON PLANT

NEW TOMATO PEPPER

ONE
PLANT
FROM
PHOTO

This is an interesting plant. The fruits are very attractive, are good size, but flattened, and have strong ribs, similar to a tomato of the old type. The fruits of this new Tri-color or Chameleon Plant pass from white into an intense yellow, and later on into a brilliant scarlet. They change color like a chameleon. The production of fruits is very abundant. They keep well during several months, and there are always and at the same time fruits of the three different colors on the plant, thus producing a very strange effect. It is a great curiosity growing in the garden. Seeds per Pkt. 6c., 3 pkts. 15c.

The Tomato Pepper very much resembles a Tomato in shape and general appearance. Many people when first seeing it call it a Tomato. It makes an upright growth and is distinct from any other; enormously productive and so mild that it can be eaten out of the hand like an apple. It bears from June until killed by the frost and will outyield any other Pepper. It will attract attention wherever grown. The illustration shows shape and appearance, and we want all our customers to grow it this year, for we know it will be a wonder to all who see it. Try it, this year. Seeds per Pkt. 5c., 3 pkts. 12c.

TOM WATSON WATERMELON

This is a wonderful new Water Melon and is a success in all sections where it has been grown. The engraving gives a good idea of an average specimen. It is a long green melon and often grows to weigh from 50 to 60 pounds and is an excellent shipper, flesh an intense red color, of superb quality. There is an enormous demand for this melon which indicates it is a good one. If you grow water melons try this one, and you will have a prize.

Pkt. 5c., 3 pkts. 12c., oz. 10c., 1/2 lb. 30c., 1 lb. 50c., 1 1/2 lb. 60c.
